

# Frontline

MARCH 22, 2024 • EL MODENA HIGH SCHOOL • 3920 E SPRING ST. CA 92869

## Seniors in Neverland

*“Events like Spirit Week are just one way that students can get involved in their campus and community. El Mo is a unique place with a great sense of community. The more students participate, the more the sense of connection grows. It gives students more opportunities to get involved in activities while bonding with students in their class.”*

**- Ms. Kung and Mrs. Chertock**

*“Spirit week defines much of the El Modena experience. Pieces like it are integral to our mosaic of culture here on campus, allowing people from all backgrounds and social circles to mingle and create something truly spectacular. Spirit week to me, is about bringing the classes together through competition.”*

STAFF WRITER

On March 11th as students enter the school it seems as if pixie dust has engulfed El Mo creating a magical environment. The spirit week process is a lengthy one that can only be completed with the help from the lost seniors who dedicate their time and creativity into creating posters, organizing games, and practicing their roles for the assembly on the final day of spirit week.

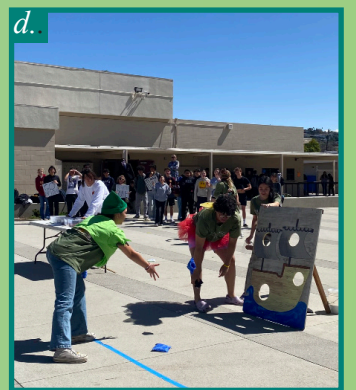

Although grown ups like captain hook have become enemies, the senior class was accompanied by their favorite grown ups Ms.

### Kung and Ms. Chertock!

As senior class advisors Ms. Chertock and Ms.Kung expressed their fondness towards spirit week stating, “It gives us an opportunity to work with students outside of our classroom and see them work together to create an event for all staff and students to enjoy. We get to not only know our students better but other students we don’t have in class. And we get to see them grow over four years! It’s a completely different relationship. It reminds us once again that the best thing about El Modena are our students.”

Senior class president **Brenton Lively**, who played captain hook in the spirit week skit, admires the sense of unity spirit week creates between classes. “Never before had I seen so much cohesion across grades despite the divisive nature of the games.” Lively’s pride in unity is what makes him a great class president.

As spirit week came to an end with the final exciting events, the senior class was able to claim their victory showing all you need is spirit, trust, and a little bit of pixie dust!
