The sophomore crew hopped in their mystery van and are on their way to explore the adventures of Spirit Week! The class of 2026 solves the mystery of finding their school spirit throughout their tricky game, eventful skit, and colorful decorated building. On Tuesday the sopho-

more crew presented their game during lunch. They created a mystery grid with blue painters tape. Two students would proceed to take turns guessing the pattern to the finish line. The mastermind advisor **Mrs. Clark** had the secret pattern and would tell the students to proceed to the route or not. This tricky mind game had everyone trying to solve this puzzle!

The sophomore crew performed their skit for the school on Friday. Their skit included Scooby-Doo costumes, backgrounds, and the mystery van prop, showing how they figure out the mystery of who stole Scooby's magic collar. The sophomores worked so hard to paint numerous posters to decorate the backside of the 200s building. With each door

decorated as a different character, there are colorful streamers, balloons, flower decorations and include every sophomore's name on bones to bring the spirit to spirit week! Despite the wind blowing away many posters for everyone the sophomore building looked full of vanguard soul! We are so proud of all the sophomores that worked hard to show their spirit!

Thank you to the advisors **Ms. Hall** and **Ms. Clark** for helping the sophomore crew accomplish spirit week and to the president **Derek Torres**, Vice president **Dillon Patel**, Treasurer **Addison Sullivan** and secretary **Carter Pilon** for working so hard to make this spirit week memorable. We are looking forward to what the sophomores have to offer in years to come!
