

Reasons for Granting Inter-District Attendance Permits

1. **Child Care** - A permit **may** be granted for a student in **grades K-5** only who is cared for by someone other than the parent/guardian or a Child Care Center in a district different than the student's place of residence, if the parent/guardian is employed or if both parents/guardians are employed. The parent/guardian will be required to obtain a document on letterhead stationary that includes the following:
 - a. Employer's signature.
 - b. Employment verification information to verify that the individual is working during the child's school hours.
 - c. Verification that he/she is currently employed on a full-time regular basis for not less than 30 hours per week.

2. **Residence** - A permit **may** be granted if:
 - a. A student moves from one school district to another during the second school semester and wishes to remain enrolled at the school he/she attended during the first semester to complete the school year. (Proof of change of address is required)
 - b. A twelfth (12th) grade student who moves from one school district to another and wishes to attend the same school he/she attended as a junior. (Transcript required)

3. **Anticipated Move** - A permit **may** be granted if the parent/guardian of a student certifies that a residence is being built in another district or attendance zone; or that money is in escrow for the purpose of securing a residence in another district which the family will occupy within the semester in which the permit is requested. Parents shall furnish documentation, e.g., escrow papers, utility receipts or other acceptable evidence.

4. **Social Factors** - A permit **may** be considered for a student because of psychological social problems, medical problems, parole regulations, etc. Acceptable evidence must be presented to the district personnel, which verifies the student's situation.

5. **Other**- When recommended by the school attendance review board or by county child welfare, probation, or social service agency staff in documented cases of serious home or community problems which make it inadvisable for the student to attend the school of residence
