Canutillo ISD

Food & Nutrition Program

The Canutillo Independent School District Student Nutrition Program will support all federal, state and district polices for healthful school meals for all students as stated by the Health Hunger-Free Kids Act and the Dietary Guidelines for Americans.

Orange yourself with Canutillo greatness!!!

National School Lunch Program

The National School Lunch Program (NSLP) is a federal entitlement program operating in public and private nonprofit schools and residential child care institutions (RCCIs). It provides nutritionally balanced, low-cost or free lunches to children each school day.

AFTER SCHOOL SNACK PROGRAM :

Schools may serve snacks to children after their regular school day ends. Afterschool snacks give children a nutritional boost and draw them into supervised activities that are safe, fun and filled with learning opportunities. A school must provide children with regularly scheduled activities in an organized, structured and supervised environment; include educational or enrichment activities (e.g., mentoring or tutoring programs).

School Breakfast Program

The School Breakfast Program (SBP) is a federal entitlement program operating in public and private nonprofit schools and RCCIs. Beginning as a pilot project in 1966, the SBP was made permanent in 1975 and is administered at the federal level by the FNS. TDA administers the program at the state level and local CEs administer the program at the local level in public schools, private schools, and RCCIs. Participating schools receive cash assistance from USDA for each breakfast served that meets program requirements.

Summer Food Program

Ensures that children continue to receive nutritious meals during long school vacations, when they do not have access to school lunch or breakfast. It provides nutritious and free meals to children 18 and younger during the summer months.
