

All schools will participate in federal National School Nutrition Programs and will receive commodities donated by the United States Department of Agriculture. All federal and state revenues will be accepted and applied to maximize the use of such funds for the purposes of providing nutritional meals to students at the lowest possible price. The superintendent or designee shall develop procedures as necessary to implement the operational standards established in this policy.

A. OPERATIONAL STANDARDS

The school nutrition services program will be operated in a manner consistent with Watauga County Board of Education (the “board”) goals and board policy. The program also will be operated in compliance with all applicable state and federal law, including requirements of the National School Lunch Program and all federal guidelines established by the School Nutrition Division of the United States Department of Agriculture. Specific legal requirements that must be met include, but are not limited to, the following.

1. School officials may not discriminate based on race, sex, (including pregnancy, childbirth, sexual orientation, and gender identity), color, national origin, disability, age, or eligibility status for free and reduced price meals. School officials are also prohibited from retaliating against an individual for prior civil rights activity.
2. The school nutrition services program will meet safety and sanitation requirements established in local, state, and federal rules and guidelines for school nutrition services programs.
3. The school nutrition services program will have a written food safety program that includes a hazard analysis critical control point plan for each school.
4. Menu preparation, purchasing, and related record keeping will be consistent with applicable state and federal rules and guidelines.
5. Banking, financial record keeping, budgeting, and accounting will be conducted in accordance with generally accepted practices and procedures, as dictated by the School Budget and Fiscal Control Act and in accordance with state and federal guidelines.
6. Commodity foods donated by the United States Department of Agriculture will be used and accounted for in accordance with federal regulations.
7. Preference will be given in purchasing contracts to high-calcium foods and beverages, as defined in G.S. 115C-264.1 and to foods grown or raised within North Carolina.

8. School Nutrition Program (SNP) funds will be used only for the purposes authorized by law. Indirect costs, as defined by law, will not be assessed to the SNP unless the program has an operating balance of at least two months.
9. The price for meals will be determined in accordance with federal law.
10. Non-program foods will be priced to generate sufficient revenues to cover the cost of those items. A non-program food is defined as a food or beverage, other than a reimbursable meal or snack, that is sold at the school and is purchased using funds from the school nutrition account.
11. All school nutrition services will be operated on a non-profit basis for the benefit of the SNP. School nutrition services are those that operate from 12:01 a.m. until 30 minutes after the end of the school day.
12. All income from the sale of food and beverages that is required by law or regulation to be retained by the SNP will be deposited to the SNP account and will be used only for the purposes of the school's non-profit lunch and breakfast programs. All other funds from food and beverage sales not otherwise required by law to be deposited to the SNP account will be deposited into the proper school account in accordance with guidelines developed by the superintendent or designee.
13. All competitive foods sold on school campuses will meet federal and state standards for nutrient content.
14. To the extent feasible consistent with legal, regulatory, and budgetary limits, the purchase of locally sourced foods and beverages is encouraged in the School Nutrition Program.
15. All employees whose job duties include procurement activities involving School Nutrition Program funds shall adhere to the conflict of interest rules and standards for ethical conduct established by the board in policies 6401/9100, Ethics and the Purchasing Function, and 8305, Federal Grant Administration. Failure to comply with these requirements will result in disciplinary action.

B. MEAL CHARGES

Students who are required to pay for meals are expected to provide payment in a timely manner. The board recognizes, however, that students may occasionally forget or lose their meal money. No adults will be permitted to charge meals or other items in the school cafeteria. No student will be permitted to charge supplemental or a la carte items, including milk.

No student will be deprived a meal nor served an alternate meal due to forgotten or lost money. At no time will a student meal be retrieved once the student has received the tray. The student shall be allowed to eat the meal and the student's account will be charged

accordingly.

If a student meal account has a negative balance, money offered by the student for purchase of supplemental or a la carte items cannot be used to pay against the negative balance without the student's permission.

The school nutrition director and principal shall work jointly to prevent meal charges from accumulating. Every effort will be made to collect all funds due to the school nutrition program on a regular basis and before the end of the school year. This may include but is not limited to sending letters home with students, sending emails to parents, and sending automated calls to homes. If a parent regularly fails to provide meal money and does not qualify for free meal benefits, the school nutrition program shall inform the principal, who shall determine the next course of action. This may include notifying the department of social services of suspected child neglect and/or taking legal steps to recover the unpaid meal charges. The principal shall not impose any administrative penalties on a student for unpaid meal charges. Administrative penalties include withholding a student's records, prohibiting a student from participating in graduation, and denying a student a diploma.

Parents are expected to pay all meal charges in full by the last day of each school year. Negative balances on student meal accounts cannot be carried forward to the following school year. All negative balances will continue to be owed to the school office until paid in full. The superintendent shall ensure that federal school nutrition funds are not used to offset the cost of unpaid meals and that the SNP is reimbursed for bad debt resulting from uncollected student meal charges prior to the last day of the school year. The school's general fund, or other fund designated by the school principal, will be financially responsible for outstanding charges that have not been paid.

This policy and any applicable procedures regarding meal charges must be communicated to school administrators, school food service professional, parents, and students. Parents will receive a written copy of the meal charges policy and any applicable procedures at the start of each school year and at any time their child transfers into a new school during the school year.
