

Making Payments Online

How can I make payments online for food service, fees, and fundraisers?

Kankakee Valley School Corporation (KVSC) uses a third-party product called e-Funds for Schools (EFS). EFS allows schools to collect fees via one payment processing source. The district will upload student information, but parents must create and manage their e-funds account. The link to the e-Funds website can be found [here](#). You can also access e-Funds on the KVSC website by going to the "**Parents**" tab and scrolling down to "**Online Payments**."

How do I create my parent account on e-Funds?

1. Visit the KVSC e-Funds website. (<https://payments.e-Fundsforschools.com/v3/districts/55568>)
2. Click on **Create an Account**
3. Provide the requested information
4. Click **Create Account**

Where do I get the "student number" to use for e-Funds?

The student number can be found in the Family Access Portal under the Student Info tab. It's listed as "Other ID" underneath the student's picture.

I forgot my e-funds username and/or password. What do I do?

Go to the e-Funds website and click login. You'll be able to use the **Forgot Username** or **Forgot Password** option on that page. You'll need to enter the email address you used when you set up the account. If you have also forgotten which email address you used when you set up the account you will have to contact e-Funds directly by using the **Contact Us** link provided on the bottom left-hand side of the welcome page. (KVSC does not have access to that information.) Customer service may ask you for your family number or student number.

Why isn't the lunch balance accurate on the e-Funds website?

e-Funds does not have a direct link to the student database (Skyward). Instead, a file needs to be generated and submitted to e-Funds. However, Skyward Family Access provides accurate daily information on food service balances. Any payment made through e-Funds is immediately updated in Skyward.

I cannot access my student's account in e-Funds even though I am logged in.

If your child is new to the school district, their information may take a few days to be uploaded into e-Funds. As a result, you may not be able to manage your account immediately. However, it should be available to you within 24-48 hours.
