

Gordon Lee Middle School

Dear Parents,

In order to be in compliance with the Georgia state law, we need the following paper from your 6th grader. Before entering middle school, each student must have a new updated:

**** Georgia Certificate of Immunization form (form 3231) ****

The immunizations required are:

**5 DTP, 3 Hepatitis B, 2 Hepatitis A, 4 IPV, 2 MMR, 2 Varicella (chicken pox),
1 TDAP, and 1 MCV4 (meningococcal).**

****A new updated shot record must be turned in at the beginning of 7th grade for all middle school students!****

This form must be dated and signed, and, in the lower right corner, the clinic or doctor's address and phone number must be written.

If you do not get immunizations for your child, you must go to the Georgia Department of Public Health and print out the Affidavit of Religious Objection to Immunizations, have it signed and dated properly and notarized. If you have shot records from another state, you must have them transferred over to the Georgia form. Your doctor or local health department should be able to do this for you. The state comes shortly after school starts and checks each student record. Each student has 30 school days to have the correct paperwork turned in to the school. If the correct paperwork is not turned in by then, the student will not be allowed in class, and the school could be fined until it is corrected. If you have any questions, feel free to contact me at 382-3100 ext. 1006.
