

2024 COMPUTATIONAL BIOLOGY RESEARCH CAMPS FOR HIGH SCHOOL STUDENTS

Students will learn to do computational biology research using clinical data to identify genes related to certain diseases!

- **Location:** Online/In-person
- **Audience:** High school students (including incoming freshmen)
- **Camps Offered:** Computational Biology (CB), Biotechnology Sequencing (BTS), R Programming & Machine Learning (R Camp)

Session	Dates	Location	Time
CB #1	June 17 – June 21	University of Michigan	9 am – 4 pm (ET)
CB #1 Virtual	June 17 - June 21	Online Only	9 am – 4 pm (CT)
CB #2	June 24 – June 28	University of Michigan	9 am – 4 pm (ET)
CB #2 Virtual	June 24 – June 28	Online Only	9 am – 4 pm (CT)
R Camp	July 8 - July 12	Online Only	9 am – 4 pm (CT)
CB #3	July 22 - July 26	Scripps Research Institute	9 am – 4 pm (PT)
BTS	July 29 - Aug 2	Scripps Research Institute*	9 am – 4 pm (PT)

*Virtual option also available

We also offer the **Sequencing Your Genome Camp**, a 3-week program that includes both CB and BTS weekly camps, and an additional week (Aug 5 - Aug 9) for students to analyze their own genomes!

Visit miRcore website for more information and registration!
