Dr. Jason B. Atkinson, Superintendent

March 11, 2024

Dear Parents and Students,

The time is now upon us to begin the high school course registration process for the 2024-2025 school year. This handbook outlines course offerings, graduation requirements, and other information for our high school students. It is being provided in an electronic format to capture any additional changes that may come as a result of legislation or actions by the NC State Board of Education and the NC Department of Public Instruction. Please make sure that you read the handbook carefully as there have been changes since last year as a result of new legislation. You can find the most recent version of this handbook on our district website.

As you plan course selections for next year, consider your choices for courses and try to maintain a balance between core and elective courses that will guide you steadily towards the path for graduation. You are encouraged to take time to explore course options and selections as you consider your future goals. It is our mission as a school district to ensure that all students are future-ready by providing meaningful learning experiences in an inclusive and supportive environment.

We are here to assist you and your child. Guidance counselors and administrators will be meeting with students to begin the course selection and registration process. Please do not hesitate to reach out to your child's counselor or principal with any questions or concerns that you may have.

With warmest regards,

A handwritten signature in black ink, appearing to read 'Jason B. Atkinson', on a light blue background.

Jason B. Atkinson, Ed.D.
Superintendent

For Ninth Graders Entering in 2021-22 and Later Two Courses of Study Leading to One Diploma

CONTENT AREA	FUTURE READY CORE Course of Study Requirements	FUTURE-READY OCCUPATIONAL Course of Study Requirements

General Information

Welcome to the spring registration process for the 2024-25 school year!

Bladen County Schools' High School Registration Handbook contains information needed to register and is designed to help you and your parents or guardians make the best choices for your high school education. You'll find many exciting options for you as a high school student in this book. Read through it carefully.

It will be especially important for you to talk with your counselors, parents and teachers concerning your course selections. Choices that you make in high school affect your options for study and career after your time in high school has ended, so please give serious consideration to your course choices. In order to earn a high school diploma, you must meet all course, credit, and test requirements of at least one course of study. These courses of study are designed by the state to prepare students for a multitude of post-high school opportunities from entry-level careers to highly technical studies at community colleges, colleges and universities. You are encouraged to select the most challenging course of study in which you can be successful.

REGISTRATION IS A COMMITMENT to take the courses you have selected. Remember, when you complete your registration sheet you are requesting a specific course, NOT a specific teacher, time or place. You may choose the courses you would like to take in the next school year; however, your schedule may change pending final grades in the courses you are currently taking and your End-of-Grade (EOG) or End-of-Course (EOC) scores.

7 Key Steps for Selecting Courses

- STEP 1: Review the Future Ready Standard Course of Study Pages 3 -4. Make sure you fully understand the requirements needed to earn your high school diploma. Talk to your school counselor and/or teachers if you need help understanding graduation requirements.
- STEP 2: Complete the High School Graduation Plan worksheet located in the back of this manual.
- STEP 3: Be sure you understand your teachers' recommendations. Courses may be offered on standard, honors, or Advanced Placement levels. You should follow your teachers' recommendations concerning the level that would best support your academic success. However, if you, your parents/guardians, and your school counselor discuss other options and agree that a different plan would be appropriate for you, please request a level change. As a general guideline, Bladen County Schools encourages you to take the most challenging courses and levels that you can successfully complete. School counselors and teachers use a variety of data to help you make course and level decisions.
- STEP 4: Meet with your school counselor to discuss how your course selections can best help you progress towards

graduation and meet your goals for post-secondary education.

- STEP 5: Complete your school's registration form and return it by the due date indicated on the form. Be sure that you request the courses you really want to take! Schools plan their master schedules based on their students' requests; therefore, it is unlikely you will be able to make changes to your schedule after the school year begins.
- STEP 6: Review your course selections and final schedule when you receive them from your school. Make sure your schedule includes the required courses you need for graduation, the correct levels of each course, and the electives you requested.
- STEP 7: If you need to change any of the courses on your schedule, be sure to do so during the designated schedule change period at your high school.

The information provided in this book is current at the time of printing. It is recommended that you work closely with your school counselor during the registration period to be aware of any changes.

Planning for High School Registration

Your high school classes should be selected based on your career and educational aspirations. Careful four-year planning will give you a challenging class schedule that meets all requirements and allows opportunity to explore your interests.

Grade Level Placement

Grade Level	Minimum Units of Credit
Sophomores	Six (6) (Must include English I credit)
Juniors	Twelve (12) Must include English II and Math I credit (with EOC score); must be enrolled Biology
Seniors	Twenty (20) Must include Biology credit (with EOC score); English III credit
Graduates	Twenty-Eight (28); Must complete CTE WorkKeys Assessment if a CTE completer

Adjustments must be made for those students who transfer in from a six or seven period day. Consult the counseling office for detailed information.

Note: Students graduate under the state and local requirements which were in place when they entered the ninth grade.

1:1 Initiative

Bladen County Schools is pleased to provide a 1:1 program for students at both high schools. This program provides an opportunity for students to receive a computer from the school district to support them in their academic endeavors. A minimal user fee is required annually for the laptops. All students ARE REQUIRED to obtain a technology device through this program. Specific information regarding these programs will be shared prior to students leaving for summer break with multiple opportunities for devices to be obtained prior to school resuming for the 2024-25 school year.

School Counseling Services

The school counselor:

- assists students in selecting appropriate courses
- consults with students, parents, and staff on topics related to academic success
- meets with students annually to review their diploma requirements, courses and Career Development Plan
- presents information to families and students to access postsecondary and career opportunities
- counsels with students, individually or in groups, on normal developmental issues
- serves as liaison and resource for students, school staff, and parents to community resources

High School Athletics

In order to participate in the Bladen County Schools' Athletic Program, a student must:

1. Be a resident of Bladen County and/or be attending the school to which he/she is assigned by the Bladen County Schools Board of Education. Except for special circumstances, a student's residence shall be deemed to be the residence of his/her parents.
2. Be in attendance at least 85% of the previous semester in an approved high school. For the 2024-25 school year, this would allow the following absences before falling below 85% attendance: Spring 2024—14.5 absences; Fall 2024--11.5 absences.
3. Be scholastically eligible, which shall be defined as passing a minimum load of work during the preceding semester to be eligible at the beginning of the current semester while meeting local promotion standards. A minimum load is defined as three (3) courses on a block schedule.
4. Receive an initial medical examination by a duly licensed physician, nurse practitioner or physician's assistant. If selected as a player, the student must receive a medical examination once every 365 days thereafter.
5. No student may be eligible to participate at the high school level for a period lasting longer than eight (8) consecutive semesters, beginning with the student's first enrollment in the ninth grade.
6. No student may participate longer than four (4) seasons in a single sport.
7. No student may be approved for any athletic contest if his/her 19th birthday is on/or before October 16th of the current year.
8. If a student transfers from one school in Bladen County to another school in Bladen County, but does not change his/her residence, he/she will be ineligible to participate in athletics for one full year (365 days).
9. Students and parents must have completed the required concussion form to be eligible for tryouts in any team sport.
10. Athletes must have one course that physically meets on the high school campus in order to remain eligible to participate.

NOTE: These are general rules for participation. Each athlete must confer with his or her coach for specific eligibility requirements. For information on NCAA Eligibility requirements contact www.nchsa.org or call the NCAA Eligibility Center at 1-877-262-1492.

English as a Second Language Program

This program serves students identified as Limited English Proficiency. English skills are evaluated by an ESL teacher. Qualifying students will be provided services.

Driver Education

Driver Education is not taught during the school day. The class requires 30 hours of classroom instruction and 6 hours of driving time with a certified instructor. This program is a contracted service available to students at a minimum cost. In North Carolina, students under 18 can lose their driver's license if they:

- Drop out of school;
- Fail to make adequate academic progress; or
- Commit certain offenses resulting in out of school suspension.

DROPOUT PREVENTION/DRIVER'S LICENSE LEGISLATION

North Carolina House Bill 769 became effective December 1, 1997 and reflects a coordinated statewide effort to motivate and encourage students to complete high school. This legislation requires that a student's driving permit or license be revoked if a student is unable to maintain adequate progress or drops out of school. Adequate progress is defined as passing 70% of all courses and is determined by first semester grades and second semester grades for schools on block scheduling.

In rare cases, there may be circumstances beyond the control of the student or his/her parents that qualify as a hardship. If a hardship exists, the student may request a waiver. If the waiver is granted, the student would not be affected by the legislation. Hardship cases are rare and are reserved for extreme situations. Hardship Review forms are available at your school and must be submitted within the time-frames indicated. Documentation of the hardship is essential and must be submitted with the hardship request for consideration.

LOSE CONTROL, LOSE YOUR LICENSE LEGISLATION

North Carolina Senate Bill 57, which became effective July 1, 2000, requires that a student's driving permit or license be revoked for one year (365 days) if a student is given a suspension for more than 10 consecutive days or an assignment to an alternative educational setting for more than 10 consecutive days for one of the following reasons:

The possession or sale of an alcoholic beverage or an illegal controlled substance on school property;

- The possession or use on school property of a weapon or firearm that resulted in disciplinary action under G.S. 115C-391 (d1) or that could have resulted in that disciplinary action if the conduct had occurred in a public school; or
- The physical assault on a teacher or other school personnel on school property.

Students who are at least 14 years old or who were rising 8th graders on or after July 1, 2000, are subject to this law. Students who were issued a NC driver's permit or license before December 1, 1997, or students who are 18 years old or older cannot be charged under this law.

Unlike the "Dropout Prevention/Driver's License" law that only affects students under the age of 18, the "Lose Control" law does not stop at age 18. It is possible for a student to have his or her license suspended as a 17-and-a-half-year-old and not be eligible to drive for a full calendar year, reaching 18-and-a-half before again being eligible to drive.

See <http://www.ncpublicschools.org/safehealthyschools/driver-ed/faq> for more information on Frequently Asked Questions.

Standardized Transcript Grading and Weighting

Under legislative mandate, grade point average calculations are based upon standardization of academic course levels, weighting of course grades, and grading scales: Standard courses provide credit toward a high school diploma. Quality points for the GPA calculation are assigned according to the standard 4.0 scale and receive no additional quality points. Honors courses are more challenging than standard level courses and are distinguished by a difference in the depth, and scope of work required to address the NCSCOS. The state course weighting system awards the equivalent of .5 (one-half) quality point to the grade earned in Honors courses. Advanced Placement/International Baccalaureate (AP/IB) courses are considered college level as determined by the College Board of International Baccalaureate program and are designed to enable students to earn high scores on the AP and/or IB test, potentially leading to college credit. The state weighting system awards the equivalent of one (1) quality point to the grade earned in an AP/IB course. College courses (dual enrollment) are college courses which may be delivered by a community college, public university or private college or university. They provide credit toward a high school diploma and may satisfy a graduation requirement or provide an elective course credit. **The state weighting system adds the equivalent of one (1) quality point to the grade earned in community college courses included on the most recent Comprehensive Articulation Agreement Transfer List, and for courses taught at four-year universities and colleges. All other college courses will receive no added quality points.**

***Students transferring from another public-school system or from a charter school into Bladen County Schools will receive credit for all courses approved by the sending school and weighted credit for all courses designated by the sending school system as Honors or AP.**

Academic Course Levels and Associated Weights

Standard (S)

Course content, pace, and academic rigor follow standards specified by the North Carolina Standard Course of Study (NCSCOS). Standard courses provide credit toward a high school diploma and require the end-of-course test for those courses identified as such in the NC accountability program. Quality points for the GPA calculation are assigned according to the standard 4.0 scale and receive no additional quality points.

Honors (H)

Course content, pace, and academic rigor place high expectations on the student, demanding greater independence and responsibility. Such courses are more challenging than standard level courses and are distinguished by a difference in the depth and scope of work required to address the NCSCOS. These courses provide credit toward a high school diploma and require the end-of-course test for those courses identified as such in the NC accountability program. An honors review process shall be followed, as outlined in the latest edition of the *North Carolina Honors Implementation Guide*. The state

course weighting system awards the equivalent of one-half (.5) quality point to the grade earned in the Honors courses.

Advanced Placement (AP)

Course content, pace, and academic rigor are considered college-level as determined by the College Board and are designed to enable students to earn high scores on the AP test potentially leading to college credit. These courses provide credit toward a high school diploma and require an EOC in cases where the AP course is the first course taken by a student in a subject where an EOC is required by the NC accountability program. The state weighting system awards the equivalent of one (1) quality point to the grade earned in an AP course.

Students enrolled in advanced placement courses must take the AP Exam. The cost of the exam is the RESPONSIBILITY of the student unless a state-granted waiver is available to the local education agency (LEA) to fund the costs of AP Exams.

College Courses (Dual Enrollment)

Course content, pace, and academic rigor, are by definition, college level for these courses. College courses which may be delivered by a community college, public university, or private college or university, provide credit toward a high school diploma and may satisfy a graduation requirement or provide an elective course credit. The state weighting system adds the equivalent of one (1) quality point to the grade earned in community college courses included on the most recent Comprehensive Articulation Agreement Transfer List, and for courses taught at four-year universities and colleges.

Graduating With Honors

The designation for graduates graduating with honors is as follows:

Honor Designation	Grade Point Average
Summa Cum Laude	4.0+
Magna Cum Laude	3.8-3.99
Cum Laude	3.6-3.799

NCDPI High School Endorsements

Students enrolled in North Carolina high schools shall have the opportunity to earn Endorsements to their High School diploma. There are five endorsements available: Career Endorsement, College Endorsement, College/UNC Endorsement, North Carolina Academic Scholars Endorsement, and/or a Global Languages Endorsement. Each has specific criteria that must be met to receive the appropriate Endorsement seal, and these requirements are available for download at

<http://www.ncpublicschools.org/docs/curriculum/scholars/endorsement-require.pdf>.

NORTH CAROLINA ACADEMIC SCHOLARS ENDORSEMENT

To receive the North Carolina Academic Scholars seal of recognition on your diploma, the following criteria must be met:

a) The student shall complete the Future-Ready Core mathematics sequence of Math I, II, III; Algebra I, Geometry, Algebra II; or Integrated Math I, II, III and a fourth mathematics course that meets

University of North Carolina system Minimum Course Requirements that include a mathematics course with either Math III, Algebra II, or Integrated Mathematics III as a pre-requisite.

b) The student shall complete three units of science including an Earth/Environmental science course, Biology, and at least one physical science course that must include either physics or chemistry.

c) For students entering ninth grade in 2012-13 or later, the student shall complete four units of social studies.

d) The student shall complete two units of a world language (other than English).

e) The student shall complete four elective credits in any one subject area, such as Career and Technical Education (CTE), JROTC, Arts Education, World Languages, or in another content area.

f) The student shall have completed at least three higher-level courses during junior and/or senior years which carry quality points such as Advanced Placement, International Baccalaureate or Dual Enrollment courses; Advanced CTE and CTE credentialing courses; honors level courses, or Project Lead the Way courses.

g) The student shall earn an unweighted grade point average of at least 3.50.

Students who qualify for this special recognition will be designated by the State Board of Education as a North Carolina Academic Scholar, will receive a seal of recognition attached to their diploma, may receive special recognition at graduation exercises, may be considered for scholarships from local and state business/industrial community, and may use this special recognition in applying to post-secondary institutions. For more information about this and all other NC High School Diploma Endorsements, please visit www.ncpublicschools.org/curriculum/scholars.

Grading Scales

In keeping with a North Carolina State Board of Education Policy, the following grade conversion scale is being used: Effective with the freshman class of 2015-2016, honors courses will receive one-half (0.5) additional quality points and advanced placement and college courses will receive one (1) additional quality point.

Percentage Grade	Standard
90-100	4.0
80-89	3.0
70-79	2.0
60-69	1.0
<60	0
FF, WF, WP, INC, or P	0

Please note that weighted quality points for Honors and Advanced Placement courses will be awarded in accordance with NC State Board of Education Policy. In the event that the State Board policy changes, Bladen County policy will change to reflect the policy.

Cancellation of Courses

Course options are included in the Bladen County High School Handbook. While courses may be advertised, certain courses may be cancelled as a result of low enrollment. While all effort is taken to provide educational opportunities to meet the needs of all students, on occasion, courses must be cancelled. Generally, **a minimum of 10 students** must be enrolled in a course in order for the course to be

offered. Likewise, Bladen Community College may require a minimum number of students for a course to be held.

Assessments

NORTH CAROLINA END OF COURSE TEST REQUIREMENTS

End-of-Course (EOC) tests will be administered for the following courses:

NC Math 1
English II
Biology
NC Math 3

HIGH SCHOOL EXAMS AND NC FINAL EXAMS

All high school final exams count as 20% of a student's final mark for all courses. High School end-of-course tests are required by State Board policy for all students taking courses with end-of-course tests and who will be earning credit toward graduation. All Career and Technical Education (CTE) courses require state end-of-course post-assessments. All other courses must administer teacher-made final exams. The teacher-made and CTE post-assessments count as 20% of the final grade by Bladen County Board of Education policy.

University Preparatory Admission Requirements

Students who are planning to continue academic studies beyond high school (technical college, community college or four-year college) should select courses that will meet admissions requirements. Each college has its own admissions requirements. **Minimum** admissions requirements for the 16 constituent institutions of the University of North Carolina and for many other institutions are presented for your information.

MINIMUM COURSE REQUIREMENTS FOR UNDERGRADUATE ADMISSION TO UNC INSTITUTIONS:

To enroll in any of the 16 universities above, which make up the University of North Carolina, students must meet the minimum course requirements outlined here:

- **English: 4 Units**
 - o English I, English II, English III, English IV
- **Mathematics: 4 Units**
 - o Algebra I, Geometry, Algebra II and 1 additional unit beyond Algebra II OR NC Math 1, NC Math 2, NC Math 3 and one additional unit beyond NC Math 3 (Recommended a mathematics course unit be taken in 12th grade)
- **Science: 3 Units**
 - o A physical science course, a live or biological science course, at least one lab course
- **Social Studies: 2 Units**
 - o US History, one additional course
- **Additional Core Requirements:**
 - o Two additional academic courses from English, mathematics, science, social studies, world languages, or computer science.
(Note: these courses should be selected in alignment with a student's academic and career

objectives. Completion of two sequential world language courses is recommended.)

- Electives

- o Additional electives must be included to meet local graduation requirements

With the help of the teachers, counselors, and administration, each student should plan a strategy for meeting the entrance requirements of the college of his/her choice. "Course units" as defined in these requirements may include those high school-level courses taken and passed by an applicant after graduating from high school, as well as those taken while enrolled as a high school student.

Note: Each university may require other courses in addition to these requirements; therefore, prospective students should refer to the catalogs and contact the admissions offices of any universities to which they plan to apply.

In determining the admissibility of each applicant, institutions also consider factors other than courses completed.

Other factors may include high school grades, rank in class, scores on college entrance examinations and recommendations.

MINIMUM ADMISSIONS REQUIREMENTS (FOR HIGH SCHOOL GPA AND SAT SCORES)

Year	Minimum GPA	Minimum SAT**	Minimum ACT Composite
Fall 2013 and beyond	2.5	800	19

Students applying for admission for fall 2006 or after, for which standardized test scores are required, must submit either the SAT I (which includes the writing component) or the ACT with the writing component.

**Combined Critical Reading and Math Scores

High School Attendance Policy

Total Absences Per Semester*	Procedure
Up to 10 absences	Principal/School follows LEA Policy
11-15 absences	Waiver required for promotion/retention, committee review, and hearing
More than 15 absences	Superintendent Decision with review of waiver documentation

*excused and unexcused absences included in total

Honors & Awards

VALEDICTORIAN, SALUTATORIAN, HONOR ROLL, AND JUNIOR MARSHALS

Junior Marshals: A junior marshal is an honor bestowed on the top academic students from the high school junior class. Junior marshals may serve as the ambassadors for the school at important academic functions. In order to establish consistent eligibility standards and selection processes among high schools, ranking for junior marshals will be determined at the end of the third nine-week grading period. High schools will select the top twenty (20) students ranked with weighted GPA after the second nine weeks to serve as junior marshals. The two junior marshals with the highest GPAs will serve as co-chief marshals. At BECHS, sophomores may qualify as marshals due to their accelerated course path.

Valedictorian and Salutarian: Ranking for these honors will be determined at the end of the first semester grading period. The determination of these honors will be based on weighted GPAs.

High School Honor Roll: Superintendent's List: 96 or above in all classes the final nine weeks period.

A Honor Roll: No grade below 90 in any class. No FF's – Final 9 weeks grading period.

A/B Honor Roll: No grade below 80. No FF's – Final 9 weeks grading period

Early Graduation & Flex Period

The Bladen County Board of Education approved a Senior Acceleration Opportunity that allows seniors who have completed all graduation requirements by the end of first semester of their senior year to graduate early. Flex Scheduling is offered to seniors who have earned enough credits and met other graduation requirements. This enables eligible seniors to take only 3 classes during a semester. A rising senior who qualifies and wants to apply for either of these options must obtain and complete an application by a designated deadline. Interested students should consult with their school counselors for more information.

Recent Legislation

Art & Computer Science

In the last 3 years, two additional requirements have been added to the high school graduation requirements: arts education and computer science. Students entering grade 9 for the first time in 2025-26 must have at least one arts credit. Students entering high school in the 2026-27 school year must have at least one computer science credit. Both art and computer science credits can be earned at any time in grades 6-12, and we have made provisions for that in our middle school schedules to the extent possible.

CCRG

The State Board of Community Colleges (SBCC) in consultation with the State Board of Education (SBOE) is required, by North Carolina law, to develop a program that introduces the college developmental math, reading, and English curriculum in the high school senior year. High school seniors that are not career and college ready by the end of their junior year, will have opportunities for college remediation prior to high school graduation through cooperation with community college partners.

High schools are required to use the curriculum approved by the SBCC, in consultation with the SBOE. The courses will be delivered by high school faculty after completing training requirements.

Students who record an unweighted cumulative GPA of 2.2-2.799 will be required to complete the courses offered to fulfill the requirements of this legislation. These courses are embedded into the English IV curriculum as well as the fourth level math course.

Career & College Promise

Career & College Promise (CCP) provides seamless dual enrollment educational opportunities for eligible NC high school students in order to accelerate completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills. CCP pathways offer students rigorous and relevant coursework designed to engage their interests and help them achieve educational and career goals.

In order to be eligible, in addition to other criteria established by institutions of higher education, a student must be a high school junior or senior. CCP students must adhere to all regulations, including attendance at both institutions. Students who successfully complete college courses earn college credit they can take with them after graduation. In some cases, students can also earn dual credit - meeting high school graduation requirements with college courses. Students will receive 1 added quality point on the high school transcript for college courses in the College Transfer Pathway. All other college courses will receive no added quality points. See *Bladen Community College High School Programs* starting on page 46.

Students interested in participating in the CCP program should contact their school counselor for application procedures. Once a student is registered for the program, they must submit a copy of their CCP schedule to the high school. Participants are not to drop CCP classes without permission from their high school principal.

CCP Program enrollment is available to freshman and sophomore students who meet certain enrollment conditions. Please see Appendix C in this book for specific conditions of enrollment. You may access this checklist electronically [HERE](#). To access the official application for advising and potential enrollment in the CCP program as a freshman or sophomore, please see Appendix D or click [HERE](#) for electronic access.

Bladen Early College High School Associates & Pathway Programs

The Bladen Early College High School will focus on both college transfer degree and Career and Technical Education (CTE) certificates, diplomas, and degrees. Early college students will have access to Bladen Community College curriculum degrees including:

General Education

Associate in General Education (A10300)
Associate in General Education-Nursing (A1030N)

College Transfer

Associate in Arts (A10100)
Associate in Science (A10400)
Associate in Arts in Teacher Preparation (A1010T)
Associate in Science in Teacher Preparation (A1040T)

Certificate, Diploma and/or Associate in Applied Science

Agricultural and Natural Resources Technologies Agribusiness Technology (A15100)
Business Technologies Accounting and Finance (A25800)
Business Administration (A25120)
Information Technology (A25590)
Medical Office Administration (A25310)
Office Administration (A25370)

Construction Technologies

Air Conditioning, Heating, and Refrigeration Technology (A35100)
Carpentry (Diploma) (D35180)
Electrical Systems Technology (A35130)

Engineering Technologies

Mechatronics Engineering Technology (A40350)

Health Sciences

Associate Degree Nursing (A45110)
Emergency Medical Science (A45340)

Practical Nursing (Diploma)(D45660)

Industrial Technologies

Industrial Systems Technology (A50240)
Welding Technology (A50420)

Public Service Technologies

Cosmetology (A55140)
Criminal Justice Technology (A55180)
Early Childhood Administration (C55850)
Early Childhood Education (A55220)
Early Childhood Preschool (C55860)
Infant/Toddler Care (Certificate) (C55290)

Workforce Continuing Education Certificate

Nurse Aide

Just One More Thing...

Bladen Early College offers a unique experience. Students work individually with a counselor and college liaison to personalize their schedules based on their educational or career aspirations. High school courses are fast-tracked to allow our students ample time to earn a college degree or certificate in their chosen field during their four-year experience. Bladen Early College assumes the financial responsibility of tuition and books as well as the responsibility of class registration. Our students enjoy dual citizenship with the college and have access to all programs offered by Bladen Community College.

High School Course Offerings

Art and Music

54152X0A VISUAL ARTS (BEGINNING)

Credit: 1 Unit

Grades 9-12

Students will study art history, art criticism, and aesthetics through studio exploration of two- and three-dimensional fine art, craft media and techniques.

54162X0B VISUAL ARTS (INTERMEDIATE)

Credit – 1 Unit

Grades 9-12

Prerequisites: 54152X0A Visual Arts (Beginning)

Students will expand the study of art history, art criticism and aesthetics through studio exploration of fine art and craft media and techniques.

54175X0C (Honors) VISUAL ARTS (PROFICIENT)

Credit: 1 Unit

Prerequisites: 54162X0B Visual Arts (Intermediate)

Grades 10-12

This honors course is a specialized study of materials, techniques, historical and critical concepts that requires in-depth research and portfolio assessment.

54185X04 (Honors) VISUAL ARTS (ADVANCED)

Credit: 1 Unit

Grades 10-12

Prerequisites: 54175X0C Visual Arts (Proficient)

An advanced study of materials, techniques, art history and criticism, this course requires in-depth research and a portfolio assessment.

5A047X0AP STUDIO ART DRAWING AP (EBHS Only)

Credit: 1 Unit of AP credit

Grades 11, 12

Prerequisites: 80 or above average in 54152X0A Visual Arts (Beginning) and 54162X0B Visual Arts (Intermediate). The College Board requires a slide portfolio for credit.

Studio Art: AP enables highly motivated students to develop skills in drawing, preparing them for college-level work in studio art. Candidates must submit a portfolio of work for evaluation at the end of the school year. Advanced placement work involves significantly more time and commitment to studying art.

5A027X0AP 2D ART AND DESIGN AP *YEAR LONG* (WBHS Only)

Credit: 1 Unit of AP credit

Grades 11, 12

Prerequisites: 80 or above average in 54152X0A Visual Arts (Beginning) and 54162X0B Visual Arts (Intermediate). The College Board requires a slide portfolio for credit.

Students create a portfolio of work to demonstrate inquiry through art and design and development of materials, processes, and ideas over the course of a year. Portfolios include works of art and design, process documentation, and written information about the work presented. In May, students submit portfolios for evaluation based on specific criteria, which include skillful synthesis of materials, processes, and ideas and sustained investigation through practice, experimentation, and revision, guided by questions. Students may choose to submit any or all of the AP Portfolio Exams.

52552X0A BAND (BEGINNING) MARCHING (Fall)

Credit: 1 Unit

Grades 9-12

Prerequisite: Eighth grade band participation recommended

Band Fee is required.

In this first semester class, Band Beginning-Marching will consist only of 1st year students participating in the marching band. Class time will be used to prepare show music, stand selections, music for parades and ball games. In addition, this symphonic level band will prepare for a winter concert at the conclusion of the marching band season. After school rehearsals and performances are required of this group. Many trips during weekends to competition are required. **Summer marching band camp is mandatory.**

52552X0B BAND (BEGINNING) CONCERT (Spring)

Credit: 1 unit

Grades: 9-12

Prerequisite: Participation in Fall Marching Band. Eighth-grade band recommended

Band Fee is required.

This course is for 1st year high school band students. The band will rehearse and perform music of various styles and difficulty levels. Grades are based on participation, attendance, instrumental sound and production, practice, and rehearsal technique. Students have opportunities to develop solo and ensemble technique for district and state festivals. The band will have performances during the semester.

52562X0A BAND (INTERMEDIATE) MARCHING (Fall)

Credit: 1 unit

Grades: 10-12

Prerequisite: Band Beginning

Band Fee is required.

In this first semester class, Band Intermediate-Marching will consist of only 2nd year students participating in the marching band. Class time will be used to prepare show music, stand selections, music for parades and ball games. In addition, this symphonic level band will prepare for a winter concert at the conclusion of the marching band season. After school rehearsals and performances are required of this group. Many trips during weekends to competition are required. **Summer marching band camp is mandatory.**

52562X0B BAND (INTERMEDIATE) CONCERT (Spring)

Credit: 1 unit

Grades: 10-12

Prerequisite: Band Beginning.

Band Fee is required.

This course is for 2nd year high school band students. The band will rehearse and perform music of various styles and difficulty levels. Grades are based on participation, attendance, instrumental sound and production, practice, and rehearsal technique. Students have opportunities to develop solo and ensemble technique for district and state festivals. The band will have performances and concerts throughout the semester.

52575X0A (Honors) BAND (PROFICIENT) MARCHING (Fall)

Credit: 1 unit

Grades: 11-12

Prerequisite: Band Intermediate

Band Fee is required.

In this first semester class, Band Proficient -Marching will consist of only 3rd year students participating in the marching band. Class time will be used to prepare show music, stand selections, music for parades and ball games. In addition, this symphonic level band will prepare for a winter concert at the conclusion of the marching band season. After school rehearsals and performances are required of this group. Many trips during weekends to competition are required. **Summer marching band camp is mandatory.**

52575X0B (Honors) BAND (PROFICIENT) CONCERT (Spring)

Credit: 1 unit

Grades: 11-12

Prerequisite: Band Proficient Fall. A band fee is required. Summer marching band camp is mandatory.

Honors level students must audition for class enrollment.

Band Fee is required.

This course is for 3rd year high school band students. The band will rehearse and perform music of various styles and difficulty levels. Grades are based on participation, attendance, instrumental sound and production, practice, and rehearsal technique. Students have opportunities to develop solo and ensemble technique for district and state festivals.

**Must audition for All District Band in order to receive honors credit for the course.*

52585X0A (Honors) BAND (ADVANCED) MARCHING (Fall)

Credit: 1 unit of Honors credit

Grades: 11-12

Prerequisite: Band Proficient. A band fee is required. Summer marching band camp is mandatory.

An audition is required to enroll in this class.

Band Fee is required.

In this first semester class, Band Advanced -Marching Honors will consist of only 4th year students participating in the marching band. Class time will be used to prepare show music, stand selections, music for parades and ball games. In addition, this symphonic level band will prepare for a winter concert at the conclusion of the marching band season. After school rehearsals and performances are required of this group. Many trips during weekends to competition are required. All students must audition for All District Band to receive Honors Credit. **Summer marching band camp is mandatory.**

52585X0B (Honors) BAND (ADVANCED) CONCERT (Spring)

Credit: 1 unit

Grades: 12

Prerequisite: Band Advanced Fall. A band fee is required. An audition is required to enroll in this class.

Band Fee is required.

This course is for 4th year high school band students. The band will rehearse and perform music of various styles and difficulty levels. Grades are based on participation, attendance, instrumental sound and production, practice, and rehearsal technique. Students have opportunities to develop solo and ensemble technique for district and state festivals. The band will have performances and concerts throughout the semester. All students must audition for *All District Band* to receive Honors Credit.

53152X0A THEATRE ARTS (Beginning)

Credit: 1 elective unit of credit

Grades: 9-12

Prerequisite: None

Theatre Arts is designed to develop drama skills in the area of acting, costuming, lighting, makeup, setting, and staging. The student gains practical application of these skills through play production and performance. Skills in speaking are developed through training techniques

52162X0A MUSIC SPECIALIZATION (Beginning)

Credit: 1 Unit

Grades 9-12

Prerequisite: None

Music Specialization is a music business course that prepares students for careers in the music industry. The course establishes a basic knowledge of copyrights, music publishing, distribution, merchandising, contracts, licenses, concert promotion, and recording studio business. Particular emphasis includes performing rights, marketing, assembling advising teams, and revenue flow from consumer to creator. Music specialization is a course designed to explore contemporary music. This will include analyzing, discussing, and documenting things you hear and feel. We will compare and contrast musical ideas from today's music to music in the past. This course will also cover introductory music theory, music history, and world music.

52962X0A (Standard), 52965X0A (Honors) PERCUSSION

Credit: 1 unit

Grades: 9-12

Prerequisite: none

Similar to Marching and Concert band, this class will rehearse and perform music of various styles and difficulty levels. Grades are based on participation, attendance, instrumental sound and production, practice, and rehearsal technique. The focus instrument for this course is percussion only.

English

10212X0A (Standard), 10215X0A (Honors) ENGLISH I

Credit: 1 Unit

Grade: 9

Prerequisite: Recommendation for Honors is an 80 average or above in 8th grade English Language Arts.

Students will explore ways that audience, purpose, and context shape oral communication, written communication, and media and technology. While emphasis is placed on communicating for personal expression, students also engage in meaningful communication for expressive, expository, argumentative, and literary purposes.

10222X0B (Standard), 10225X0B (Honors) ENGLISH II

Credit: 1 Unit

Grade: 10

Prerequisites: English I. Recommendation for Honors is 80 or above in English I.

Students will explore the ways that audience, purpose, and context shape oral communication, written communication, and media and technology. While emphasis is placed on communicating for purposes of personal expression, students also engage in meaningful communication for expressive, expository, argumentative, and literary purposes. The prescribed curriculum prepares students for the English II end-of-course test. **This course has a state adopted end-of-course (EOC) test that counts as 20% of the final grade for the course.**

10232X0C (Standard), 10235X0C (Honors) ENGLISH III

Credit: 1 Unit

Grade: 11

Prerequisite: English II. Recommendation for Honors is 80 or above in English II.

Students will analyze American literature as it reflects social perspective and historical significance by continuing to use language for expressive, expository, argumentative and literary purposes. This course emphasizes critical analysis of texts through reading, writing, and research, speaking, listening, and using media.

10242X04 (Standard), 10245X04 (Honors) ENGLISH IV

Credit: 1 Unit

Grade 12

Prerequisite: English III. Recommendation for Honors is 80 or above in English III.

Students will integrate language arts skills acquired throughout education, equipping them to become life-long learners. This final required English course explores expressive, expository, argumentative, and literary contexts with a focus on British literature. Emphasis is on argumentation by developing a position of advocacy through reading, writing, speaking and use of media. As a requirement of Career and College Readiness goals, this course will incorporate an assessment and needs-based skill building program that will help to ensure all students exit their highest level math and English courses with the necessary base knowledge to succeed in either the workplace or future educational opportunities.

CCRG ENGLISH 4 *Does not have a separate course code

Credit: 1 unit

Grade: 11

Prerequisite: English III, GPA in 2.2-2.799 range

Students will integrate language arts skills acquired throughout education, equipping them to become life-long learners. A component of this course has been designed and implemented by the Community College system in order to better prepare qualifying students for the rigor and expectations of coursework beyond high school. This final required English course explores expressive, expository, argumentative, and literary contexts with a focus on British literature. Emphasis is on argumentation by developing a position of advocacy through reading, writing, speaking and use of media. As a requirement of Career and College Readiness goals, this course will incorporate an assessment and needs-based skill building program that will help to ensure all students exit their highest level math and English courses with the necessary base knowledge to succeed in either the workplace or future educational opportunities.

1A007X0AP AP ENGLISH LANGUAGE AND COMPOSITION

Credit: 1 unit of AP credit

Grade: 11

Prerequisite: English II. Recommendation for Honors is 80 average in English II or Honors English II

This course is a college level course offering the opportunity for students to earn college credit. From selected works of nonfiction and fiction, students are challenged to develop a complex analytical understanding of various authors' works through close reading and rhetorical examination of non-fiction prose style selections and American literature. Required writing will focus on developing analytical, critical thinking, and literacy skills. Students enrolled in this course must take the AP exam. This course fulfills the 11th grade English requirement for graduation.

1A017X0AP AP LITERATURE AND COMPOSITION

Credit: 1 Unit of AP Credit

Grade: 12

Prerequisite: English III. Recommendation for Honors is 80 or above average in English III, English III Honors or English III and AP Language

Students will learn to read and critically analyze literature by considering structure, style and themes; intensive study of renowned works from various periods of British literature, and concentration on works of literary merit with a reflection on their social and historical value. Summer reading is necessary. Students in this course must take the AP exam. This course fulfills the final English requirement for graduation. Required writing will focus on developing analytical, critical thinking, and literacy skills.

10252X0A CREATIVE WRITING I

Credit: 1 unit

Grades: 10-12

Prerequisite: English I

This course is open to all students in grades 10-12 who have passed English I. The purpose of this course is to provide students with instruction and practice in creative writing. The specific creative writing assignments, although partially determined by the instructor and his/her students, should include minimally a variety of advertisements, a variety of poetry, a short story, and a short play. In the area of non-fiction, samples of personal essays, memoirs, autobiographies, and biographies will be required as well.

10252X0B CREATIVE WRITING II

Credit: 1 unit

Grades: 10-12

Prerequisite: Creative Writing I

This course is open to all students in grades 10-12 who have passed English I and Creative Writing I. The purpose of this course is to provide students with advanced instruction in creative writing and to supply ample time for guided-practice assignments. Writing prompts in this course will be student-teacher produced, and significant independent writing time will be provided. Minimally, students should produce at least two publishable works from the following list: a variety of poetry (type and style), a short story, a short play, a long play (at least 2 acts), an advertisement campaign, personal essays, memoirs, an autobiography, a biography, and a novella.

10312X0A JOURNALISM I (Fall)
10312X0B JOURNALISM I (Spring)

Two-Semester Course

Credit: 1 unit

Grades: 9-12

Prerequisite: 80 or above average in English + teacher recommendation

Students who wish to work on the school publications should register for this course. It emphasizes the fundamentals of both yearbook and newspaper journalism. Writing is a central focus of this course and students will be expected to write for a variety of purposes and audiences. Students are assigned jobs as follows: editors, reporters, artists, photographers, and business.

10322X0A JOURNALISM II Yearbook (Fall)

10322X0B JOURNALISM II Yearbook (Spring)

Two-Semester Course

Credit: 1 unit each course

Grades: 10-12

Prerequisite: Journalism I and Journalism teacher recommendation; 80 or above in previous English courses

This class is responsible for the production of the school's publications. Students are assigned jobs in the editorial, layout, copy, pictures, and business staff.

10335X0A JOURNALISM III HONORS (Fall)

10335X0B JOURNALISM III HONORS (Spring)

Two-semester course

Credit: 1 unit each course

Grades: 11-12

Prerequisite: Journalism I and II; Journalism teacher recommendation; 80 or above in previous English courses

Honors Journalism is designed to challenge the advanced student who will serve as an editor for various publications. Students will have multiple opportunities to develop leadership and business skills as well as learn advanced techniques in photography, page design, writing, and editing. This course will actively involve students in a higher-level scholastic journalism experience that involves problem solving, critical analysis, and reflective thinking. Emphasis is placed on working as a team, meeting publisher's deadlines, and adhering to ethical standards.

10345X0A JOURNALISM IV HONORS (Fall)

10345X0B JOURNALISM IV HONORS (Spring)

Two-semester course

Credit: 1 unit each course

Grade: 12

Prerequisite: Journalism I and II; Journalism teacher recommendation; 80 or above in previous English courses

This advanced journalism course is designed to focus more on the business aspects of WBHS' publication. Honors Journalism is designed to challenge the advanced journalism student who will serve as an editor for various publications. Students will have multiple opportunities to develop leadership and business skills as well as learn advanced techniques in copywriting, layout design, photography, and theme development. This course will actively involve students in a higher-level scholastic journalism experience that involves problem solving, critical analysis, and reflective thinking. Advanced Journalism requires students to assume leadership, supervisory, and editorial roles.

World Languages

11412X0A SPANISH I (Standard)

11412X0CDM SPANISH I (CDM)

Credit: 1 Unit

Grades: 9-12

Students enrolled in this course will begin to understand, speak, read and write Spanish for use in daily living situations. Discover the peoples, nations and customs of the Spanish-speaking world.

11422X0B SPANISH II (Standard)

11422X0CDM SPANISH II (CDM)

Credit: 1 Unit

Grades: 9-12

Prerequisite: Spanish I.

Students enrolled in this course will expand their skills in understanding, speaking, reading and writing begun in Spanish I and continue to explore the culture and customs of the Spanish speaking world.

11435X0VPS SPANISH III HONORS (NCVPS only)

Credit: 1 Unit

Grades: 10-12

Prerequisite: 80 in Spanish II

This honors course requires the learner to develop language skills that emphasize reading and writing, study more complex structures, vocabulary and idioms, along with cultural and literary readings.

11445X0VPS SPANISH IV HONORS (NCVPS only)

Credit: 1 Unit

Grades 10-12

Prerequisite: 80 in Spanish III

This honors course requires the learner to refine communication skills, engage in extensive study of Spanish grammar and practice Spanish through verbal and written techniques.

10382X0A ENGLISH AS A SECOND LANGUAGE I

Credit: 1 Unit

Grades 9-12

The purpose of this course is to introduce non-English proficient students to the English language. It will provide students with basic skills in reading, writing, speaking and listening through a "whole language" approach. Cultural Similarities as well as differences are studied. Student assessment in all four-language skills will determine eligibility.

NOTE: See your Counselor for information on additional World Language course options that may be offered through NC Virtual Public Schools and Bladen Community College.

Math

21092X0A (Standard), 21095X0A (Honors) NC MATH 1

Credit: 1 Unit

Grades: 9

NC Math 1 deepens and extends understanding of linear relationships - contrasting them with exponential and quadratic phenomena and applying linear models to data that exhibit a linear trend. Students will study data and be able to summarize, represent and interpret data on a single count or measurement variable. Embedded Geometry standards formalize and extend students' geometric experiences, moving towards formal mathematical arguments. Technology, including manipulatives, graphing calculators and application software will be used for instruction and assessment. **This required course has a state adopted end-of-course (EOC) test that counts as 20% of the final course grade.**

22092X0B (Standard), 22095X0B (Honors) NC MATH 2

Credit: 1 Unit

Grades: 9-11

Prerequisite: NC Math 1 and 80 or above average in NC Math 1 for honors section.

Students enrolled in this course will formalize and extend geometric relationships through the study of congruence, proof and constructions; similarity, proof and trigonometry; coordinate geometry; circles and applications of probability. Learners extend previous study to three dimensions and apply geometric concepts to modeling situations. Technology, including manipulatives, graphing calculators and application software will be used for instruction and assessment. *Fulfills a required math credit for Future-Ready Core Course of Study

23092X0C (Standard), 23095X0C (Honors) NC MATH 3

Credit: 1 Unit

Grades 9-12

Prerequisite: NC MATH 2, 80 or above average recommended for NC MATH 1 and NC MATH 2 for honors sections.

Students will study the structure of algebra on an advanced level with emphasis on problem solving. The honors course focuses on higher-order thinking skills that impact practical and increasingly complex applications, modeling and algebraic proofs. *Fulfills a requirement for Future-Ready Core Course of Study. **This course has a state adopted End of Course Test (EOC) that counts as 20% of the final grade for the course.**

24092X0D (Standard), 24095X0D (Honors) NC MATH 4

Credit: 1 unit

Grades: 11-12

Prerequisite: NC Math 3

The primary focus of this course is on functions and statistical thinking, continuing the study of algebra, functions, trigonometry and statistical concepts previously experienced in NC Math 1-3. The course is designed to be a capstone to introductory statistical concepts. Additionally, the course intentionally integrates concepts from algebra and functions to demonstrate the close relationship between algebraic reasoning as applied to the characteristics and behaviors of more complex functions. In many cases, undergraduate students majoring in non-STEM fields will take an entry-level Algebra or Introductory Statistics course. Students will be prepared for college level algebra and statistics or as a bridge to prepare students for Precalculus or other advanced math courses.

CCRG NC MATH 4 *Does not have a separate course code

Credit: 1 unit

Grades: 11-12

Prerequisite: NC Math 3, GPA in 2.2-2.799 range

This embedded course is a survey of the fundamental skills required for freshman level/gateway college math courses. Demonstration of mastery of these skills in the course permits the student to have higher placement in community college courses and better preparation for university courses. The course topics include number sense, graphing, functions, geometry, statistics, and trigonometry. This course is embedded in the fourth level math course for all students in the GPA range of 2.2 – 2.799.

24035X0A (Honors) PRE-CALCULUS

Credit: 1 Unit of Honors Credit

Grades: 11, 12

Prerequisite: NC MATH 3 - 80 or above average recommended in NC MATH 3

The purpose of Precalculus is to build upon the study of algebra, functions, and trigonometry experienced in previous high school mathematics courses. This course will build on students' algebraic skills and understanding of functions to delve into real world phenomena and to deepen understanding of the functions in the course. This course is designed for students pursuing careers in STEM-related fields. Students will be prepared for Calculus, AP Calculus and any entry-level college course.

Pre-Calculus is an honors/advanced level of mathematics that will prepare the student for college-level courses in calculus and abstract algebra.

28002X0A FIFTH YEAR CALCULUS (Local Math Elective)

Credit: 1 unit of standard elective credit

Grades: 11-12

Prerequisite: 80 or above average recommended in Pre-Calculus. Should be taken prior to AP Calculus as a preparatory class for AP Calculus

This course is designed to reinforce the study of analytic geometry and functions. It will also introduce fundamental concepts of calculus which will include limits through numerical, graphical, and algebraic approaches, continuity, and derivatives and their applications. The use of a graphing calculator is required.

2A007X0AP CALCULUS AB AP

Credit: 1 Unit of AP Credit

Grades: 11, 12

Prerequisite: Successful completion Pre-Calculus and/or Calculus Honors with a recommended average of 80 or above. Graphing calculator required. This course will cover topics in analytic geometry and integral functions and applications, limits, continuity, derivations, and their application, and antiderivatives. Students who complete this course must take the AP exam.

24012X0A (Standard), 24015X0A (Honors) DISCRETE MATHEMATICS FOR COMPUTER SCIENCE

Credit: 1 unit

Grades: 11-12

Prerequisite: NC Math 3

The purpose of this course is to introduce discrete structures that are the backbone of computer science. Discrete mathematics is the study of mathematical structures that are countable or otherwise distinct and separable. The mathematics of modern computer science is built almost entirely on discrete mathematics, such as logic, combinatorics, proof, and graph theory. At most universities, an undergraduate-level course in discrete mathematics is required for students who plan to pursue careers as computer programmers, software engineers, data scientists, security analysts and financial analysts. Students will be prepared for college level algebra, statistics, and discrete mathematics courses.

2A037X0AP AP STATISTICS

Credit: 1 Unit

Grades: 10-12

Prerequisite:

AP Statistics is an introductory college-level statistics course that introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students cultivate their understanding of statistics using technology, investigations, problem solving, and writing as they explore concepts like variation and distribution; patterns and uncertainty; and data-based predictions, decisions, and conclusions.

Health and Physical Education

Health and Physical Education at the high school level emphasizes developing sportsmanship, leadership skills, and achieving personal satisfaction through physical fitness activities and team sports. Students will complete a physical fitness test at the beginning and at the end of the course. All students will be required to "dress out". STUDENTS MAY ONLY TAKE ONE (1) P.E. CLASS PER SEMESTER.

60492X0A HEALTH AND PHYSICAL EDUCATION: GRADES 9-12

Credit: 1 unit

Grades: 9-12

Prerequisite: None

This course is required for graduation under the Future-Ready Core Course of Study. It develops the basic health components in conjunction with the state curriculum for high school health education (preparatory health, stress management, self-protection, relationships substance abuse, and nutrition/weight management). The basic skills and knowledge of numerous physical activities, including team sports and individual lifetime activities which promote health and wellness through physical education, are taught in conjunction with a healthful living curriculum.

60292X0A PHYSICAL EDUCATION: GRADES 9-12 (TEAM SPORTS)

Credit: 1 unit

Grades: 9 -12

Prerequisite: Health/PE

This course develops basic skills and knowledge in numerous team sport activities. Activities will promote sportsmanship, teamwork, and lifetime physical fitness and wellness. Team sports may include basketball, volleyball, flag football, soccer, softball, and other variations of team sports.

60292X0B PHYSICAL EDUCATION: GRADES 9-12 (LIFETIME ACTIVITIES AND INDIVIDUAL SPORTS)

Credit: 1 unit

Grades: 9 -12

Prerequisite: Health/PE

This course will provide students with basic skills and knowledge to participate in lifetime activities and individual sports that promote physical fitness and wellness throughout adulthood. Activities may include tennis, golf, archery, fitness and conditioning and other recreational and leisure activities.

60602X0 WEIGHTLIFTING I

Credit: 1 unit

This course develops basic skills and knowledge of purposes, methods, and applications of various modes of physical conditioning. The course will involve methods of fitness and conditioning that promote the five basic health and fitness components (body composition, flexibility, activities).

60612X0 WEIGHTLIFTING II

Credit: 1 unit

Grades:10-12

This course will allow students to understand, apply and test fitness concepts with a focus on skill related fitness instruction.

60625X0 WEIGHTLIFTING III

Credit: 1 unit

Grades:10-12

This course will allow students to understand, apply and test fitness concepts with a focus on skill related fitness instruction. Students will be assessed through a series of fitness assessments of weight lifting at the beginning, middle and end of the semester.

WEIGHTLIFTING IV

Credit: 1 unit

Grades:10-12

This course will allow students to understand, apply and test fitness concepts with a focus on skill related fitness instruction. Students will be assessed through a series of fitness assessments of weight lifting at the beginning, middle and end of the semester.

Preparatory Classes

96072X0A ACT PREPARATION

Credit: 1 elective unit

Grade: 10, 11

Recommended: Completion of NC Math 2 or concurrently enrolled. This course is designed to better prepare students to improve/increase scores on college entrance exams through emphasis on mathematical and verbal skills.

This course places an emphasis on preparation for the ACT exam required for all Juniors. ACT tests verbal skills, reading comprehension, math, science, and writing skills. This course will focus on strategies and content to strengthen areas of individual weakness.

96022X0A SAT PREPARATION

Credit: 1 elective unit

Grades: 10-12

Recommended: Completion of NC Math 1, NC Math 2 or concurrently enrolled. This course is designed to better prepare students to improve/increase scores on college entrance tests through emphasis on mathematical skills and verbal skills.

This course focuses on developing verbal and mathematical skills required for success on the SAT. Students who plan to take the SAT for college admission should take this course to help them prepare for the rigor of the SAT.

95202A Peer Group Connection High School

Credit: 1 elective unit

Grade: 9

This course will be a year-long class and is designed to prepare students for success in high school and beyond. Topics will include: study skills, career planning, decision making skills, conflict resolutions, safe Internet usage, higher level thinking skills, drug awareness, working together to enhance our school community, examining our core values, roles and relationships to impact our decisions and develop the confidence to be successful personally and academically, and supporting and appreciating others while respecting differences. This course will require weekly check-ins and assignments to develop both intrapersonal and interpersonal skills.

96105X0PL Peer Leadership (PGC) Hr

Credit: 1 Unit per semester

Grades 11-12

Prerequisite: Application, recommendation, interview and GPA of 2.5 or above.

PGC-HS includes a year-long, credit-bearing, leadership course for high school juniors and seniors that meets daily and is taught by school faculty. Through their leadership course, these juniors and seniors become trained peer leaders who meet once per week with freshmen in outreach sessions designed to strengthen relationships among students across grades. These peer leaders work in pairs to co-lead groups of 10-14 freshmen in outreach sessions once each week in which the freshmen participate in engaging, hands-on activities and simulations in supportive environments that enable them to practice essential academic, social, and emotional skills, such as critical thinking, goal setting, decision-making, time management, teamwork, and communication.

Science

35012X0A (Regular), 35015X0B (Honors) EARTH AND ENVIRONMENTAL SCIENCE

Credit: 1 Unit

Grades 9-12

Prerequisite: Recommended 80 or above average in Grade 8 Science for honors and recommendation of 8th Grade Science teacher. Individual research projects and advanced rigor apply to honors.

This course studies the function of the earth's systems including the lithosphere, hydrosphere, atmosphere, and biosphere. Laboratory-based experiences and investigations extend foundational understanding of human influence on the earth's systems to include sustainability practices, technology, and alternative energies. This course fulfills one of the required credits for the Future-Ready Core Course of Study

34102X0A PHYSICAL SCIENCE

Credit: 1 Unit

Grades: 9-12

Prerequisite: Completion of NC Math 1

Students will study the physical nature of the world through qualitative and quantitative methodologies. Laboratory based experiences will make use of mathematical reasoning in exploring aspects of both chemistry and physics. Topics of study include forces and motion, properties and changes of matter conservation and transfer of energy to extend foundational knowledge. This course fulfills one of the required credits for the Future-Ready Core Course of Study

33202X0A (Standard), 33205X0A (Honors) BIOLOGY

Credit: 1 Unit

Grades: 9-12

Prerequisite: 80 or above average recommended in previous science course for Honors section. Individual research projects are also required for the honors section.

Biology involves the study of living organisms including structure and functions of living organisms, ecosystems, evolution, genetics and molecular biology. Laboratory-based experiences and exploration of current biological advances extend foundational knowledge of life sciences. **This course has a state adopted end-of-course (EOC) test that counts as 20% of the final course grade.** This course fulfills a Science requirement for the Future-Ready Core Course of Study.

33215X0B (Honors) BIOLOGY II

Credit: 1 unit of Honors credit

Grades: 11-12

Prerequisite: Biology Honors and Chemistry I Honors, 80 or above average recommended

This course provides a more in-depth study of principles and concepts studied in Biology. Topics for study include cell biology, genetics, unity, and diversity of life, ecology, and biotechnology. Additionally, students will conduct and present research projects to enhance understanding of topics studied.

3A007X0AP BIOLOGY AP

Credits: 1 Unit of AP credit

Grades: 11-12

Prerequisite: 80 average or above in Biology Honors and Chemistry

Students will study the conceptual framework and acquire knowledge and analytical skills necessary to deal critically with the rapidly changing science of biology. Course delivery will be laboratory-based and will provide extensive exploration of molecules, cells, heredity, evolution, organisms, and populations. Students in this course are required to take the AP exam.

34202X0A (Standard) 34205X0A (Honors) CHEMISTRY

Credit: 1 Unit

Grades 10-12

Suggested Prerequisite: Physical Science

Required Prerequisite: Biology

Corequisite: Students should have completed Math III or be concurrently enrolled in Math III along with Chemistry.

Study the structure of matter along with chemical reactions and the conservation of energy in these reactions. Laboratory-based experiences and investigations explore energy conservation and transfer in addition to the interactions of matter and energy while using the language of mathematics to describe observations. This course fulfills one of the required credits for the Future-Ready Core Course of Study. Note: An enrollment of fewer than 15 students will require the course to be taken through distance learning. See counselor for information.

34215X0A (Honors) CHEMISTRY II

Credit: 1 unit of Honors credit

Grades: 11-12

Prerequisite: Chemistry

Honors Chemistry is an accelerated comprehensive laboratory course designed to give the students a more conceptual and in-depth understanding of concepts in the North Carolina Essential Standards in Chemistry. Students are expected to work independently on a variety of assignments and accept greater responsibility for their learning. The course will include additional Honors objectives and an in-depth study of at least two enrichment topics. Students will design and complete at least one in-depth independent study of chemistry directed questions. Note: An enrollment of fewer than 15 students will require the course to be taken through distance learning.

3A017X0AP CHEMISTRY AP

Credit: 1 unit of AP credit

Grades: 11-12

Prerequisite: Chemistry II Honors

AP Chemistry is a rigorous challenging course designed to provide a solid, first-year college chemistry experience, both conceptually and in the laboratory. Strong emphasis will be placed on problem solving and critical thinking skills. Labs are conducted weekly and serve to supplement the learning in the lecture session of the course. Some after school labs may be required. Students in this course must take the AP exam. Course may be available through distance learning as a year-long class with certain requirements. See school counselor for information.

3A027X0AP ENVIRONMENTAL SCIENCE AP

Credit: 1 Unit of AP Credit

Grades 11-12

Prerequisite: 80 or above average in Biology and Chemistry or Physics

Students will study principles, concepts, methodologies and interrelationships of the natural world and how humans alter natural systems. Laboratory-based course delivery provides extensive exploration of Earth systems, land and water use, energy resources, global change and associated biotic elements. This course satisfies Earth/Environmental graduation requirement for Future-Ready Core Course of Study. Students in this course must take the AP exam.

34305X0A PHYSICS HONORS

Credit: 1 Unit of Honors credit

Grades: 11-12

Prerequisites: Recommended 80 or above average in NC Math 3 and Pre-Calculus

Students will explore the natural phenomena of matter and its motion through space and time. Laboratory-based experiences and investigations survey forces and motion, energy conservation and transfer to the interactions of energy and matter while using the language of mathematics to describe observations. This honors course requires individual research projects. Students should have demonstrated a high proficiency for science and mathematics. This course satisfies a graduation requirement for a physical science requirement for the Future-Ready Core Course of Study.

3A057X0AP AP PHYSICS I: ALGEBRA-BASED (Recommended year-long)

Credit: 1 Unit of AP Credit

Grades: 11, 12

Prerequisites: 80 or above average in Physics, NC Math 3, and Pre-Calculus

This course provides a systematic introduction to the main principles of physics and emphasizes the development of conceptual understanding and problem-solving ability using algebra and trigonometry, but rarely calculus. Physics AP – B provides a foundation in physics for students in the life sciences, pre-medicine, and some applied sciences, as well as other fields not directly related to science. Students in this class must take the AP exam. Course may be available through distance learning as a year-long class with certain requirements. Check with school counselor for information.

Social Studies

43032X0A (Standard) 43035X0B (Honors) WORLD HISTORY

Credit: 1 Unit

Grades: 9-12

Prerequisite: 80 or above average in 8th grade Reading and Social Studies recommended for the Honors section of this course

In this course, students will examine key events in the history of the world. Emphasis will be placed on major turning points that shaped the ancient and modern world. The learner will develop relevant understandings of current world issues and relate them through historical, political, economic, geographical and cultural contexts. Additional research, reading and writing assignments are required for selection of the honors level. This ninth grade recommended course fulfills a Social Studies graduation requirement for the Future-Ready Core Course of Study.

4A017X0 AP EUROPEAN HISTORY *YEAR LONG*

Credit: 1

Grades: 9-12

Prerequisite:

In AP European History, students investigate significant events, individuals, developments, and processes from approximately 1450 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course also provides seven themes that students explore throughout the course in order to make connections among historical developments in different times and places: interaction of Europe and the world, economic and commercial development, cultural and intellectual development, states and other institutions of power, social organization and development, national and European identity, and technological and scientific innovations.

4A097X0AP AP WORLD HISTORY

Credit: 1 Unit

Grades: 9-12

Prerequisite:

AP World History is a collegiate level course to develop and challenge students taking the course. Beginning with the 1200s, students in AP World History will explore historical themes that have taken place across several time periods. Through the use of various learning strategies, students will gain knowledge and understanding of document based questions through the use of primary and secondary sources. They will use reasoning and critical thinking skills, and have an opportunity for project-based activities. As students examine the historical roots of significant events, ideas, movements, and phenomena, they encounter the contributions and patterns of civilizations of the past and societies around the world. Students taking this course will broaden their historical perspectives as they explore ways societies have dealt with continuity and change, exemplified by concepts such as civilization, revolution, government, economics, war, stability, movement, technology, etc. AP World History will cover the material in greater complexity. The course imposes a heavy reading and writing work load. All coursework will be in accordance with the standards set by the College Board and the mission statement of West Bladen High School. Students will be assessed on their mastery of AP World History course goals when they take the College Board exam in May.

42092X0A (Standard), 42095X0B (Honors) AMERICAN HISTORY: FOUNDING PRINCIPLES, CIVICS, AND ECONOMICS

Credit: 1 unit

Grade: 9-12

Prerequisite: World History is the recommended first course of the Social Studies sequence, followed by Civics and Economics. An 85 average or higher is recommended for the Honors section of this course. The honors level requires in-depth reading and research with more rigorous content than standard level.

American History: Founding Principles, Civics and Economics provides students with the basic understanding of how our government is structured, the tenets of democracy and the rights and responsibilities of effective citizens in a democracy. Students will gain understanding of the structure and function of national, state, and local government and concepts in micro and macro-economics and personal finance. This course fulfills a Social Studies graduation requirement for the Future-Ready Core Course of Study

43182X0A (Standard), 43185X0A (Honors) FOUNDING PRINCIPLES OF THE USA AND NORTH CAROLINA: CIVIC LITERACY

Credit: 1 unit

Grade: 9-12

Prerequisite: For freshmen entering high school in 2021, the course requirements are: Founding Principles: Civic Literacy; Economics & Personal Finance; American History; and World History.

This is a course that provides a framework for understanding the basic tenets of American democracy, practices of American government as established by the US constitution, basic concepts of American politics and citizenship and concepts in macro and micro economics an personal finance.

43192X0A (Standard), 43195X0A (Honors) ECONOMICS AND PERSONAL FINANCE

Credit: 1 unit

Grade: 9-12

Prerequisite: For freshmen entering high school in 2021, the course requirements are: Founding Principles: Civic Literacy; Economics & Personal Finance; American History; and World History. It is strongly recommended by the state of NC to offer this Economics course later in the student's high school career.

The standards and objectives in the Economics and Personal Finance course will provide students the opportunity to engage in intensive application of the skills concepts, processes, and knowledge gained in previous social studies courses and prepare them to be college, career, and civic ready. NCDPI and the State Board of Ed support the development of students who understand economic decisions, use money wisely, understand education and career choices, and understand how to be financially responsible citizens. Students will be provided with the agency, tools, and knowledge necessary to live in and contribute to a financially sound society. This course is intended to be a study of economics, personal finance, income and education, money management, critical consumerism, and financial planning.

4A067X0AP GOVERNMENT AND POLITICS: US AP

Credit: 1 unit of AP credit

Grades: 11, 12

Prerequisite: Civics and Economics, US History, American History I, American History II, and World History. 80 or above average in Civics and Economics, US History and World History and a level III or IV on the English II end-of-course-test (EOC)

The Government & Politics: US AP provides an analytical perspective on government and politics in the United States (U.S.). This course involves both the study of general concepts used to interpret U.S. politics and the analysis of specific case studies. It also requires familiarity with the various institutions, groups, beliefs, and ideas that constitute U.S. political reality. This course may require summer reading and all students enrolled in this course must take the AP exam. Course may be available through distance learning with certain requirements. See school counselor for information.

4A077X0AP US HISTORY AP

Credit: 1 unit of AP credit

Grades: 11-12

Prerequisite: Civics and Economics, World History, 80 or above average in Civics and Economics and World History and a Level III or IV on the English II EOC test

Advanced Placement United States History is designed to provide students with the analytical skills and factual knowledge necessary to deal critically with the problems and materials in United States History. Students will analyze historical material, synthesize their own ideas, and evaluate those of others. The AP United States History course will develop the skills necessary to arrive at conclusions on the basis of an informed judgment and to present reasons and evidence clearly and persuasively in essay format. This course will fulfill a Social Studies requirement for the Future-Read Core Course of Study. Note: Entering ninth graders in 2012-2013 who receive credit for US History AP will not be required to take American History Parts I and II. However, such students must take a Social Studies elective to fulfill requirements of four (4) Social Studies courses. Students must take the AP exam for this course and summer reading may be required.

43112X0 (Standard) 43115X0 (Honors) AMERICAN HISTORY (Students entering grade 9 in 2021 & beyond)

Credit: 1 unit

Grades: 9-12

Prerequisite: For freshmen entering high school in 2021, the course requirements are: Founding Principles: Civic Literacy; Economics & Personal Finance; American History; and World History.

This course will begin with the end of the French and Indian War (1763) and end through the latest Presidential Election. While the scope begins with the French and Indian War, teachers can and should use concepts and topics prior to this to establish context. This course will explore the overarching themes, trends, and concepts of our nation's history, including the development and evolution of the American System of government, the patterns and impact of migration and immigration, cultural development through the arts and technological innovations, relationships with foreign nations, and the role of both the individual and diverse groups in building the American story. Students in this course will be asked to investigate major turning points in American History to develop an understanding of multiple causation, to determine patterns of change and continuity, and to be able to compare multiple perspectives of the past.

Students entering high school in the 21-22 school year are required to take American History & Personal Finance/Economics in place of American History I and II.

43092X0A TURNING POINTS IN AMERICAN HISTORY

Credit: 1 **elective** unit

Grades: 10-12

Prerequisite: None

This course is structured to emphasize, in-depth, 10-15 key turning points in American History. These turning points would be considered "watershed" events in our nation's history; causes and effects that subsequently culminated in major social, cultural, political, and/or economic change. When considered chronologically, the events should ultimately provide a narrative of the history of the United States. Historical methods and the use of research-based historical inquiry should be key elements of the course. Students should essentially become "quasi historians," able to understand the status quo through the monumental changes of our past. This course is recommended for students who have a strong interest in American History and as an elective preparatory or review class for students who plan to take AP U.S. History.

48002X0A BIBLE HISTORYCredit: 1 **elective** unit

Grades: 11-12

Prerequisite: None

The purpose of this course is to guide the student through an academic study of Old Testament literature and the Biblical account of the life of Christ through a survey of the New Testament books in their literary and historical settings. The course includes the history of the Hebrews from the time of Abraham through the time of Jesus with an overview from the birth of Christ to the missionary work of the apostle Paul. The writings contained in the Old Testament will be analyzed within the context of Ancient Israel and as a source of influence on modern society; the writings contained in the New Testament will be explored and analyzed according to their literary, religious, and historical impact as conveyed in the Bible.

48002X0B CURRENT AFFAIRS AND ISSUES

Credit: 1 elective unit of credit

Grades: 9-12

Prerequisite: World History

The Current Affairs and Issues curriculum introduces students to issues that influence our life in this global, multicultural society. Students will research current economic, political, social, and cultural problems, and explore how ongoing conflicts affect groups as well as individuals. Emphasis is upon America as a dynamic society in the 21st century, witnessing changes involving community, state, nation, and world. Some of the pressing problems facing our rapidly changing society will be examined in detail using a variety of media. Critical thinking skills and technology related research is emphasized. Speaking and listening skills are reinforced through class discussions and oral presentations. The study of interdisciplinary connections relates current events to history thereby enabling students to grasp the interrelationship between and among them. The use of a variety of technologies is integrated throughout the curriculum.

44032X0A PSYCHOLOGY

Credit: 1 unit

Grades: 11-12

Prerequisite: Civics and Economics and/or World History

This course is taught from a personal adjustment approach rather than a discipline-oriented one. This course stresses such topics as personality, motivation, emotions, growth and development, mental health, and mental illness. The following areas of psychology are taught: statistics, sensation and perception, and physiology.

4A057X0AP PSYCHOLOGY AP

Credit: 1 unit of AP credit

Grades: 11-12

Prerequisite: 80 or above average in Civics and Economics and World History and a level III or IV on the English II end-of-grade test (EOC).

Advanced Placement Psychology is designed to introduce students to the systematic and scientific study of human development, behavior, learning, motivation, and personality of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with psychology. They also learn about the ethics and methods psychologists use in their science and practice. The study of psychology enables students to recognize and cope with uncertainty in human behavior. Students must take the AP exam for this course and summer reading may be required.

Junior Reserve Officers' Training Corps (JROTC)

The Army High School JROTC Program is designed to teach high school students the value of citizenship, leadership, service to the community, personal responsibility, and a sense of accomplishment, while instilling in them self-esteem, teamwork, and self-discipline. At any level, students are encouraged to participate as members of competitive teams: either Drill Team, Raider Team, or Color Guard. **STUDENTS ENROLLED IN JROTC INCUR NO MILITARY OBLIGATION.** Upon graduation, students may be considered for advanced rank and benefits if enlisting in the US Armed Forces. Army ROTC scholarships for college are available on a competitive basis for qualified graduates of the program.

95012X01 ROTC I

Credit: 1 unit

Grades: 9-12

Prerequisite: None

ROTC I is an introduction to leadership, education, and training (LET). It provides the basic foundation for the building block progression from the first semester through the eighth semester. It introduces the student to ROTC and the United States Army, to the requirements for basic drill and ceremonies, and to basic leadership theory. Emphasis is stressed on developing leadership potential; working together as a team; responding to instruction by the United States Army and ROTC; introduction to leadership theory, drill and ceremonies, health and first aid; introduction to geography; introduction to techniques of oral communication; introduction to financial planning; drug awareness/substance abuse; citizenship, and judicial systems.

95022X02 ROTC II

Credit: 1 unit

Grades: 9-12

Prerequisite: ROTC I

ROTC II continues the instruction and skill development initiated in ROTC I. The goals and objectives are the same with additional emphasis on self-awareness; conflict resolution; speaking and teaching skills; goal setting; and map reading.

95032X03 ROTC III

Credit: 1 unit

Grades: 10-12

Prerequisite: ROTC II

The third semester of ROTC is designed to demonstrate knowledge of the ethical values and principles that underlie good citizenship, to display leadership potential which shows the ability to live and work cooperatively with others, and to demonstrate the ability to think logically and to communicate effectively. This course describes the importance of physical fitness in maintaining good health and appearance. A student will display knowledge of the history, purpose, and structure of the nation's defense forces with emphasis on the role and accomplishments of the Army, and will demonstrate knowledge of basic military skills in drill and ceremonies, and first aid and map reading, that are necessary for working effectively as a member of a team. This course explains the importance of American military history and citizenship and how it relates to America's view of the future. Students are introduced to the concept of service learning, college preparation, career planning, and financial planning. Additionally, instruction on geography and earth science are included.

95042X04 ROTC IV

Credit: 1 unit

Grades: 10-12

Prerequisites: ROTC III and approval of ROTC instructor.

ROTC IV continues the instruction and skill development initiated in ROTC III. The goals and objectives are the same. Additional emphasis is placed on developing leadership situations and project management. Emphasis is placed on physical training, communications skills, and a service learning project. Selected students can elect to take an air rifle marksmanship and safety class.

95052X05A ROTC VA

Credit: 1 unit

Grades: 11-12

Prerequisite: ROTC IV and approval of ROTC instructor

This course proposes to teach students to appreciate the ethical values that underlie good citizenship; develop leadership potential; think logically and communicate effectively, both orally and in writing; appreciate the importance of physical fitness and good health; prepare for high school graduation and either above education or career opportunities; develop management abilities; understand the history, purpose, and structure of the military services; and develop those skills necessary to work together as an organizational staff.

95052X05B ROTC VB

Credit: 1 unit

Grades: 11-12

Prerequisite: ROTC VA, approval of ROTC instructor

This course continues the instruction and skill development of ROTC VA. The goals and objectives remain the same

95062X06A ROTC VIA

Credit: 1 unit

Grade: 12

Prerequisite: ROTC VB, approval of ROTC instructor. Primary emphasis is on the practical application of cadet leadership duties and responsibilities within the cadet battalion. The year is structured to allow cadets to perform assigned command and staff duties, act as class instructors for selected subjects, as well as receive instruction through suggested reading, vignettes, case studies, and special assignments. Under supervision of the instructor staff, students are held absolutely accountable for administration of the program.

95062X06B ROTC VIB

Credit: 1 unit

Grade: 12

Prerequisite: ROTC VIA, approval of ROTC instructor.

This course continues the instruction and skill development of ROTC VIA. The goals and objectives remain the same.

Career and Technical Education

The economy and workforce of North Carolina is changing. The North Carolina Department of Public Instruction and the North Carolina Community College System and Bladen County Schools are committed to supporting the workforce needs of our community and state. These courses will assist students in identifying the available career options and help them make career decisions that are led by their interests, clearly defined pathways, and timely employment projections that meet the needs of North Carolina's economy.

Bladen County School Career Clusters/Pathways 2024-2025

Credential Opportunities include: MS Word Specialist, MS Powerpoint Specialist, Conover Workplace Readiness, Microburst Learning Employers' Choice Certificate

CS952X0A CTE ADVANCED STUDIES

Credit: 1 unit

Prerequisites: 2 technical credits within a program area

This culminating course is for juniors and seniors who have earned two technical credits, one of which is a completer course, in one Career Pathway. The Advanced Studies course must augment the content of the completer course and prepare students for success in transitioning to postsecondary education and future careers. Students work under the guidance of a teacher with expertise in the content of the completer course in collaboration with community members, business representatives, and other school-based personnel. The four parts of the course include writing a research paper, producing a product, developing a portfolio, and delivering a presentation. Students demonstrate their abilities to use 21st century skills. Competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IK472X0A CTE Pre-Apprenticeship IK475X0A CTE Pre-Apprenticeship Honors

Credit: 2

Prerequisite: 2 Technical Credits within a program area

Students who participate in apprenticeships or pre-apprenticeships through the North Carolina Department of Commerce can also earn CTE credit while they earn hours and experience toward an adult apprenticeship leading to a completed journeyman certificate. Prior to beginning a CTE Pre-Apprenticeship, the student must complete all necessary introductory paperwork. Honors credit will be awarded based on a culminating project.

Credit: 1

Prerequisite: Enrollment in or the completion of a level 2 class within a CTE Pathway.

A CTE Internship allows for additional development of career and technical competencies within a general career field. Internships allow students to observe and participate in daily operations, develop direct contact with job personnel, ask questions about particular careers, and perform certain job tasks. This activity is exploratory and allows the student to get hands-on experience in a number of related activities. The teacher, student, and the

business community jointly plan the organization, implementation, and evaluation of an internship, regardless of whether it is an unpaid or paid internship. Prior to beginning a CTE Internship, the student must complete all necessary introductory paperwork.

AU102X0A FOUNDATIONS OF AGRICULTURE

Credit: 1 unit

Prerequisite: None

This course focuses on integrating biological/physical sciences with technology as related to the environment, natural resources, food production, science, and agribusiness. Topics of instruction include agricultural awareness and literacy, employability skills and introduction to all aspects of the total agricultural industry. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AU105X0A FOUNDATIONS OF AGRICULTURE HONORS

Credit: 1 unit

Prerequisite: None

This course focuses on integrating biological/physical sciences with technology as related to the environment, natural resources, food production, science, and agribusiness. Topics of instruction include agricultural awareness and literacy, employability skills and introduction to all aspects of the total agricultural industry. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. This honors level course extends the Standard Course of Study to a higher, more challenging, and rigorous level. Students will complete a Supervised Agricultural Experience, and will successfully complete other demonstrations in addition to the projects and work already present in this course.

AS312X0A AGRICULTURAL MECHANICS I

Credit: 1 unit

Prerequisite: None

This course develops knowledge and technical skills in the broad field of agricultural machinery, equipment, and structures. The primary purpose of this course is to prepare students to handle the day-to-day problems and repair needs they will encounter in their chosen agricultural career. Topics include agricultural mechanics safety, agricultural engineering career opportunities, hand/power tool use and selection, electrical wiring, basic metal working, basic agricultural construction skills related to plumbing, concrete, carpentry, basic welding, and leadership development. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course include apprenticeship, cooperative education, internship, mentorship, school-based enterprise, job shadowing, and supervised agricultural experience. FFA competitive events,

community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AS325X0B AGRICULTURAL MECHANICS II (Inherently honors)

BCC articulated – WLD 112 Basic Welding Processes and MNT 150 Basic Building Maintenance

Credit: 1 unit

Prerequisite: AS312X0A Agricultural Mechanics I

In this course, the topics of instruction emphasized are non-metallic agricultural fabrication techniques, metal fabrication technology, safe tool and equipment use, human resource development, hot/cold metal working skills and technology, advanced welding and metal cutting skills, working with plastics, and advanced career exploration/decision making. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AA212X0A ANIMAL SCIENCE I

Credit: 1 unit

Prerequisite: None

This course focuses on the basic scientific principles and processes that are involved in animal physiology, breeding, nutrition, and care in preparation for an animal science career major. Topics include animal diseases, introduction to animal science, animal nutrition, animal science issues, career opportunities, and animal evaluation. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AA225X0B ANIMAL SCIENCE II—FOOD ANIMAL (inherently honors)

BCC articulated ANS 110 Animal Science. Must take AA21 Animal Science I and AA22 Animal Science II

Credit: 1 unit

Prerequisite: AA212X0A Animal Science I

This course includes more advanced scientific principles and communication skills and includes animal waste management, animal science economics, decision making, global concerns in the industry, genetics, and breeding. English language arts, mathematics, and science are reinforced in this class. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AP412X0A (Standard), AP415X0A (Honors) HORTICULTURE I INTRO TO PLANTS

Credit: 1 unit

Prerequisite: None

This course provides instruction on the broad field of horticulture with emphasis on the scientific and technical knowledge for a career in horticulture. Topics in this course include plant growth and development, plant nutrition, media selection, basic plant identification, pest management, chemical disposal, customer relations, and career opportunities. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, internship, mentorship, school-based enterprise, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AP422X0B HORTICULTURE II PLANT PRODUCTION

Credit: 1 unit

Prerequisite: AP41 Horticulture I

This course covers instruction that expands scientific knowledge and skills to include more advanced scientific computations and communication skills needed in the horticulture industry. Topics include greenhouse plant production and management, bedding plant production, watering systems, light effects, basic landscape design, installation and maintenance, lawn and turf grass management, and personal development. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AP425X0B HORTICULTURE II PLANT PRODUCTION HONORS

Credit: 1 unit

Prerequisite: Horticulture I with recommended 80 or above average

This course covers instruction that expands scientific knowledge and skills to include more advanced scientific computations and communication skills needed in the horticulture industry. Topics include greenhouse plant production and management, bedding plant production, watering systems, light

effects, basic landscape design, installation and maintenance, lawn and turf grass management, and personal development. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. This honors level course extends the Standard Course of Study to a higher, more challenging, and rigorous level. Students will complete a Supervised Agricultural Experience, and will successfully complete other demonstrations in addition to the projects and work already present in this course.

AN512X0A NATURAL RESOURCES I

Credit: 1 unit

Prerequisites: None

This course provides an introduction to environmental studies, which includes topics of instruction in renewable and non-renewable natural resources, history of the environment, personal development, water and air quality, waste management, land use regulations, soils, meteorology, fisheries, forestry, and wildlife habitat. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AN522X0B NATURAL RESOURCES II

Credit: 1 unit

Prerequisites: AN512X0A Natural Resources I

This course covers instruction in best management practices in methods of environmental monitoring and conservation, air and water regulations, sampling methodologies, prescribing conservation techniques, and wildlife and forestry management. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course are apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, job shadowing, and supervised agricultural experience. FFA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

AN525X0B NATURAL RESOURCES II HONORS

Credit: 1 unit

Prerequisites: AN512X0A Natural Resources I with recommended 80 or above average

Honors Natural Resources II is designed for students in grades 10-12 in North Carolina schools who wish to develop detailed knowledge of the environment, including agricultural career development, leadership, and environmental stewardship. As an enhanced version of the second level environmental and natural resources course, its purpose is to prepare students for careers and educational opportunities in the environmental and natural resources field. The course examines the technical aspects of environmental and natural resources as well as the study of soils, water, forestry, and wildlife. Students will explore management practices that afford mutual benefits of both humans and the environment. Intensive "hands on" activities are required throughout the course. Students will learn of responsibilities associated with careers in the environmental and natural resources industry. Further, Environmental and Natural Resources II introduces students to the fundamentals of leadership and management. Students learn skills necessary for successful living and working in the natural resources industry and society. Successful completion of Environmental and Natural Resources I is required and A level proficiency in the aforementioned is recommended.

CTE Business Pathway

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Business Management & Administration					
Entrepreneurship (ENTRE) Credential Opportunities: Venture Entrepreneurial Expedition, MS Excel Core and Expert		ME11 Entrepreneurship I	ME12 Entrepreneurship II*	<i>CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship</i>	BF10 Business Essentials BM20 MS Excel

BF102X0A BUSINESS ESSENTIALS (BCC articulated BUS110 Introduction to Business)

Credit: 1 unit

This course introduces students to topics related to business, finance, management, and marketing to cover business in the global economy, functions of business organization and management, marketing basics, and significance of business financial and risk management. English language arts, social studies, and mathematics are reinforced. Work-based learning strategies appropriate for this course include mentorship, school-based enterprise, service learning, and job shadowing. Cooperative education is not available for this course. Apprenticeship is not available for this course.

DECA (an association for Marketing Education students) and Future Business Leaders of America (FBLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

ME112X0A ENTREPRENEURSHIP I (BCC articulated BUS230 Small Business Management)

Credit: 1 unit

Prerequisite: None

In this course students evaluate the concepts of going into business for themselves and working for or operating a small business. Emphasis is on the exploration of feasible ideas of products/services, research procedures, business financing, marketing strategies, and access to resources for starting a small business. Students develop components of a business plan and evaluate startup requirements. English language arts and social studies are reinforced. Work-based learning strategies appropriate include cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, and job shadowing. Apprenticeship is not available for this course. DECA (an association for Marketing Education students) and Future Business Leaders of America (FBLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

The Entrepreneurship I and II courses can help prepare students for the Assessment of Skills and Knowledge (A*S*K), <http://www.askinstitute.org/>, credential.

ME125X0B ENTREPRENEURSHIP II (INHERENTLY HONORS)

Credit: 1 unit

Prerequisite: ME112X0A Entrepreneurship I OR 6235 Small Business Entrepreneurship

In this course, students develop an understanding of pertinent decisions to be made after obtaining financing to open a small business. Students acquire in-depth understanding of business regulations, risks, management, and marketing. Students develop a small-business management handbook. English language arts and social studies are reinforced. Work-based learning strategies appropriate include cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning, and job shadowing. Apprenticeship is not available for this course. DECA (an association for Marketing Education students) and Future Business Leaders of America (FBLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

The Entrepreneurship I and II courses can help prepare students for the Assessment of Skills and Knowledge (A*S*K), <http://www.askinstitute.org/>, credential.

CC102X0A (Standard), CC105X0A (Honors) MICROSOFT WORD AND POWERPOINT

Credit: 1 unit

Recommended: None

Students in Microsoft IT Academies benefit from world-class Microsoft curriculum and software tools to tackle real-world challenges in the classroom environment. In the first part, students will learn to use the newest version of Microsoft Word interface, commands, and features to create, enhance, customize, share and create complex documents, and publish them. In the second part, students will learn to use the newest version of Microsoft PowerPoint interface, commands, and features to create, enhance, customize, and deliver presentations. In the last part, students will learn to use the basic features of the newest version of Publisher to create, customize, and publish a publication. English language arts are reinforced. Work-based learning strategies appropriate for this course include cooperative education, internship, service learning, and job shadowing. Apprenticeship is not available for this course. Future Business Leaders of America (FBLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. This course can help prepare students for the Microsoft Office Specialist (MOS) in Word and/or PowerPoint, <http://www.microsoft.com/learning/en/us/certification/mos.aspx>.

CC115X0A MICROSOFT EXCEL HONORS

Formerly Microsoft Excel & Access

Credit: 1 unit

Prerequisite: None

Students in Microsoft Imagine Academy benefit from world-class Microsoft curriculum and cutting-edge software tools to tackle real-world challenges in the classroom environment. This class is designed to prepare students for success completion of the Microsoft Office Specialist Excel Core and Excel Expert exams. Successful candidates for the Microsoft Office Specialist Excel 2016 certification exam will have a fundamental understanding of the Excel environment and the ability to complete tasks independently. They will know and demonstrate the correct application of the principle features of Excel 2016. Candidates create and edit a workbook with multiple sheets, and they use a graphic element to represent data visually. Workbook examples include professional-looking budgets, financial statements, team performance charts, sales invoices, and data-entry logs.

Expert-level candidates for the Excel 2016 exam have an advanced understanding of the Excel environment and have the ability to guide others to the proper use of the program's features.

They create, manage, and distribute professional spreadsheets for a variety of specialized purposes and situations. They customize their Excel environments to meet project needs and to enhance productivity. Expert workbook examples include custom business templates, multiple-axis financial charts, amortization tables, and inventory schedules. This course can help prepare students for the Microsoft Office Specialist (MOS) in Excel. <http://www.microsoft.com/learning/en/us/certification/mos.aspx>.

ED452X0A (Standard), ED455X0A (Honors) CAREER MANAGEMENT

Credit: 1 unit

Prerequisite: none

This course prepares students to locate, secure, keep, and change careers. Emphasis is placed on self-assessment of characteristics, interests, and values; education and career exploration; evaluation of career information and creation of a career plan. Based on the National Career Development Guidelines, skills learned in this course include, but are not limited to communications, interpersonal skills, problem solving, personal management and teamwork. English language arts is reinforced. Student participation in Career and Technical Student Organization (CTSO) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

CTE Family & Consumer Science Pathway

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Human Services					
Food & Nutrition (FONU) Credential Opportunities: ANSI-Accredited Food Handler Certificate and Food Protection Manager		FN41 Food and Nutrition I	FN42 Food and Nutrition II* (and Honors)	<i>CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship</i>	FC11 Principles of Family & Human Services

FC112X0A PRINCIPLES OF FAMILY & HUMAN SERVICES

Credit: 1 unit

Prerequisite: None

Students learn core functions of the human services field; individual, family and community systems; and life literacy skills for human development. Emphasis is placed on professional skills, human ecology, diversity, analyzing community issues, and life management skills. Activities engage student in exploring various helping professions, while building essential life skills they can apply in their own lives to achieve optimal wellbeing. English/language arts, social studies, mathematics, science, technology, interpersonal relationships are reinforced. Work-based learning strategies appropriate for this course include service learning and job shadowing. Family, Career and Community Leaders of America (FCCLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

FE602X0A CHILD DEVELOPMENT

Credit: 1 unit

Prerequisite: None

This course introduces students to responsible nurturing and basic applications of child development theory with children from infancy through age six. Areas of study include parenthood decisions, child care issues, prenatal development and care, and development and care of infants, toddlers, and children three through six. Emphasis is on responsibilities of parents, readiness for parenting, and the influence parents have on children while providing care and guidance. Art, English language arts, and science are reinforced. Work-based learning strategies appropriate for this course include service learning and job shadowing. Apprenticeship and cooperative education are not available for this course. Family, Career and Community Leaders of America (FCCLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

FN412X0A FOOD AND NUTRITION I

Formerly Foods I

Credit: 1 unit

Prerequisite: FC11 Principles of Family and Human Services recommended

This course examines the nutritional needs of the individual. Students learn fundamentals of food production, kitchen and meal management, food groups and their preparation, and time and resource management. English language arts, mathematics, science, and social studies are reinforced. Work-based learning strategies appropriate for this course include service learning and job shadowing. Apprenticeship and cooperative education are not available for this course. Family, Career and Community Leaders of America (FCCLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

FN422X0B FOOD AND NUTRITION II

Formerly Foods II

Credit: 1 unit

Prerequisite: FN412X0A Foods and Nutrition I OR FH21 Culinary Arts and Hospitality I

In this course, students experience the cross-section of nutrition science and food preparation while building skills for an expanding range of career opportunities. Emphasis is placed on health and social responsibility while improving the way people eat. Students come to understand food protection, nutrients, lifespan nutrition, sports nutrition, medical nutrition therapy, American and global foodways, and entrepreneurship. English language arts, social studies, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course include

apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning and job shadowing. Family, Career and Community Leaders of America (FCCLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

Go to <http://www.servsafe.com/> for information on the student credentialing program and testing information.

FN425X0B FOOD AND NUTRITION II HONORS

Credit: 1 unit

Prerequisite: FN412X0A Food and Nutrition I OR FH21 Culinary Arts and Hospitality I with a recommended 80 or above average in either course
North Carolina CTE Honors Courses require 25% of the course objectives to be studied as advanced curriculum. Completion of Food I with A level work is highly recommended as a pre-requisite for this course. Students are challenged to meet the standards of the Honors curriculum with the development of a portfolio of special projects completed during the semester. In this course, students experience the intersection of nutrition science and food preparation, while building skills for an expanding range of career opportunities. Emphasis is placed on health and social responsibility while improving the way people eat. Students learn how to manage food safety; plan and prepare meals for a variety of consumers and clients; and explore the food system and global cuisines. English/language arts, social studies, mathematics, science, technology, interpersonal relationships are reinforced. Work-based learning strategies appropriate for this course include apprenticeship, cooperative education, entrepreneurship, internship, mentorship, school-based enterprise, service learning and job shadowing. Family, Career and Community Leaders of America (FCCLA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. *For safety and sanitation reasons, enrollment should not exceed 20 in this course. Students have an opportunity to earn a Food Manager Credential.

CTE Trade & Industrial Pathway: Masonry

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Architecture & Construction					
Masonry (MASO) Credential Opportunities: NCCER Credential	IC00 Construction Core	IC11 Masonry I	IC12 Masonry II*	CS95 CTE Advanced Studies OR CS96 CTE Apprenticeship OR CS97 CTE Internship	
Woodworking (WOWO)		IM21 Woodworking I	IM22 Woodworking II	CS95 CTE Advanced Studies OR CS96 CTE Apprenticeship OR CS97 CTE Internship	

IC002X0A CONSTRUCTION CORE

Credit: 1 unit

Prerequisite: None

This course covers the National Center for Construction Education and Research (NCCER) Core certification modules required for all of the NCCER curriculum-area programs, and an additional Green module. The course content includes: basic safety, introduction to construction math, introduction to hand tools, introduction to power tools, introduction to blueprints, material handling, basic communication skills, and basic employability skills, and "Your Role in the Green Environment". The additional Green module has been added to provide students with instruction in the green environment, green construction practices, and green building rating systems. Also it will help students better understand their personal impacts on the environment and make them more aware of how to reduce their carbon footprint. English Language Arts and Mathematics are reinforced. Work-based learning strategies appropriate for this course include apprenticeship, cooperative education, internship, and job shadowing. This course helps prepare students for additional National Center for Construction Education and Research (NCCER) Core certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IC115X0A MASONRY I (INHERENTLY HONORS) (EBHS Only)

Credit: 1 unit

Prerequisite: IC002X0A Core and Sustainable Construction

This course covers basic masonry terminology and develops technical aspects of masonry with emphasis on development of introductory skills. This course introduces the nature of masonry technology, materials and supplies, and employability skills. Topics include safety, layout, tools, leveling, plumbing, use of straight-edge, and jointing brick and block in wall construction. Mathematics and English language arts are reinforced. Work-based learning strategies appropriate for this course include apprenticeship, cooperative education, internship, and job shadowing. This course helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IC122X0B MASONRY II (EBHS Only)

Credit: 1 unit

Prerequisite: IC115X0A Masonry I

This course builds on skills mastered in Masonry I and provides advanced masonry skills including measurements, drawing and specifications, mortar, masonry units, and installation techniques. English language arts and mathematics are reinforced. Work-based learning strategies appropriate for this course include apprenticeship, cooperative education, internship, and job shadowing. **Math II is recommended as preparation for this course.** This course helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IM212X0A1 WOODWORKING I

Credit: 1

Prerequisite: none

The course teaches the development of knowledge and advance skills in the woodworking and cabinetmaking industry. Emphasis is placed on advanced principles applied to the woodworking and cabinetmaking industry. Topics include advanced levels of the cabinetmaking industry, health and safety, design and layout, materials, hand tools, power tools, portable and stationary, preparation, construction and assembly, and finishing. English language arts and mathematics are reinforced. Due to potentially hazardous processes and equipment a maximum enrollment of 20 is recommended.

IM225X0 WOODWORKING II

Credit: 1

Prerequisite: none

The course teaches the development of knowledge and advance skills in the woodworking and cabinetmaking industry. Emphasis is placed on advanced principles applied to the woodworking and cabinetmaking industry. Topics include advanced levels of the cabinetmaking industry, health and safety, design and layout, materials, hand tools, power tools, portable and stationary, preparation, construction and assembly, and finishing. English language arts and mathematics are reinforced. Due to potentially hazardous processes and equipment a maximum enrollment of 20 is recommended.

CTE Trade & Industrial Pathway: Firefighter Technology

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Law, Public Safety, Corrections & Security					
Firefighter Technology (FIF) Credential Opportunities: OSFM Certifications, NIMS Certifications		IP31 Firefighter Technology I	IP32 Firefighter Technology II*	IP33 Firefighter Technology III CS95 CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship	IP11 Public Safety I
Law and Justice (LAWJ) Credential Opportunities: National Law Enforcement Certification SPSS Certified Protection Officer (CPO)		IP41 Law and Justice I	IP42 Law and Justice II*	IP33 FireFighter Technology III CS95 CTE Advanced Studies OR CS96 CTE Apprenticeship OR CS97 CTE Internship	IP11 Public Safety I

IP112X0A PUBLIC SAFETY I

Credit: 1

Prerequisite: None

This course provides basic career information in public safety including corrections, emergency and fire management, security and protection, law enforcement, and legal services. Additionally students will develop a personal plan for a career in public safety. The course includes skills in each area, using resources from the community to help deliver instruction to the students. English language arts are reinforced. Work-based learning strategies appropriate for this course include job shadowing. Apprenticeship and cooperative education are not available for this course. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IP312X0A FIREFIGHTER TECHNOLOGY I

Credit: 1

Prerequisite: None

This course covers part of the NC Firefighter I/II combination certification modules required for all firefighters in North Carolina. The modules include: Fire Department Orientation and Safety; Fire Prevention, Education, and Cause; Fire Alarms and Communications; Fire Behavior; Personal Protective Equipment; Portable Fire Extinguishers; and Fire Hose, Streams, and Appliances. English language arts are reinforced. Work-based learning strategies appropriate for this course including job shadowing. Apprenticeship and cooperative education are not available for this course. This course

prepares students for the North Carolina Firefighter I/II certification modules. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IP322X0A FIREFIGHTER TECHNOLOGY II

Credit: 1

Prerequisite: IP31 Firefighter Technology I

This course covers additional NC Firefighter I/II combination certification modules required for all firefighters in North Carolina. The modules include: Ropes; Ladders; Forcible Entry; Ventilation; Water Supply; Sprinklers; and Foam Fire Stream. English language arts are reinforced. Work-based learning strategies appropriate for this course including job shadowing. Apprenticeship and cooperative education are not available for this course. This course prepares students for the North Carolina Firefighter I/II certification modules. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

IP335X0A FIREFIGHTER TECHNOLOGY III (INHERENTLY HONORS)

Credit: 1

Prerequisite: IP32 Firefighter Technology II

In this course, students select one specific occupation in the Career Cluster and conduct research to include the nature of the work, work environment, training, education, and advancement, and job prospects. Work-based learning strategies appropriate for this course including job shadowing and internship. Apprenticeship and cooperative training are not available for this course. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experience

IP412X0A1 LAW AND JUSTICE I

Credit: 1

Prerequisite: none

Law and Justice I Students desiring to pursue a career in Law and Justice will examine the basic concepts of law related to citizens' rights and officers' responsibilities to maintain a safe society. This course is aligned to an industry recognized certification in Basic Law Enforcement Knowledge for those desiring a career in Law enforcement. The course discusses the history and development of law enforcement in the United States, components of the criminal justice system, including the roles and responsibilities of the police, courts, and corrections, and classification and elements of crimes. Students will receive instruction in critical skill areas including communicating with diverse groups, conflict resolution, the use of force continuum, report writing, operation of police and emergency equipment, and courtroom testimony. Career planning and employability skills will be emphasized. English language arts are reinforced.

IP435X0A1 LAW AND JUSTICE II (NONORS)

Credit: 1

Prerequisite: LAW AND JUSTICE I

This course emphasizes need to know information for protection officers throughout the security industry and is aligned to the International Federation of Protection Officers (IFPO) certification as a Certified Protection Officer (CPO). Course content includes: Foundations in Law Enforcement and Protective Services, Communications in Law Enforcement and Protective Services, Protection Officers Functions, Crime Prevention and Physical Security, Safety and Fire Protection, Information Protection, Deviance Crime and Violence, Risk and Threat Management, Procedures in Investigations, Legal Aspects of Security, Procedures for Officer Safety and Uses of Force, and Procedures for Relations with Others. English language arts are reinforced.

CTE Trade & Industrial Pathway: Transportation, Distribution, & Logistics

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Drone Technology (DRON) Credential Opportunities: FAA 107 Drone2Map		ID11 Drone Technology I	ID12 Drone Technology II*	CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship	ID10- Foundations of Drone Technology
Global Logistics and Supply Chain Management (GLSC) Credential Opportunities: Global Logistics Associate		IK36 Logistics I (LCO)	IK37 Logistics II* (LCO)	CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship	

ID102X0A Drone Technology Fundamentals

Credit: 1

Prerequisite: None

This course is designed to teach basic programming and fundamentals of Drone technology. It offers a good foundation for Drone Technology I and Drone Technology II.

ID112X0A Drone Technology I

Credit: 1

Prerequisite: Due to credentialing age requirements, the student must be 16 years old prior to the end of the semester in which they take Drone Technology I.

This course is designed to provide students basic information about the drone industry to gain an understanding of careers and skills in this field. FAA 14 CFR part 107 (The Small UAS Rule), officially known as "Part 107 Remote Pilot Certificate" is covered. The Small UAS rule adds a new part 107 to Title 14 Code of Federal Regulations (14 CFR) to allow for routine civil operation of small Unmanned Aircraft Systems (UAS) in the National Airspace System (NAS) and provide safety rules for those operations. This course is also designed for an introduction to basic flight of drones to include manual flight and flight mapping software. Minimum 16 age requirement for enrollment by the end of the course due to FAA Part 107 U.S. Commercial Drone Pilot Certification age requirement. English language arts are reinforced.

ID122X0A Drone Technology II

Credit: 1

Prerequisite: ID12 and due to credentialing age requirements, the student must be 16 years old prior to the end of the semester in which they take Drone Technology I.

This course is designed to provide students, who have their FAA CFR 14 Part 107 (The Small UAS Rule), officially known as "Part 107 Remote Pilot Certificate", the knowledge and skills needed to be a commercial pilot in the Drone Industry. Entrepreneurship, Fleet management, and Drone mapping are included in this course. Students will fly a variety of mission types to include Construction, Agriculture, Public Safety, Power and Energy, and Cinematography. English language arts are reinforced.

IK362X0A Logistics I

Credit: 1

Prerequisite: None

This course is designed so that students can experience and understand the importance of the logistics industry and material handling/warehousing in the logistics and distribution channel. This course is part of a sequence in the Transportation, Distribution & Logistics cluster.

IK372X0A Logistics II: Distribution

Credit: 1

Prerequisite: Logistics 1

This course is designed so that students understand Operations Management, Distribution and Logistics, Channel Network Designs, Distribution Requirements Planning, Packaging and Materials Handling, Transportation Management, and Transportation Operations. This course is part of a sequence in the Transportation , Distribution & Logistics cluster.

CTE Health Sciences Pathway

NC Career Pathway	Foundational Prerequisite	Prerequisite	Concentrator	Career Pathway Major	Supplemental Technical Courses
Health Science					
Healthcare Professional (HPCP) Credential Opportunities: CPR/AED, First Aid, Stop the Bleed, OSHA 10hr-Healthcare, NC Nurse Aide I		HU40 Health Science I	HU42 Health Science II* (and Honors)	<i>HN43 Nursing Fundamentals and Practicum (2 cr) (and Honors) CTE Advanced Studies OR CTE Apprenticeship OR CTE Internship</i>	HU10 Foundations of Health Science

HU102X0A FOUNDATIONS OF HEALTH SCIENCE

Credit: 1 unit

Recommended grades: 9 – 10

Prerequisite: None

This course is designed to assist potential health care workers in their role and function as health team members. Topics include medical terminology, the history of health care, healthcare agencies, ethics, legal responsibilities, health careers, holistic health, health care trends, cultural awareness, communication, medical math, leadership, and career decision making. English language arts are reinforced.

HU402X0A HEALTH SCIENCE I (BCC articulated OST141 Medical Terminology I)

Credit: 1 unit

Recommended Grades: 10-11

Prerequisite: None

This course focuses on human anatomy, physiology and human body diseases and disorders, and biomedical therapies. Students will learn about health care careers within the context of human body systems. Projects, teamwork, and demonstrations serve as instructional strategies that reinforce the curriculum content. English language arts and science are reinforced in this course. Work-based learning strategies appropriate for this course include service learning and job shadowing. Apprenticeship and cooperative education are not available for this course. Health Occupations Students of America (HOSA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. **Biology is recommended as preparation for this course.**

HU422X0B HEALTH SCIENCE II

Credit: 1 unit

Recommended Grades: 11-12

Prerequisite: **HU402X0A** Health Science I OR HP71 PLTW Human Body Systems

This course is designed to help students expand their understanding of financing and trends of health care agencies, fundamentals of wellness, legal and ethical issues, concepts of teamwork, and effective communication. Students will learn health care skills, including current CPR and first aid training. English language arts and science are reinforced in this course. Work-based learning strategies appropriate for this course include internship, mentorship, service learning, and job shadowing. Apprenticeship and cooperative education are not available for this course. Health Occupations Students of America (HOSA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

HU425X0B HEALTH SCIENCE II HONORS

Credit: 1 unit

Recommended Grades: 11-12

Prerequisite: **HU402X0A** Health Science I OR HP71 PLTW Human Body Systems/80 or above average recommended for Health Science I or PLTW Human Body Systems for honors section

This course is designed to help students expand their understanding of financing and trends of health care agencies, fundamentals of wellness, legal and ethical issues, concepts of teamwork, and effective communication. Students will learn health care skills, including current CPR and first aid training. English language arts and science are reinforced in this course. Work-based learning strategies appropriate for this course include internship, mentorship, service learning, and job shadowing. Apprenticeship and cooperative education are not available for this course. Health Occupations Students of America (HOSA) competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences. This honors course extends the Standard course of Study to a higher more challenging level and rigorous level. Students will choose among honors projects allowing for more critical thinking and higher application of learned concepts in addition to the projects already in the course.

HN435X0CC NURSING FUNDAMENTALS AND PRACTICUM (INHERENTLY HONORS)

Credit: 2 units

Maximum Enrollment: 10*

Recommended Grades: 12

Prerequisite: 72422B Health Science II

This course is designed for students interested in medical careers where personal care and basic nursing skills are used. This course is an enhanced adaptation of the North Carolina Division of Health Service Regulation (DHSR) Nurse Aide I (NAI) curriculum and helps prepare students for the National Nurse Aide Assessment (NNAAP). Students who pass the NNAAP become listed on the NC NAI Registry. English language arts, mathematics, and science are reinforced. Work-based learning strategies appropriate for this course include a required clinical internship in a long-term care agency. Healthcare agencies may require testing for tuberculosis and/or other diseases and a criminal record check for felonies related to drugs. Cooperative education is not available for this course. HOSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

**Enrollment is limited per North Carolina Board of Nursing (BON) Administrative Rule 21 NCAC 36.0318(i), which requires the ratio of teacher to nurse aide students be 1:10 or less while in the clinical area. DHSR applies BON Rule to the classroom training area.*

Bladen Community College Campus Courses

All Classes listed below are offered on the BCC campus unless otherwise stated

AGRIBUSINESS TECHNOLOGY I: 2 Periods Per Day, morning only			Year Long	BCC CAMPUS
WC012X0A1	AGR 139	Intro to Sustainable Agriculture	FALL	1 CREDIT
WC022X0A10	AGR 140	Agriculture Chemicals	FALL	1 CREDIT
WC022X0A2	AGR 170	Soil Science	FALL	1 CREDIT
WC022X0A7	ANS 150	Animal Health Management	FALL	1 CREDIT
WC022X0A5	AGR 145	Intro to Small Fruits	SPRING	1 CREDIT
WC022X0A9	AGR 212	Farm Business Management	SPRING	1 CREDIT
WC022X0A8	AGR 263	Vegetable Production	SPRING	1 CREDIT
WC022X0A6	ANS 111	Sustainable Livestock Mgmt.	SPRING	1 CREDIT

Recommended Grades: 11-12

Bladen County School students who choose to enroll in BCC Agribusiness classes will have completed an agriculture CTE pathway at their respective high school prior to enrolling in the BCC Agribusiness classes. This pathway is designed to provide the entrepreneurial and technical skills necessary to manage a profitable, environmentally sound, community based small farm or agricultural business. The objective is the development of a workforce knowledgeable in sustainable agriculture practices. Course work includes instruction in agriculture, sustainable farm practices, livestock management, vegetable production, farm maintenance, and field lab. Students will earn twenty-five (25) semester hours of college credit, complete a certificate, and gain credit towards an Associate Degree in Agribusiness Technology.

CARPENTRY I: Two Periods Per Day		Year Long	BCC CAMPUS	
CW002X0C1	CAR 110	Introduction to Carpentry	FALL	0 CREDIT
WC032X0C2	CAR 111 AB	Carpentry I (PART A)	FALL	1 CREDIT
WC042X0C3	CAR 111 BB	Carpentry I (PART B)	SPRING	2 CREDIT
WC032X0C4	BPR 130	Print Reading Construction	SPRING	1 CREDIT
WC032X0C9	WOL 110	Basic Construction Skills	FALL	1 CREDIT
CW002X0C10	PLU 111	Intro to Basic Plumbing	SPRING	0 CREDIT

Recommended Grade: 11-12

Prerequisite: None

This Pathway is designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimation, construction materials and methods, and other topics related to design and construction occupations. This pathway helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

COSMETOLOGY LEVEL I: Two Periods Per Day		Year Long	BCC	
WC192X0S1	COS 111AB COS 111BB	COSMETOLOGY CONCEPTS I Fall COSMETOLOGY CONCEPTS I Spring	FALL SPRING	1 CREDIT
WC192X0S2	COS 112AB	SALON PART A	FALL	1 CREDIT
WC202X0S3	COS 112BB	SALON PART B	SPRING	1 CREDIT

COSMETOLOGY LEVEL I: Two Periods Per Day		FALL	BLADEN EARLY COLLEGE ONLY	
WC192X0S11	COS 111	COSMETOLOGY CONCEPTS 1	FALL	1 CREDIT
WC202X0S12	COS 112	SALON 1	FALL	1 CREDIT

Credit: Cosmetology Concepts 1 earns 1 high school credit for the year long course. Salon I (Year-long) earns 2 credits. BEC awards 2 high school credits per course in the semester long schedule.

Recommended Grades: 11-12

Prerequisite: None

This course introduces developmental skills, employment opportunities, and career information required for the cosmetology industry. Topics include facials, manicures, hair cutting, chemical relaxing and restructuring, wet hair styling, and hair coloring and lighting. Skills in mathematics, science, biology, leadership, and problem solving are reinforced in this course. The work-based learning strategy appropriate for this course is a school-based enterprise. Hands-on work experiences and SkillsUSA leadership activities provide many opportunities to enhance classroom instruction and career development. Students will earn three (3) high school units and (12) twelve semester hours of college credit (COS 111 and 112) toward a Diploma and an Associate Degree in Cosmetology.

For the NC State Board of Cosmetic Arts student enrollment: all students must have a government issued SSN card (or a government issued Tax ID number) and an NC Issued Identification Card with photo. All cosmetology students are required by the NC State Board of Cosmetic Arts to always dress in uniform during class to receive State Board Hours. Students will have to provide their own uniforms. The uniform consists of: solid white uniform scrub top, solid white uniform scrub pants, solid white uniform lab jacket, solid white uniform work shoes, and appropriate (skin tone or white) undergarments.

COSMETOLOGY LEVEL II: Two Periods Per Day		Year Long	BCC

WC192X0S13	COS 113	COSMETOLOGY CONCEPTS II	YL	1 CREDIT

WC202X0S14 COS 114 SALON II FALL 1 CREDIT

Credit: Cosmetology Concepts II earns 1 credit for the year. Salon II (Year-long) earns 2 credits and 1 credit for semester at BEC.

Recommended Grade: 12

Prerequisite: COS 111AB, COS 111BB, COS 112AB, COS 112BB

This course provides for the development of processes, techniques, and skills introduced in Cosmetology I. Topics include hair coloring techniques, chemical serving, identification and treatment of disorders of the skin, scalp and hair, manicuring, pedicuring, artificial nails, hair removal, and permanent waving techniques. Skills in chemistry, mathematics, business, thinking, and communication are reinforced in this course. The work-based learning strategy appropriate for this course is a school-based enterprise. Hands-on work experiences and SkillsUSA leadership activities provide many opportunities to enhance classroom instruction and career development. Students will earn (3) three high school units and (12) twelve semester hours of college credit (COS 113 and 114) toward a Diploma and an Associate Degree in Cosmetology.

For the NC State Board of Cosmetic Arts student enrollment: all students must have a government issued SSN card (or a government issued Tax ID number) and an NC Issued Identification Card with photo. All cosmetology students are required by the NC State Board of Cosmetic Arts to always dress in uniform during class to receive State Board Hours. Students will have to provide their own uniforms. The uniform consists of: solid white uniform scrub top, solid white uniform scrub pants, solid white uniform lab jacket, solid white uniform work shoes, and appropriate (skin tone or white) undergarments.

COSMETOLOGY LEVEL III & IV: BLADEN EARLY COLLEGE ONLY

WC192X0S15	COS 115	COSMETOLOGY CONCEPTS III	1 CREDIT
WC202X0516	COS 116	SALON III	1 CREDIT
WC202X2510	COS 118	SALON IV	2 CREDITS

ELECTRICAL SYSTEMS TECHNOLOGY I: Two Periods Per Day Year Long BCC

WC032X0P1	ELC 112	DC/AC ELECTRICITY	FALL	2 CREDIT
WC042X0P4	ELN 133	DIGITAL ELECTRONICS	FALL	1 CREDIT
WC032X0P3	ELC 117	MOTORS & CONTROLS	SPRING	1 CREDIT
WC032X0P4	ELC 113	RESIDENTIAL WIRING	SPRING	1 CREDIT

Credit: All courses earn one credit EXCEPT DC/AC Electricity which earns 2 credits.

Recommended Grades: 11-12

Prerequisite: None

This course introduces residential wiring, electrical installation, and service. Topics include basic electricity, electrical construction codes and practices, the National Electrical Code, the use of test equipment, and electrical hand and power tools. Skills in safety, mathematics, leadership, and problem solving are reinforced in this course. Students will earn five (5) high school units of credit and seventeen (17) semester hours of college credit (ELC 112, ELC 113, ELC 117, ELN 133), completing a certificate and gaining credit towards an Associate Degree in Electrical/Electronics Technology. This pathway helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

EMERGENCY MEDICAL SCIENCE: Two Periods Per Day Year Long BCC

WC152X0P6	OST 141	MEDICAL OFFICE TERMS I	SPRING	1 CREDIT
WC152X0P7	EMS 110	EMERGENCY MEDICAL SCIENCE	FALL	3 CREDIT
WC162X0P8	OST 142	MEDICAL OFFICE TERMS II	SPRING	1 CREDIT
WC032X0P4	EMS 160	CARDIOLOGY I	SPRING	1 CREDIT

Recommended Grades: 11-12

Prerequisite: OST 141 is a prerequisite for OST 142; Students must be 17 years of age on or before the official end date of the EMT 110 course.

Students must have successful completion of an exam assessing basic reading comprehension skills at a minimum of the eleventh-grade level.

Completer courses (*)

The Emergency Medical Science (EMS) pathway introduces basic emergency medical care, employment opportunities, and career information required of health care professionals. This pathway will also introduce students to terminology and vocabulary that will be encountered in health care related professions. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification. Students will earn four (4) high school units and (18) eighteen semester hours of college credit toward an Associate Degree in Emergency Medical Science.

Students must have successful completion of an exam assessing basic reading comprehension skills at a minimum of the eleventh-grade level.

WELDING PROCESSES I: Two Periods Per Day

Year Long

EBHS only at BCC

CW002X0G1	WLD 110	CUTTING PROCESSES	FALL	0 CREDIT
WC252X0G2	WLD 115	SMAW (STICK) PLATE	FALL	2 CREDIT
WC252X0G3	WLD 121	GMAW (MIG) FCAW/PLATE	SPRING	1 CREDIT
WC262X0G4	WLD 131	GTAW (TIG) PLATE	SPRING	1 CREDIT

Recommended Grade: 11-12

Prerequisite: None

Welding is an in-depth study covering topics on skill development with emphasis on trade terminology, shop mathematics, codes, and specifications. This is an advanced course in industrial and constructional welding with more emphasis on MIG and TIG welding and Plasma Arc cutting. At least 75% of the time is spent on hands-on activities. Students will earn four (4) high school units and fifteen (15) semester hours of college credit (WLD 110, 115, 121 and 131), completing a certificate and gaining credit towards an Associate Degree in Welding Technology. This pathway helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

WELDING PROCESSES I Year Long

WBHS

WC252X0G2	WLD 115	SMAW (STICK) PLATE	FALL	2 CREDIT
WC262X0G4	WLD 131	GTAW (TIG) PLATE	SPRING	1 CREDIT

Recommended Grade: 11-12

Prerequisite: None

Welding is an in-depth study covering topics on skill development with emphasis on trade terminology, shop mathematics, codes, and specifications. This is an advanced course in industrial and constructional welding with more emphasis on MIG and TIG welding and Plasma Arc cutting. At least 75% of the time is spent on hands-on activities. Students will earn three (3) high school units and nine (9) semester hours of college credit, gaining credit towards an Associate Degree in Welding Technology. This pathway helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

WELDING PROCESSES II Year Long

WBHS

WC252X0G5	WLD 116	SMAW (STICK) PLATE/PIPE	FALL	1 CREDIT
WC262X0G7	WLD 262	INSPECTION & TESTING	SPRING	1 CREDIT

CW002X0G10	ISC 112	INDUSTRIAL SAFETY	SPRING	0 CREDIT

**OSHA certification available at successful completion of ISC 112*

Recommended Grade: 12

Prerequisite: WLD 115 SMAW (STICK) PLATE; WLD 131 GTAW (TIG) PLATE

This pathway covers shielded metal welding, metal fabrication, and welding certificate practices. Students will earn two (2) high school units and eleven (11) semester hours of college credit (WLD 116, 143, 262, and ISC 112), gaining credit towards an Associate Degree in Welding Technology. This pathway helps prepare students for National Center for Construction Education and Research (NCCER) certification. SkillsUSA competitive events, community service, and leadership activities provide the opportunity to apply essential standards and workplace readiness skills through authentic experiences.

Distance Learning Opportunities

Online Course opportunities not available in Bladen County Schools course registry to earn high school credit are available through the following pathways:

- North Carolina School of Science and Math (NCSSM-Online)
- North Carolina Virtual Public School

Online courses can also be provided through dual enrollment opportunities for high school and college credit through the College and Career Promise Program at Bladen Community College.

North Carolina School of Science and Math (NCSSM-Online)

The North Carolina School of Science and Math (NCSSM) Online is a two-year, sequenced online program that provides:

- ❖ Exploration of specialized STEM (science, technology, engineering, math) courses available to high school students who qualify.
- ❖ A learning community of highly talented students in North Carolina that enriches their experience while attending their local high school.

Program Elements:

- ❖ All accepted students visit the NCSSM campus to learn about the program expectations and technology, meet faculty and staff, and get to know other students.
- ❖ Students can take 1-2 classes per semester of advanced NCSSM courses; each class is taught by a NCSSM faculty member. Many courses are aligned with STEM (science, technology, engineering, math) topics.
- ❖ Each class and has a required weekly evening web-videoconference for the teacher and class to meet together for a live discussion.

- ❖ Many courses have a required weekend once or twice each semester where students visit the NCSSM campus to work with their classmates and teacher and socialize with other program students.
- ❖ All admitted students can apply to participate in our special and summer courses, modeled after NCSSM's residential mini-term and independent study opportunities to study in-depth a specialized topic over several weeks.

North Carolina Virtual Public School (NCVPS-Online)

North Carolina Virtual Public School (NCVPS) is an online school community that will serve K-12 public school students throughout the state of North Carolina.

- ❖ NCVPS provides courses for students who want access to learning opportunities in addition to the courses currently offered at their school.
- ❖ All courses are taught online. Courses may be completed at school, at home or other settings where a computer and Internet connection are located.
- ❖ All NCVPS courses will meet the curriculum standards for the North Carolina Department of Public Instruction. In addition, all courses meet recognized quality assurance standards for e-learning courses. NCVPS courses are offered free of charge to public school students. The courses utilize Blackboard course management software to maximize student interaction in each class.

Career and College Promise Program College Transfer - Arts Pathway

The Bladen Community College Career and College Promise Program provides seamless dual enrollment educational opportunities to qualifying high school juniors and seniors. The Career and College Promise Program allows high school students the opportunity to pursue a high school diploma while concurrently progressing towards earning a postsecondary academic credential including a certificate, diploma, or degree. Such credentials will grant students the essential academic training to pursue college transfer interests and entry-level employment opportunities. The Career and College Promise (CCP) Arts Pathway is designed for high school juniors and seniors who wish to begin study toward the Associate in Arts degree and a Baccalaureate degree in a non-STEM major.

Students interested in participating in one of the College Transfer Pathways must meet the following criteria:

- (1) Be a high school junior or senior,
- (2) Have an **unweighted** high school grade point average of 2.8 or higher, **OR**
- (3) Demonstrate college readiness in English, reading and mathematics (**See Attachment A for test scores**):

a. PSAT	f. RISE Placement Test
b. SAT	g. Advanced Placement (AP)
c. Pre-ACT	h. International Baccalaureate (IB)
d. ACT	i. Cambridge International Exams
e. NC DAP	

Career and College Promise participants will earn both high school and college credit. The North Carolina Department of Public Instruction will determine the number of high school units to be awarded to students for successful completion of college courses. Awarded high school credits will be counted as elective credits and cannot be used to fulfill a required high school course requirement.

All courses listed in the various College Transfer Pathways are listed in the Comprehensive Articulation Agreement; therefore, such courses will transfer to any of the 16 colleges in the University of North Carolina College System and many private colleges. Transferability of courses is contingent upon the student earning a grade of "C" or better in each course.

Career and College Promise Program participants are not required to pay tuition for courses identified in their approved College Transfer Pathway. High school students in the CCP Arts Pathway must complete the entire pathway before taking additional courses in the Associate in Arts (A10100) program. Career and College Promise participants are required to maintain at least a 2.0 grade point average on college course work after the completion of two college level courses.

ACCREDITATION: Bladen Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404.679.4500 for questions about the accreditation of Bladen Community College.

MISSION STATEMENT: Bladen Community College is dedicated to the educational and cultural enrichment of the local and global communities it serves.

Arts Pathway

The Career and College Promise (CCP) Arts Pathway is designed for high school juniors and seniors who wish to begin study toward the Associate in Arts degree and a Baccalaureate degree in a non-STEM major. Qualified high school juniors and seniors are given an opportunity to earn valuable credits toward a college degree and take advantage of tremendous savings. **Tuition is waived. Each student will be responsible for the purchase of textbooks.**

Associate in Arts Pathway (P1012C)

The following two English composition courses are required: (6 SHC)

- ENG 111 Writing & Inquiry (3 SHC)
ENG 112 Writing/Research in the Disciplines (3)

Select three courses from the following from at least two different disciplines: (9 SHC)

- COM 120 Intro Interpersonal Com (3) or
COM 231 Public Speaking (3)
ART 111 Art Appreciation (3)
ART 114 Art History Survey I (3)
ART 115 Art History Survey II (3)
DRA 111 Theatre Appreciation (3)
ENG 231 American Literature I (3)
ENG 232 American Literature II (3)
ENG 241 British Literature I (3)
ENG 242 British Literature II (3)
MUS 110 Music Appreciation (3)
MUS 112 Introduction to Jazz (3)
PHI 215 Philosophical Issues (3)
PHI 240 Introduction to Ethics (3)

Select three courses from the following from at least two different disciplines: (9 SHC)

- ECO 251 Principles of Microeconomics (3)
ECO 252 Principles of Macroeconomics (3)
HIS 111 World Civilizations I (3)
HIS 112 World Civilizations II (3)
HIS 131 American History I (3)
HIS 132 American History II (3)
POL 120 American Government (3)
PSY 150 General Psychology (3)
SOC 210 Introduction to Sociology (3)

Select one course from the following: (3-4 SHC)

- MAT 143 Quantitative Literacy (3)
MAT 152 Statistical Methods I (4)
MAT 171 Precalculus Algebra (4)

Select one course from the following: (4 SHC)

- AST 111/111A Descriptive Astronomy & Lab (4)
AST 151/151A General Astronomy I & Lab (4)
BIO 110 Principles of Biology (4)
BIO 111 General Biology I (4)
CHM 151 General Chemistry I (4)
GEL 111 Introductory Geology (4)
PHY 110/110A Conceptual Physics I & Lab (4)

The following course is required:

- ACA 122 College Transfer Success (1)

***OPTIONAL GENERAL EDUCATION HOURS**

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as part of the P1012C and P1042C pathways. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Semester Hours Credit (SHC) in Program: 32-41*

Career and College Promise Program College Transfer – Arts Pathway in Teacher Preparation

The Bladen Community College Career and College Promise Program provides seamless dual enrollment educational opportunities to qualifying high school students. The Career and College Promise Program allows high school students the opportunity to pursue a high school diploma while concurrently progressing towards earning a postsecondary academic credential including a certificate, diploma, or degree. Such credentials will grant students the essential academic training to pursue college transfer interests and entry-level employment opportunities. The CCP College Transfer Pathway Leading to the Associate in Arts in Teacher Preparation is designed for high school students who wish to begin study toward the Associate in Arts in Teacher Preparation degree and a baccalaureate degree in teaching in a non-STEM major.

Students interested in participating in one of the College Transfer Pathways must meet the following criteria:

- (1) Be a high school junior or senior,
- (2) Have an **unweighted** high school grade point average of 2.8 or higher, **OR**
- (3) Demonstrate college readiness in English, reading and mathematics (**See Attachment A for test scores**):
 - a. PSAT
 - b. SAT
 - c. Pre-ACT
 - d. ACT
 - e. NC DAP
 - f. RISE Placement Test
 - g. Advanced Placement (AP)
 - h. International Baccalaureate (IB)
 - i. Cambridge International Exams

Career and College Promise participants will earn both high school and college credit. The North Carolina Department of Public Instruction will determine the number of high school units to be awarded to students for successful completion of college courses. Awarded high school credits will be counted as elective credits and cannot be used to fulfill a required high school course requirement.

All courses listed in the various College Transfer Pathways are listed in the Comprehensive Articulation Agreement; therefore, such courses will transfer to any of the 16 colleges in the University of North Carolina College System and many private colleges. Transferability of courses is contingent upon the student earning a grade of "C" or better in each course.

Career and College Promise Program participants are not required to pay tuition for courses identified in their approved College Transfer Pathway. High school students in the CCP Arts Pathway in Teacher Preparation must complete the entire pathway before taking additional courses in the Associate in Arts in Teacher Preparation (A1010T) program. Career and College Promise participants are required to maintain at least a 2.0 grade point average on college course work after the completion of two college level courses.

ACCREDITATION: Bladen Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404.679.4500 for questions about the accreditation of Bladen Community College.

MISSION STATEMENT: Bladen Community College is dedicated to the educational and cultural enrichment of the local and global communities it serves.

Arts Pathway in Teacher Preparation

The Career and College Promise (CCP) Arts Pathway in Teacher Preparation is designed for high school students who wish to begin study toward the Associate in Arts in Teacher Preparation degree and a Baccalaureate degree in a non-STEM major. Qualified high school students are given an opportunity to earn valuable credits toward a college degree and take advantage of tremendous savings. **Tuition is waived. Each student will be responsible for the purchase of textbooks.**

Arts Pathway in Teacher Preparation (P1012T)

The following two English composition courses are required: (6 SHC)

ENG 111	Writing & Inquiry (3 SHC)
ENG 112	Writing/Research in the Disciplines (3)

Select three courses from the following from at least two different disciplines: (9 SHC)

COM 120	Intro Interpersonal Com (3)	ENG 232	American Literature II (3)
COM 231	Public Speaking (3)	ENG 241	British Literature I (3)
ART 111	Art Appreciation (3)	ENG 242	British Literature II (3)
ART 114	Art History Survey I (3)	MUS 110	Music Appreciation (3)
ART 115	Art History Survey II (3)	MUS 112	Introduction to Jazz (3)
DRA 111	Theatre Appreciation (3)	PHI 215	Philosophical Issues (3)
ENG 231	American Literature I (3)	PHI 240	Introduction to Ethics (3)

Select two courses from the following from at least two different disciplines: (6 SHC)

ECO 251	Principles of Microeconomics (3)
ECO 252	Principles of Macroeconomics (3)
HIS 111	World Civilizations I (3)
HIS 112	World Civilizations II (3)
HIS 131	American History I (3)
HIS 132	American History II (3)
POL 120	American Government (3)
PSY 150	General Psychology (3)
SOC 210	Introduction to Sociology (3)

Select one course from the following: (3-4 SHC)

MAT 143	Quantitative Literacy (3)
MAT 152	Statistical Methods I (4)
MAT 171	Precalculus Algebra (4)

Select one course from the following: (4 SHC)

AST 111/111A	Descriptive Astronomy & Lab (4)
AST 151/151A	General Astronomy I & Lab (4)
BIO 110	Principles of Biology (4)
BIO 111	General Biology I (4)
CHM 151	General Chemistry I (4)
GEL 111	Introductory Geology (4)
PHY 110/110A	Conceptual Physics I & Lab (4)

The following courses are required:

ACA 122	College Transfer Success (1)
EDU 187	Teaching and Learning for All* (4)
EDU 216	Foundations of Education (3)
SOC 225	Social Diversity (3)

**Students who have completed Teacher Cadet or Teaching as a Profession courses in high school with a B or better may substitute that course for EDU 187 Teaching and Learning for All.*

****OPTIONAL GENERAL EDUCATION HOURS**

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as a part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Semester Hours Credit (SHC) in Program: 39-48**

Bladen Community College

Career and College Promise Program College Transfer - Science Pathway

The Bladen Community College Career and College Promise Program provides seamless dual enrollment educational opportunities to qualifying high school juniors and seniors. The Career and College Promise Program allows high school students the opportunity to pursue a high school diploma while concurrently progressing towards earning a postsecondary academic credential including a certificate, diploma, or degree. Such credentials will grant students the essential academic training to pursue college transfer interests and entry-level employment opportunities. The Career and College Promise (CCP) Science Pathway is designed for high school juniors and seniors who wish to begin study toward the Associate in Science degree and a Baccalaureate degree in a STEM or technical major.

Students interested in participating in one of the College Transfer Pathways must meet the following criteria:

- (1) Be a high school junior or senior,
- (2) Have an **unweighted** high school grade point average of 2.8 or higher, **OR**
- (3) Demonstrate college readiness in English, reading and mathematics (**See Attachment A for test scores**):

a. PSAT	f. RISE Placement Test
b. SAT	g. Advanced Placement (AP)
c. Pre-ACT	h. International Baccalaureate (IB)
d. ACT	i. Cambridge International Exams
e. NC DAP	

Career and College Promise participants will earn both high school and college credit. The North Carolina Department of Public Instruction will determine the number of high school units to be awarded to students for successful completion of college courses. Awarded high school credits will be counted as elective credits and cannot be used to fulfill a required high school course requirement.

All courses listed in the various College Transfer Pathways are listed in the Comprehensive Articulation Agreement; therefore, such courses will transfer to any of the 16 colleges in the University of North Carolina College System and many private colleges. Transferability of courses is contingent upon the student earning a grade of "C" or better in each course.

Career and College Promise Program participants are not required to pay tuition for courses identified in their approved College Transfer Pathway. High school students in the CCP Science Pathway must complete the entire pathway before taking additional courses in the Associate in Science (A10400) program. Career and College Promise participants are required to maintain at least a 2.0 grade point average on college course work after the completion of two college level courses.

ACCREDITATION: Bladen Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404.679.4500 for questions about the accreditation of Bladen Community College.

MISSION STATEMENT: Bladen Community College is dedicated to the educational and cultural enrichment of the local and global communities it serves.

Science Pathway

PHI 240	Introduction to Ethics (3)

The following course is required: (3 SHC)

ECO 251	Principles of Microeconomics (3)
---------	----------------------------------

The following courses are required: (8 SHC)

Calculus I is the lowest level math course that will be accepted by the engineering programs for transfer as a math credit. Students who are not calculus-ready will need to take additional math courses.*

MAT 271	Calculus I (4)
MAT 272	Calculus II (4)

Select two courses from the following: (8 SHC)

CHM 151	General Chemistry I (4)
PHY 251	General Physics I (4)
PHY 252	General Physics II (4)

Other Required Courses: (6 SHC)

ACA 122	College Transfer Success (1)
EGR 150	Introduction to Engineering (2)
DFT 170	Engineering Graphics (3)

PREREQUISITE GENERAL EDUCATION COURSES: (0 - 8 SHC)

MAT 171	Pre-calculus Algebra (4)
MAT 172	Pre-calculus Trigonometry (4)

Students who do not place directly into MAT 271 must complete MAT 171 and MAT 172 prior to enrolling in MAT 271 Calculus I.

***OPTIONAL GENERAL EDUCATION HOURS**

A student may take up to 8 SHC of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as part of their pathway. The receiving university will determine whether the courses will count as general education, pre-major, or elective credit.

Total Semester Hours Credit (SHC) in Program: 34-50

High school students in the CCP College Transfer Pathway Leading to the Associate in Engineering must complete the entire pathway before taking additional courses in the Associate in Engineering degree with the following exception: Students may take additional math courses beyond MAT 272 that are required for the Associate in Engineering degree.

Attachment A

College Readiness Benchmarks

*CCP Program Eligibility Benchmarks on Approved Diagnostic Assessment Tests

Test	PSAT 10 and PSAT/NMSQT (2015 and Future)	SAT (March 2016 and Future)	Pre-ACT and ACT	NC DAP (NCCCS Cut Score)	RISE Placement Test
English	26 or a composite score of 460 for Evidenced-Based Reading and Writing	480 composite score for Evidenced- Based Reading and Writing	18	Composite score of 151 or higher	70 or higher on Tier 1 and Tier 2 (See RISE placement Guide)
Reading	26 or a composite score of 460 for Evidenced-Based Reading and Writing		22		
Mathematics	24.5 or 510	530	22	7 on each assessment for DMA 010 thru 060	70 or higher on Tier 1 and Tier 2 and Tier 3 (See RISE placement Guide)
Advanced Placement (AP)		International Baccalaureate (IB)		Cambridge International Examinations	
English, Language and Composition	3 or higher	IB English A (Standard or Higher Level)	4 or higher	AS Level English Language	C or higher
English, Literature, and Composition	3 or higher	IB Mathematics (Higher Level)	4 or higher	A Level English Language	C or higher
Calculus AB	3 or higher	IB Advanced Mathematics (Higher Level)	4 or higher	AS Level Language and Literature in English	C or higher
Calculus BC	3 or higher	IB Mathematical Studies (Standard Level)	4 or higher	AS Level Math	C or higher
*To be eligible for enrollment in a College Transfer Pathway, students must demonstrate college readiness in English, reading, and mathematics on an approved test or tests. Eligibility may be demonstrated by achieving the required scores on a single test or by combining test scores from any of the approved assessments. For example, a student may combine a 22 on ACT math with a 480 on SAT composite score for evidenced based reading and writing to demonstrate college readiness.				A Level Math	C or higher
				A Level Mathematics - Further	C or higher

Career and College Promise Program Career & Technical Education Pathways

The Bladen Community College Career and College Promise Program provides seamless dual enrollment educational opportunities to qualifying high school juniors and seniors. The Career and College Promise Program allows high school students the opportunity to pursue a high school diploma while concurrently progressing towards earning a postsecondary academic credential including a certificate, diploma, or degree. Such credentials will grant students the essential academic training to pursue entry-level employment opportunities. **Students may select one of the following Career Technical Education Pathways per academic year to pursue while enrolled in the Career and College Promise Program: (1) Agribusiness Technology, (2) Carpentry, (3) Cosmetology, (4) Electrical Systems Technology (5) Emergency Medical Science and (6) Welding Technology, (7) Air Condition, Heating, and Refrigeration Technology.** A student may concurrently enroll in two CTE programs of study provided the exception has been approved by the college's Chief Academic Officer or his/her designee.

Students interested in participating in Career and Technical Education Pathways must meet the following criteria:

- (1) Be a high school junior or senior;
- (2) Meet the prerequisites for the career pathway.
- (3) Have an **unweighted** high school grade point average of 2.8 or higher **OR**
- (4) The recommendation of the high school principal or his/her designee **OR**
- (5) Demonstrate college readiness in English, reading and mathematics using one or more of the following assessments (**See Attachment A for test scores**):

<ol style="list-style-type: none"> a. PSAT b. SAT c. Pre-ACT d. ACT e. NC DAP j. International Exams 	<ol style="list-style-type: none"> f. RISE Placement Test g. Advanced Placement (AP) h. International Baccalaureate (IB) i. Cambridge
--	---

Career and College Promise Program students **are not required to pay tuition/fees** for courses identified in their approved Career Technical Education Pathway. Students are not permitted to enroll in any courses not listed as a core requirement of their program of study. To maintain eligibility for continued enrollment a student must continue to make progress toward high school graduation and maintain at least a 2.0 grade point average (GPA) in college course work after the completion of two college courses. A student who falls below a 2.0 GPA after completing two college courses will be subject to the college's policy for satisfactory academic progress.

ACCREDITATION: Bladen Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404.679.4500 for questions about the accreditation of Bladen Community College.

MISSION STATEMENT: Bladen Community College is dedicated to the educational and cultural enrichment of the local and global communities it serves.

Bladen County Schools: Credit by Demonstrated Mastery (CDM)

Every student deserves a high-quality education, and the Credit by Demonstrated Mastery policy ensures that every student has the opportunity for the most rigorous and appropriate course of study based on academic progress and need.

Access to the Credit by Demonstrated Mastery process is open to all NC public school students high school courses in grades 9-12 and those high school courses offered in middle school. Districts and schools should neither limit CDM to certain students nor exclude any student who wants to pursue this pathway.

For non-EOC high school courses, students must take a local examination developed or selected by the district or school. Examinations shall be based upon the North Carolina Standard Course of Study for these courses and should be cumulative in nature where a qualifying score demonstrates mastery of the entire course. The number of questions included on the exam for each standard should be representative of the standard's relative weight within the course.

While the Phase I assessment process establishes a student's strong foundational understanding of the course standards, the Phase II artifact development process establishes a student's ability to apply knowledge in a meaningful context to establish clearly that s/he should be awarded course credit. For all EOC and non-EOC courses, students are expected to create an artifact that demonstrates their deep understanding of the content standards, and their ability to apply the skills and knowledge expected for the course. Artifacts may be of any type, ranging from three-dimensional to paper-based to electronic to oral interviews.

Student Credit will be earned if both phases of the project are completed successfully. Students will earn a Pass/Fail for this course that will not affect their GPA. Each course will earn them one unit of credit.

Students should contact guidance counselors if they are interested in completing the Credit by Demonstrated Mastery (CDM) process. This process will be completed in addition to their regular course load of 4 classes.

Refer to Appendix E for Parent/Student Agreement.

3 Year Graduation Pathway

Students in North Carolina have the option to graduate from high school through a sequence of courses that will allow the student to complete the credits required for graduation the a three-year period. High school transcripts for students choosing this pathway will indicate if the student graduates from a public high school within three years of entering the ninth grade.

Three Year Graduation Pathway Criteria

The following criteria shall apply to a student enrolled in Bladen County Schools who has entered the 11th grade at the beginning of the 2024-25 school year or thereafter; and is at least 16 years of age at the time of graduation.

1. The student shall complete and sign and 3 year graduation request form. The form must be completed in its entirety and signed by both the student and the parents.
2. The parent(s) and/or student(s) are responsible for contacting the principal to set up a meeting ot discuss the three- year graduation path. This meeting is mandatory and required by NC State Board of Education policy.
3. During this meeting, the principal will discuss plans with the student and parents for transitioning into education, employment, or enlistment in the Armed Forces of the United States. He/She will also discuss discontinued access to high school services and programs, including extracurricular activities and interscholastic athletics. Finally, support structures available to students in the high school environment (nutrition, school counseling, etc.)
4. Once the meeting has been held, the principal will complete their portion of the three year graduation pathway request form and secure an academic transcript for the student to be attached.
5. The principal will send a copy of the form and transcript to the superintendent.
6. The superintendent will have up to 45 days to review the student's eligibility and compliance with the procedures above and provide a response in writing to the parent and student.

7. If the request is approved during the semester after classes have started, the student may elect to graduate immediately, or graduate at the end of the semester. However if a student does not submit the request until after 45 days, the student will be required to complete the current semester.

Course Sequence for Three Year Graduation Pathway

Grade 9	Grade 10	Grade 11
English I English II Math 1 Math 2 Earth/Env Science World History Health & Physical Education 1 Elective Course	English III Math 3 Chemistry American History Founding Principles of the USA and NC: Civic Literacy Two Elective Courses	English IV 4 th Level Math Course Biology Economics & Personal Finance 3 Elective Courses

See Appendix F for the Application for this three Year Graduation Pathway.

Apex: Credit Recovery

APEX is the program used by Bladen County Schools for credit recovery. This is an after school, online credit recovery program that students can sign up for to recover courses. Upon successful completion of an Apex Course, students will be awarded a pass or fail grade. Numeric grades are not given for credit recovery courses and do not affect a student's GPA. Apex may not offer all courses available through Bladen County Schools, so please check with your guidance counselor for available options.

Occupational Course of Study

Students entering 9th Grade 2021-2022

Subject	Requirements
English	4 credits English I, II, III, IV
Mathematics	4 credits Intro to Mathematics I, NC Math 1, Financial Management, Employment Preparation IV: Math *
Science	3 credits Applied Science, Biology, Employment Preparation I: Science *
Social Studies	4 credits Founding Principles of USA and NC: Civic Literacy, Economics and Personal Finance, Employment Preparation II: Citizenship 1A, Employment Preparation II: Citizenship 1B
Foreign Language	Not Required
Computer Skills	Computer proficiency as specified in IEP

Foreign Language	Not Required
Computer Skills	Computer proficiency as specified in IEP
Occupational Preparation	6 credits Occupational Preparation I* or Employment Preparation I: Science Occupational Preparation II or Employment Preparation II: Citizenship 1A and Employment Preparation II: Citizenship 1B, Occupational Preparation III or Employment Preparation III: Citizenship 2A and Employment Preparation III: Citizenship 2B Occupational Preparation IV* or Employment Preparation IV: Math <i>*Co-Requisite Career Training Required</i>
	Entered 9th Grade 14-15 to 2020-21 Completion of 150 hours of school-based training, 225 hours of community-based training, and 225 hours of paid employment
Health & PE	1 credit Health/Physical Education
Career/Technical	4 credits Career Technical Education Electives
Arts Education	1 credit recommended (not required-local board decision)
Electives or Other Requirements	2 credits Career Training Elective Credits, Completion of IEP Objectives, No Exit Exam, Career Portfolio required

OCS Course Descriptions and Course Codes

9260BX0XE EMPLOYMENT PREPARATION I: SCIENCE

Credit: 1 unit

Prerequisite: None required

Co-requisite: Career Training

This course is designed to teach students skills and promote success in the areas of postsecondary education, employment, and independent living. Instructional emphasis will be placed on the application and generalization of skills to post school environments. This course will focus on Employability Skills, Self-Awareness, Self-Determination, Self-Advocacy, Technology, Employment Applied Math, Health and Safety, Career Development and Planning, Personal Management, and includes mathematical practices applied and integrated in the employment environment and supporting independent living. The Six Employability Skills adopted by NCDPI have been embedded within the competency goals and objectives throughout the course. Employment Preparation courses should be taught in sequential order as the content is designed to help the student build their skills and increase their depth of knowledge levels over the grades 9-12.

9261BX0XE/9262BX0XE EMPLOYMENT PREPARATION II: CITIZENSHIP 1A/1B

Credit: 2 units

Prerequisite: PREP I

This course is designed to teach students skills and promote success in the areas of postsecondary education, employment, and independent living. Instructional emphasis will be placed on the application and generalization of skills to post school environments. This course will focus on Employability Skills, Self-Awareness, Self-Determination, Self-Advocacy, Technology, Citizenship, Health and Safety, Career Development and Planning, Personal Management, and includes themes of Social Studies, Citizenship, and Global Citizenship. The Six Employability Skills adopted by NCDPI have been embedded within the competency goals and objectives throughout the course. Employment Preparation courses should be taught in sequential order as the content is designed to help the student build their skills and increase their depth of knowledge levels over the grades 9-12.

9263BX0XE/9264BX0XE EMPLOYMENT PREPARATION III: CITIZENSHIP 2A/2B

Credit: 2 units

Prerequisite: PREP II

This course is designed to teach students skills and promote success in the areas of postsecondary education, employment, and independent living. Instructional emphasis will be placed on the application and generalization of skills to post school environments. This course will focus on Employability Skills, Self-Awareness, Self-Determination, Self-Advocacy, Technology, Employment Applied Math, Health and Safety, Career Development and Planning, Personal Management, and includes mathematical practices applied and integrated in the employment environment and supporting independent living. The Six Employability Skills adopted by NCDPI have been embedded within the competency goals and objectives throughout the course. Employment Preparation courses should be taught in sequential order as the content is designed to help the student build their skills and increase their depth of knowledge levels over the grades 9-12.

9265BX0XE EMPLOYMENT PREPARATION IV: MATH

Credit: 1 unit

Prerequisite: PREP III

Co-requisite: Career Training

This course is designed to teach students skills and promote success in the areas of postsecondary education, employment, and independent living. Instructional emphasis will be placed on the application and generalization of skills to post school environments. This course will focus on Employability Skills, Self-Awareness, Self-Determination, Self-Advocacy, Technology, Employment Applied Math, Health and Safety, Career Development and Planning, Personal Management, and includes mathematical practices applied and integrated in the employment environment and supporting independent living. The Six Employability Skills adopted by NCDPI have been embedded within the competency goals and objectives throughout the course. Employment Preparation courses should be taught in sequential order as the content is designed to help the student build their skills and increase their depth of knowledge levels over the grades 9-12.

9210BX0XE ENGLISH I (9210BX0VPS)

Credit: 1 unit

Prerequisite: None required

Students in Occupational English I explore and examine a variety of communication modes and the importance each plays in daily living and employment settings. They apply reading and writing skills to interpret and express factual, functional information. They use oral language skills to communicate effectively in both formal and informal situations. In English 1 students will:

- expand basic telephone skills for work and home.
- write complete simple and compound sentences.
- take and support positions of self-advocacy.
- read a variety of materials to gain information and perform tasks.
- read basic functional vocabulary terms.

- employ accurate manuscript and cursive letter formation.
- exhibit ethical behavior in the use of computer technology.
- develop effective interviewing skills.

9211BX0XE ENGLISH II (9211BX0VPS)

Credit: 1 unit

Prerequisite: ENG I

Students in Occupational English II analyze and employ effective communication skills in both daily living and employment settings. They use standard rules of convention and syntax to give and request information. They read and comprehend a variety of functional texts. Occupational English II students will:

- give and request verbal directions.
- demonstrate appropriate communication skills when addressing peers.
- write sentences to form paragraphs.
- read and comprehend information found in a variety of printed materials.
- use basic word processing skills for written communication.
- expand self-advocacy skills.

9212BX0XE ENGLISH III (9212BX0VPS)

Credit: 1 unit

Prerequisite: ENG II

Students in Occupational English III read, write, and orally express information required in a variety of daily living and employment settings. They identify main concepts and supporting information from printed material. They examine the speaking skills expected in a variety of settings and demonstrate effective oral communication in each. In addition, students will:

- expand proficiency in basic sentence and paragraph writing as applied to a variety of functional, independent living and employment tasks.
- visually gain information from a variety of graphic materials
- expand reading and writing of functional vocabulary terms.
- expand comprehension of a variety of printed materials.
- demonstrate oral communication skills needed for a work environment.
- write formal and informal letters.

9213BX0XE ENGLISH IV (9213BX0VPS)

Credit: 1 unit

Prerequisite: ENG III

Students in Occupational English IV integrate oral, written, and visual skills to communicate effectively in a variety of daily living and employment situations. They use written communication for explanatory, argumentative, self-advocacy, and social purposes. They employ visual communication skills to locate and research information. Occupational English IV students will:

- expand verbal communication skills.
- write logical and sequential reports.
- expand comprehension of functional vocabulary to include legal, medical, tax, and insurance terms.
- read and comprehend directions and other printed material for daily living and employment tasks.
- complete personal forms and applications.
- use computer technology to enter and edit information on spreadsheets and to communicate on line.
- produce complete personal portfolios.

9220BX0XE INTRO TO MATH I (9220BX0VPS)

Credit: 1 unit

Prerequisite: None

Introduction to Math 1 continues the study of: a) Computation: reading, writing, counting, and the mathematical skills using whole numbers, decimals, fractions, and percents; b) Financial Management: recognizing and identifying basic financial information; c) Time and Measurement; d) Independent Living; and e) Technology. Students will acquire these skills through hands-on approaches and cooperative learning within the classroom and community. Application of these skills is necessary for independent living and successful employment.

28002X0XE NC MATH 1 PREP (Semester prior to NC Math 1) (28002X0VPS)

Credit: 1 elective unit

Prerequisite: Intro to Math I

This course is intended for Occupational Course of Study (OCS) students who will be working with both their face-to-face classroom teacher. The OCS Math I Lab course will provide foundational instruction connected with NC Math 1 Common Core Standards. Students will take the NC Math 1 Lab prior to the semester of NC Math 1 with the End of Course state assessment.

9225BX0XE NC MATH 1 (SPRING) (9225BX0VPS)

Credit: 1 unit

Prerequisite: Intro To Math I and NC Math 1 Prep

This course is intended for Occupational Course of Study (OCS) students who will be working with their face-to-face classroom teacher. The OCS NC Math 1 course teaches Common Core Standards for NC Math 1 and prepares students for the state End of Course assessment.

9222BX0XE FINANCIAL MANAGEMENT (9222BX0VPS)

Credit: 1 unit

Prerequisite: NC Math 1

Financial Management emphasizes the application of skills previously learned. In this course students demonstrate application of the skills in the community and places of employment.

9231BX0XE APPLIED SCIENCE (9231BX0VPS)

Credit: 1 unit

Prerequisite: None required

This course is designed to provide students with the knowledge necessary to practice safety in all areas of life and maintain a healthy lifestyle. Students will also develop an understanding of basic human anatomy and reproduction. In addition, basic science concepts in the area of Life Science, Environmental Science, Physical Science, and Biology related to work and daily living situations will be presented.

9232BX0XE BIOLOGY (9232BX0VPS)

Credit: 1 unit

Prerequisite: Applied Science

This course provides students with the opportunity to acquire above-level skills in the area of safety procedures, health/medical issues, relationships, and human anatomy. Students will also continue to develop basic, functional knowledge of science concepts in the areas of Earth Science, Environmental Science, and Physical Science. Students will have the opportunity to apply the science-based concepts to daily living situations at home and in the workplace.

9251BX0 FOUNDING PRINCIPLES OF THE USA AND NORTH CAROLINA: CIVIC LITERACY

Credit: 1 unit

Grade: 9-12

Prerequisite: World History is the recommended first course of the Social Studies sequence, followed by Civics and Economics. An 85 average or higher is recommended for the Honors section of this course. The honors level requires in-depth reading and research with more rigorous content than standard level.

The Founding Principles of the United States of America and North Carolina: Civic Literacy course will provide students the opportunity to engage in intensive application of the skills, concepts, processes, and knowledge gained in previous social studies courses and prepare them to be college, career, and civic ready. Despite there being a different overall focus for each subsequent course, students will explore the content through the following lenses: inquiry; behavioral sciences; civics and government; economics; geography; and history. As students develop cognitively, these lenses become more focused based on the grade-level content and disciplinary thinking skills.

9344AX0XE ECONOMICS AND PERSONAL FINANCE (VPS)

Credit: 1 unit Prerequisite: None

The Extended Content Standards and Objectives in the Economics and Personal Finance course will provide students the opportunity to engage in intensive application of the skills, concepts, processes, and knowledge gained in previous social studies courses and prepare students to be employment and civic ready.

96102X0CT CAREER TRAINING

Credit: 1 unit

Prerequisite: None

Co-requisite: Preparation course as appropriate

Career Training (9561) – Elective course credit for students who are participating in work-based learning.

Schedule Changes

Students are encouraged to choose courses carefully during the registration period. It is the individual student's responsibility to ensure his/her coursework meets requirements for graduation and college admission.

- Schedule changes will not be made after the first 10 days of each semester.
- Schedule changes are limited because of conflicts in the master schedule, enrollment numbers and graduation/pathway requirements.
- Some course offerings may not be scheduled because of low enrollment. In this case, alternate selections made by the student during registration will be used.
- First priority for schedule changes will be given to seniors who need a required course for graduation.
- Written approval from the administration is required to drop college level courses.
- Students must adhere to individual college and university policies regarding enrollment.

Notes:

APPENDIX A

SCHEDULE CHANGE REQUEST FORM

PLEASE READ ENTIRE FORM BEFORE REQUESTING A CHANGE:

Schedule changes and course adjustments are often necessary when students begin a new semester. Request forms will be handled by your assigned guidance counselor or with your assigned staff advisor. Please express your scheduling concerns below and we will address these as soon as possible to ensure students are assigned appropriately in semester courses.

Please check all of the following that apply:

- ☐ **The student lacks a full schedule of four classes for the semester.**
☐ **The student has already received prior credit in the course.**
☐ **The student has not completed the prerequisite for the course.**
☐ **The student is a senior and needs the course for graduation.**

Schedule changes cannot be approved for the following reasons:

- The student did not get the teacher they wanted.
- The student did not get a certain period for a class.
- The student did not get in the same class with their friends.
- The student was administratively assigned a course due to availability.

Career & College Promise Program: 9th & 10th Grade Checklist*

CCP Program for 9th and 10th Grade Checklist

Directions: The following steps are required to be completed in order to be considered for admission to the CCP Program for 9th and 10th graders. This checklist should be completed in the order listed and should be attached to the application. The application and all supporting documentation from the AIG Department and school should be submitted to Ms. Cierra Griffin or Tiffany Graham. A copy of the application should be kept on file at the school. Once the checklist has been completed by BCC staff, a copy of the checklist should be sent back to the high school.

Item	Person(s) Responsible	Date Completed	Signature

APPENDIX E

STUDENT INFORMATION

Name:		Birthdate:
School:	Grade Level:	Student ID:
Parent/Guardian Name:	Email:	Phone
Date of CDM Request: Circle: Fall Spring Summer		

CREDIT BY DEMONSTRATED MASTERY APPLICATION

Instead of traditional course enrollment and seat-time, I am requesting the opportunity to earn Credit for Demonstrated Mastery (CDM) for the following:

_____ (course name or subject).

STUDENT/FAMILY AGREEMENT

Please review the following regarding the CDM process:

- I understand this assessment will include a multi-phase assessment with Phase 1 and Phase 2.
- Phase 1 will include an examination to establish my mastery of the foundational skills and content this course/subject requires.
 - I must earn a minimum of 94% accuracy on the local exam to continue with the CDM process or a Level IV “superior” scale score on the appropriate state assessment, EOC.
 - I have one attempt at the exam.
 - Prior to the exam, I may review the content standards for the course or subject area that I seeking to demonstrate mastery at www.ncdpi.edu
 - If I earn the appropriate score, I will move onto Phase 2. If not, I will not have the opportunity to earn CDM for this course.
- In Phase 2, I will create an artifact that reflects deep understanding of the content standards, including the ability to apply the skills and knowledge expected at the end of the course.
 - The school may require a presentation, project, or interview as evidence of my abilities.

- The CDM Review Panel will make a recommendation if I can earn CDM. If I am successful, I will earn a “Pass” on my transcript toward graduation. No grade or quality points will be granted and the “Pass” will not be included in my GPA.
- I understand that I will meet with a CDM Panel member (s) to discuss the process and long-term implications.
- My parents and I will be allowed to file for grievance if we do not agree with the decision of the team.

I understand all of the above and agree to abide by the process defined above.

APPENDIX F

Application for Three Year Graduation Pathway

Name: _____ Student ID Number: _____

Address: _____

City: _____

Zip Code: _____

Phone Number: _____

Parent/Guardian Name: _____

School Name: _____

I have read the Three-Year Graduation Pathway Guidance and acknowledge that I am aware of discontinued access to high school services and programming, extracurricular activities, interscholastic athletics, school nutrition, counseling services, and programs with the community college where tuitions and fees have been paid as a high school student if I am approved and continue with this pathway.
