Vocation: Assistant Principal-Castleberry ISD; Castleberry High School

Community/Civic Involvement in addition to CISD: None at this time

Why you chose to run for school board: My decision to run for school board stems from a combination of factors consisting of my unique perspective and experiences. As an educator, I have a unique insight into the world of education. I feel I can bring valuable expertise and experience to the table, whether in education, administration, policy-making, finance, or other relevant areas, I think I can both benefit and support the school district through my service. I also believe we need more leaders, and more voices who have a background in education to be a part of the conversation when advocating for education reform and shaping the school systems that our children will be a part of. As a Navy veteran, I feel a sense of civic duty to give back to my community by volunteering my time and skills for the betterment of local education. Lastly, serving on the school board will allow me to engage with the community and work collaboratively with parents, teachers, administrators, and other stakeholders to shape the direction of education in Cleburne ISD.
