## SCHOOL COUNSELOR

## ABOUT ME

I was born in Managua, Nicaragua and grew up in South Florida. After earning my bachelor's degree, I moved to California to attend San Jose State University and work as a graduate assistant in their Athletics Department. This is where I met my husband. We've been married for 20 years and have two children. I have since dedicated 22 years to San Jose Unified, witnessing the evolution of my counseling role with the changing times.

Beyond my passion for counseling, I'm an avid traveler who thrives on new experiences, seldom treading the same path twice. The exception, of course, is Lake Tahoe, a place that holds a special spot in our hearts.
