Why you chose to run for school board: Here is what I put out on FB and also attached in a PDF

Hello my fellow Cleburnites –

I am running for the CISD Board of Trustees Place #4 this May and while running unopposed I want to give some insight into who I am and why I am running. My wife and I moved to Cleburne shortly after getting married in 2000 and lived here until 2003. Due to some career changes, we moved away but always planned on returning when we had kids so they could attend CISD schools. We moved back in 2013, all three of our kids attended Gerard and are now at CHS and WMS. I share that to say we chose Cleburne and CISD to be our home and we’ve never regretted it. Over the last decade God has blessed us with many relationships throughout the community and we have served in various capacities with many of you. For the last three years I have served on the Board of Cleburne Education Foundation and had the privilege of assisting our teachers and students as the chairman of the grants committee. Walking through the halls of our schools and seeing the love and excitement our teachers have for their students is a motivator in this decision. The second motivator is our students. I believe strongly that each student is unique, and we must find a way to connect with that uniqueness for them to get the most out of their CISD education and therein we find the “Excellence” that “Happens Here”.

My values are based in my faith: integrity and transparency, respect for teachers and others, humility and kindness, serving others and sharing in their burdens. These things are who Cleburne is to me, and I am committed to do what I can to keep them important. I am excited to serve the district and ask for your support and prayers that I might serve well. Thanks - Eric
