9. PRICING:

1. All bid prices must include transportation and delivery charges to the location specified during ordering (with the exclusion of fresh produce). Fuel surcharges and other similar charges are not permitted.
2. The awarded bidder shall provide each item on this proposal to the CJLP Group schools at the same price. The awarded bidder MAY NOT submit multiple discount levels for the same product.
3. Bid prices must be stated in units of quantity as specified on the bid form.
4. Items must be priced according to the pack size listed on the Item Specification List.
5. Fresh Produce pricing will consist of True Cost plus a fixed delivery fee per case. True cost includes the actual invoice cost paid by the contractor less any promotional allowances and bill backs, but does not include any cash discount for prompt payment. The fixed fee shall be bid in dollars per case (percentage fees will not be accepted). The fixed fee per case must include all costs necessary for storage, handling, and delivery. No additional costs will be paid. True cost for produce must be provided to the CJLP Group by Friday of each week for the upcoming week orders. It is acceptable to provide these prices in weekly updates to the online order guide. This fee shall remain fixed for the initial year of the contract period. CJLP Group reserves the right to audit contractor's invoices to verify true cost.

10. PRICE ADJUSTMENTS: All bid pricing shall remain effective for the duration of the awarded contract. Pricing for non-food items shall be fixed for the contract period. Price adjustments for food items (excluding produce) may be allowed based on documented changes in the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average. Price adjustments will be evaluated on an item-by-item basis. Cumulative contract value change will not be considered. Upward price adjustments will only be considered at the written request of the awarded vendor. The awarded vendor must submit a written request thirty (30) days prior to the period for any price adjustment. The request shall include the specific item(s) along with a current usage report, reason for request and change amount. Price adjustment requests will be evaluated based on the most current CPI-U available at the time of the request. The following CPI-U Database will be used for the contract period:

- Consumer Price Index for All Urban Consumers (CPI-U); Not Seasonally Adjusted; Area – U.S. City Average; Item: Food and Beverages
- Base Price – April 2024

The following formula will be used to calculate the maximum allowed price adjustment:

$$\text{CPI for the current period} - \text{CPI for the Base Period} = \text{Index Point Change}$$

$$\text{Index Point Change} \div \text{Base Period CPI} = \text{Index}$$

$$\text{Index} \times 100 = \text{Percent Change (Maximum allowed price change)}$$

If the price adjustment request is within the maximum allowed price change calculated with the database and formula above, the request will be granted by CJLP Group. If the request is above the allowed adjustment, CJLP Group may offer to adjust the price according to the maximum allowed by the above formula. Any item that receives an adjustment will be monitored at each of the following price periods for downward changes in the CPI-U. If the index lowers, CJLP Group will send notification to the vendor of the change in the CPI-U index and the price will be lowered based on the formula above but not lower than the original bid price.

<u>Price Period</u>	<u>Change Request Due Date</u>	<u>Effective Date</u>
July 1 – September 30	August 31	October 1
October 1 – December 31	December 1	January 1
January 1 – March 31	March 1	April 1
April 1 – June 30	May 31	July 1

If no price adjustment requests are received, the current price will remain in effect.

11. **PROCESSING OF USDA DONATED FOOD TO END PRODUCTS:** The awarded bidder agrees to comply with USDA National Policy Memorandum FD-119 dated February 13, 2012. Including but not limited to:
1. The bidder must be approved by the appropriate state agency to participate in the USDA's Net Off Invoice/Value Pass Thru Program.
 2. Only end products with approved end product data schedules, and that meet substitution and grading requirements in 7 CFR 250.30 may be provided.
 3. The district must receive credit for the value of the donated foods contained in the end products through a discount from the gross case price. The discount must be noted on the invoice for each USDA processed end product. Crediting for USDA donated foods must be performed in accordance with the applicable requirements in §250.36.
 4. The bidder must collaborate with the processor to ensure the CJLP Group is an eligible participant of end products and to ascertain the quantity of end products, or the value of donated food, for which the CJLP Group is eligible.
 5. The bidder must provide notification to the processor of end product sales so that the appropriate inventory draw-down may occur. Further, the successful bidder will support the diversion of multiple donated foods to a single end product (e.g. the diversion of cheese, flour, and tomatoes to pizza).
12. **PRODUCT PROTECTION GUARANTEES:** The CJLP Group will have automatic product protection recourse against suppliers for products that are misrepresented. According to federal regulations, the supplier whose name and address appear on the package is the responsible party. Bidders are expected to take immediate action to correct any situation in which product integrity is violated.
13. **DELIVERY TIME:** Acceptable delivery times will be between 6:30 a.m. and 2:30 p.m. Deliveries are to be made to individual schools on a weekly basis. No minimum dollar or case amounts shall

be required for the weekly delivery. Additionally, the CJLP Group may occasionally request additional deliveries or special arrangements from time to time and awarded bidder shall respond with no extra charge.

Specific delivery dates and times shall be negotiated with each School Nutrition Director.

14. **DELIVERY PROCEDURES:** Drivers and helpers shall deliver merchandise into designated storage areas. Drivers or helpers shall not be required to store merchandise on shelves. Drivers may request the authorized school receiver to verify the accuracy of quantities delivered. Shortages, damages and substitutions shall be noted by the driver to the receiver and noted on the delivery ticket. This signature will only indicate that the order has been received and will not indicate that the invoice has been reconciled to the actual items delivered. All products shall be maintained at their proper temperature throughout their staging, loading, transport and delivery. All of the vendor's facilities and delivery vehicles must conform to local, state and federal rules and regulations regarding sanitation and are subject to inspection by the CJLP Group. Each driver is to sign in at each school cafeteria upon entering the building. Invoices will be left at each school.

It is understood that deliveries are not to be made when school is not in session with exception of the opening of school. Calendars will be provided (upon request) to the successful bidders to designate off-school days. When school is cancelled because of inclement weather or any other emergency and the delivery truck is already in route, upon arrival the company driver must contact the School Nutrition Director by telephone for instructions. The school system reserves the right to accept the delivery, authorize another acceptance signature, or to return the delivery. If the truck has not left the distributor's warehouse, the delivery will be made on the next day that schools are re-opened unless notified otherwise.

An emergency delivery communication plan is to be completed and provided for each County of the CJLP Group upon award.

Returns shall be restocked at no charge to the CJLP Group.

15. **DELIVERY FAILURE:** If the vendor fails to deliver an order, the vendor shall take corrective action by either making a special delivery to the school or by arranging for delivery by another vendor. The vendor shall incur any extra cost difference between the price of the originally ordered items and the price of the alternate vendor. This delivery will be made within 48 hours of the original delivery day. The vendor will provide any overtime pay incurred by any of the school district employees if a late delivery occurs.

NOTE: The awarded bidder is responsible for ensuring all the delivery personnel have the correct item numbers and prices loaded into their inventory system upon making delivery to the facility. Items delivered that were not ordered, loaded incorrectly or labeled incorrectly shall be returned without cost to the CJLP Group.

16. **NUTRITIONAL INFORMATION:** Distributor will provide Product Specification Sheets, CN Label Sheets, Nutrient Data Sheets, and Country of Origin documentation on products listed on the order guide, upon request from the Food Service Director. Nutritional Information Sheets must be provided as manufacturer updates occur and when new products are added to the order guide.

17. PRODUCT SPECIFICATIONS:

1. Trans-Fat Free – Food products and ingredients used to prepare school meals must contain zero trans-fat (less than 0.5 grams) per serving.
2. No items shall be bid that contain peanuts/nuts. Any item bid that contains the statement “may be processed in a facility that contains nuts” or like statement shall be clearly identified on the bid document. The Group reserves the right to reject any item with this statement. These items will be returned at no cost to the Group.
3. Quantities are merely an approximation of the anticipated usage for the 2024-2025 school year, and should not be considered a firm order. The receipt of USDA commodities and changes in student preferences affect purchase quantities.

18. Buy American Provision (See Attachment E)

The bidder will abide by the Buy American Provision added to the National School Lunch Act (NSLA) by Section 104(d) of the William F. Gooding Child Nutrition Reauthorization Act of 1998 (Public Law 105-336). Section 12(n) to the NSLA (42 USC 1760(n)). This provision requires all school food authorities (SFAs) to purchase, to the maximum extent practicable, domestic commodity or product. Schools participating in the federal school meal programs are required to purchase domestic commodities and products for school meals to the maximum extent practicable (7 CFR Part 210.21(d)). Federal regulations require that all foods purchased for the Child Nutrition Program be of domestic origin to the maximum extent practicable.

Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US. “Substantial” means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States.

The bidder will provide documentation to the CJLP Group prior to shipment for each product. **Documentation must include item number, item description, country of origin, and exception rationale (if not a domestic product).** Allowable exceptions to the Buy American Provision are limited to: 1) the product is not produced or manufactured in the United States in sufficient, reasonable and available quantities of a satisfactory quality, such as bananas and pineapple; and 2) competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product. Any substitution of a non-domestic product for a domestic product (which was originally a part of the solicitation), must be approved, in writing, by the Food Service Director, prior to the delivery of the product to the school.

If the respondent feels the cost of the domestic product is significantly higher, they must list the price of the domestic product as well as the non-domestic product price on the bid worksheet along with the Country of Origin. The decision to purchase the domestic or non-domestic product will rest with each individual Child Nutrition Director of the Group.

Any non-domestic product delivered to the School, without the prior, written approval of the Food Service Director, will be rejected.

19. **PAYMENTS:** Each school district and/or school shall be responsible for making payment to the awarded bidder. Normally, school districts pay bills only after approval from the Board of Education which meets monthly.
20. **AUDITS:**
- a. The CJLP Group reserves the right to make audits of awarded bidder's costs records as follows:
 - i. Prior to award of contract
 - ii. Prior to approval of request for price change and following any allowed price change.
 - iii. At time of one year contract extension if awarded.
 - iv. An unscheduled audit one time during each one year bid period upon appropriate notice given to awarded bidder.
 - b. The awarded bidder shall be given notice of the intent of the CJLP Group to conduct an audit a minimum of two weeks in advance.
 - c. The audit may be conducted electronically via the internet or at a site mutually agreeable to the CJLP Group and the awarded bidder.
 - d. The awarded bidder shall provide acceptable documentation as follows:
 - i. Manufacturer's invoices
 - ii. Freight bills
 - iii. Perpetual inventory records
 - iv. Market bulletins (used for distributor manufactured items and inner company billing items when price change occurs).
21. **KENTUCKY BROKER SERVICE:** Awarded bidder is encouraged to utilize Kentucky brokers whenever possible.
22. **PRODUCT EVALUATION:** Samples requested must be furnished free of expense to the CJLP Group for evaluation. If not destroyed or consumed in testing or evaluating, or required in connection with the award, furnished samples will, upon request, be returned at the bidder's expense. Right is reserved to mutilate or destroy any samples if considered necessary for testing purposes.
23. It is the policy of the CJLP group that employees do not purchase any items for themselves at school, therefore, we expect your company to comply with this policy.
24. In the event that the vendor should, by mistake, deliver and invoice items at the wrong price, the school district shall notify said vendor within ten (10) working days of the invoice. The vendor will then have fifteen (15) days to repair the invoice. If the repair of the invoice is not done within said days, the school district may elect to cancel the contract.

 SUBJECT: Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program

TO: Regional Directors
 Special Nutrition Programs
 All Regions
 State Directors
 Child Nutrition Programs
 All States

The Food and Nutrition Service (FNS) has continued to receive a number of inquiries relating to the details and enforcement of the Buy American provision in 7 CFR 210.21(d). This memorandum replaces SP 24-2016, *Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program*, dated February 03, 2016. This guidance provides several updates, including suggested contract language to be utilized in solicitations, and serves to reinforce the importance of the Buy American provision to our economy and its positive effects on small and local businesses.

Buy American provision requirements. Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336) added a provision, Section 12(n) to the National School Lunch Act (NSLA) (42 USC 1760(n)), requiring school food authorities (SFAs) to purchase, to the maximum extent practicable, domestic commodities or products. This Buy American provision supports the mission of the Child Nutrition Programs, which is to serve children nutritious meals and support American agriculture.

The Buy American provision applies to SFAs located in the 48 contiguous United States and is one of the procurement standards these SFAs must comply with when purchasing commercial food products served in the school meals programs. Although Alaska, Hawaii, and the U.S. territories are exempt from the Buy American provision, SFAs in Hawaii are required to purchase food products produced in Hawaii in sufficient quantities, as determined by the SFA, to meet school meal program needs per 7 CFR 210.21(d)(3). Likewise, SFAs in Puerto Rico are required to purchase food products produced in Puerto Rico in sufficient quantities, under 42 USC 1760(n)(4).

Section 12(n) of the NSLA defines “domestic commodity or product” as an agricultural commodity that is produced in the U.S. and a food product that is processed in the U.S. substantially using agricultural commodities produced in the U.S. Report language accompanying the legislation noted that “substantially means over 51% from American products.” Therefore, over 51% of the final processed product (by weight or volume) must consist of agricultural commodities that were grown domestically. Thus, for foods that are unprocessed, agricultural commodities must be domestic, and for foods that are processed, they

Regional and State Directors

Page 2

must be processed domestically using domestic agricultural food components that are comprised of over 51% domestically grown items, by weight or volume as determined by the SFA.

For products procured by SFAs for use in the Child Nutrition Programs using nonprofit food service account funds, the product's food component is considered the agricultural commodity. FNS defines food component as one of the food groups which comprises reimbursable meals. The food components are: meats/meat alternates, grains, vegetables, fruits, and fluid milk. Please refer to 7 CFR 210.2 for full definitions. Any product processed by a winning vendor must contain over 51% of the product's food component, by weight or volume, from U.S. origin. This definition of domestic product serves both the needs of schools and American agriculture. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are considered domestic products under this provision as these products are from the territories of the U.S.

Implementing the Buy American provision. SFAs are reminded that for all procurement transactions for food when funds are used from the nonprofit food service account, whether directly by an SFA or on its behalf, procurement transactions must comply with the Buy American provision. Implementation of the Buy American provision should be done by: including Buy American in documented procurement procedures, State agency prototypes documents, and all procurement solicitations and contracts; including domestic requirements in bid specifications; contract monitoring; and verifying cost and availability of domestic and non-domestic foods using data in the USDA Agricultural Marketing Service's (AMS) weekly market report at <https://marketnews.usda.gov/mnp/fv-report-config-step1?type=termPrice>.

The Buy American provision supports local and small businesses. Using food products from local sources supports local farmers and provides healthy choices for children in the school meal programs while supporting the local economy. Requiring compliance with the Buy American provision also supports SFAs working with local, or small, minority, and women-owned businesses as required by Federal regulations (see 2 CFR 200.321). FNS also encourages purchasing food products from local and regional sources when expanding farm to school efforts.

USDA Foods comply with Buy American requirements. FNS encourages SFAs to maximize their use of USDA Foods, which comply with Buy American requirements. USDA Foods are domestic, and purchasing from 100% domestic origin sources is a longstanding USDA policy based on Section 32 of the Agriculture Act of 1935 (P.L. 74-320 as amended; 7 U.S. Code 612c). However, processed end products that contain USDA Foods need to meet the 51% domestic requirement, by weight or volume.

Regional and State Directors

Page 3

Limited exceptions to the Buy American provision. There are limited exceptions to the Buy American provision which allow for the purchase of foods not meeting the “domestic” standard as described above (i.e., “non-domestic”) in circumstances when use of domestic foods is truly not practicable. These exceptions, as determined by the SFA, are:

- The product is not produced or manufactured in the U.S. in sufficient and reasonably available quantities of a satisfactory quality; or
- Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.

It should be noted that FNS has not defined a dollar amount or percentage triggering an exception requiring consideration of alternatives. Before utilizing an exception, alternatives to purchasing non-domestic food products should be considered. For example, SFAs should ask:

- Are there other domestic sources for this product?
- Is there a domestic product that could be easily substituted, if the non-domestic product is less expensive (e.g. substitute domestic pears for non-domestic apples)?
- Am I soliciting bids for this product at the best time of year? If I contracted earlier or later in the season, would prices and/or availability change?
- Am I using third-party verification, such as through USDA AMS, to determine the cost and availability of domestic and nondomestic foods?

If an SFA is using one of the above exceptions, there is no requirement to request a waiver from the State agency or FNS in order to purchase a non-domestic product. SFAs must, however, keep documentation justifying their use of exception(s). FNS has provided sample language of such, to be used as a reference in solicitation and contract documents; these are found in Question 5 in the Questions and Answers document below. Monitoring of contractors by the SFA and oversight by the State agency are critical functions in enforcing the Buy American provision, including review of exceptions, as further outlined below.

Compliance with, and monitoring of, the Buy American provision by SFAs. To ensure compliance with the Buy American provision the SFA must ensure solicitation and contract language includes the requirement for domestic agricultural commodities and products. The SFA must also include the Buy American requirement in its documented procurement procedures and retain records documenting any exceptions. SFAs should ask the supplier, i.e., manufacturer or distributor, for specific information about the percentage of U.S. content in any processed end product. In order for SFAs to be able to document the domestic content, they should include in their procurement process a requirement for certifying the domestic percentage of the agricultural food component of commodities and products.

Further, solicitation and contract language must be monitored by the SFA to determine contractor compliance as required by 2 CFR 200.318(b), in order to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Monitoring is also accomplished by reviewing products and delivery invoices

Regional and State Directors

Page 4

or receipts to ensure the domestic food that was solicited and awarded is the food that is received. SFAs also need to conduct a periodic review of storage facilities, freezers, refrigerators, dry storage, and warehouses to ensure the products received are the ones solicited, and awarded, and comply with the Buy American provision.

Monitoring of the Buy American provision by State agencies. State agencies conducting procurement reviews in conjunction with, or as a separate review from, the administrative review process must ensure SFA compliance with the Buy American provision. During a procurement review, State agencies should: (1) determine if SFAs are purchasing domestic commodities as defined in 7 CFR 210.21(d); (2) check that solicitations and contracts contain the Buy American certification language recommended in Questions 6 and 7 below; and (3) review a sample of supplier invoices or receipts to determine whether the solicited-for domestic foods were provided by the awarded contractor. If the SFA is non-compliant with the Buy American provision, the State agency must issue a finding and require corrective action which may include:

- Requiring contract amendments to include language to supply domestic foods, or a new solicitation if the contract amendment is determined, by the contracting parties or State agency, to be a material change;
- Attending a procurement training to increase compliance with procurement standards, including the Buy American provision; and
- Fiscal action for repeat or egregious findings, on a case-by-case basis with approval by the appropriate FNS Regional Office.

During an on-site administrative review, State agencies should look at the labels on a variety of food products in SFA storage facilities and if the State agency identifies non-domestic foods, the State agency must request documentation justifying the limited exception(s) outlined above. If such is not provided, the State agency must issue a finding and require corrective action, which may include:

- Requiring review of food deliveries for contractor compliance;
- Monitoring to ensure the correct domestic food components contracted for are delivered;
- Prior to accepting foods, ensuring that an alternative domestic food component, or an exception to purchase non-domestic foods, has been approved for delivery; and
- Fiscal action for repeat or egregious findings, on a case-by-case basis with approval by the appropriate FNS Regional Office.

Both the administrative review and procurement review teams should work together and communicate findings in order to provide comprehensive monitoring of the Buy American requirement.

Regional and State Directors

State agencies are reminded to distribute this memorandum to SFAs immediately. SFAs should direct any questions concerning this guidance to their State agency. State agencies with questions should contact the appropriate FNS Regional Office.

Questions and Answers for the Buy American Provision

1) How would an SFA determine that an item is a “domestic commodity or product”?

Answer: To determine if a food item meets the Buy American provision, the SFA would need to ensure that the solicited-for domestic foods were included in the vendor response, and provided by the awarded contractor in the foods delivered to the SFA. Section 12(n) of the NSLA defines “domestic commodity or product” as an agricultural commodity produced in the U.S. and a food product processed in the U.S. substantially using agricultural commodities that are produced in the U.S. Reports accompanying the legislation noted that “substantially means over 51% from American products.”

For products procured by SFAs for use in the Child Nutrition Programs, the food component of the product is the agricultural commodity. FNS defines food component as one of the food groups which comprise reimbursable meals. The food components are: meats/meat alternates, grains, vegetables, fruits, and fluid milk. Please refer to 7 CFR 210.2 and 210.10 for full definitions and use of the terms, respectively. Any product processed by a responsive vendor must contain over 51% of the food component, by weight or volume, from U.S. origin.

When considering juice for example, in order for the product to be considered “domestic” in accordance with the Buy American provision, the juice must contain over 51% of the juice or juice concentrate, by volume, from fruits or vegetables grown in the U.S. FNS does not consider water – whether tap or bottled – to be a domestically grown agricultural commodity for purposes of this provision. Likewise, packaging and labor are not agricultural commodities. For products procured by SFAs to be served in the Child Nutrition Programs, the fruit/vegetable component of the product, by volume, is the agricultural commodity. For fruit/vegetable juices, in order to be considered responsive, the juice provided by a vendor must contain over 51% of the fruit/vegetable component of the juice, by volume, from U.S. origin.

2) Does the Buy American provision apply to entities that purchase on behalf of an SFA, such as a purchasing cooperative or a food service management company?

Answer: Yes. Any entity that purchases food or food products on behalf of the SFA must follow the same Buy American provisions and exceptions that the SFA is required to follow.

3) Are all agricultural commodity or food products purchased using the nonprofit food service account subject to the Buy American provision?

Answer: Yes. SFAs must ensure that all agricultural commodity or food products procured using funds from the nonprofit school food service account comply with the Buy American provision. Pursuant to Child Nutrition Program regulations, all Federal funds, all money received from children as payment for program meals, all proceeds from the sale of competitive foods, and all other income generated by the school food service must accrue to the nonprofit food service account. As a consequence, the entire nonprofit school food service account becomes subject to Federal procurement standards. Therefore, all agricultural commodity or food product purchases made from the nonprofit school food service account are subject to the Buy American provision, subject to the limited exceptions noted in the memorandum above.

4) What can an SFA do to comply with the requirements of the Buy American provision?

Answer: To ensure compliance with the Buy American provision the SFA must ensure solicitations and contracts include the requirement for domestic agricultural commodities and products, include this requirement in its documented procurement procedures, and retain records documenting any exceptions.

Examples of specifications that SFAs may use in solicitations and contracts to comply with the Buy American provision include:

- Utilizing the Buy American definitions in 7 CFR 210.21(d) in all food product specifications, invitations for bids (IFBs), and requests for proposals (RFPs) for food products, contracts, purchase orders, and other procurement documents issued;
- Require a certification of domestic origin for products which do not have country of origin labels; and
- Including the following language: “The District/State agency/Territory participates in the National School Lunch Program and School Breakfast Program and is required to use the nonprofit food service funds, to the maximum extent practicable, to buy domestic commodities or products for Program meals. A ‘domestic commodity or product’ is defined as one that is either produced in the U.S. or is processed in the U.S. substantially using agricultural commodities that are produced in the U.S. as provided in 7 CFR 210.21(d).”

Additionally, SFAs are required by 2 CFR 200.318(b) to monitor contractor performance to ensure compliance with all contractual requirements. This includes compliance with the Buy American provision. SFAs can also require their suppliers to provide certification of domestic origin on food products delivered and on invoices submitted as discussed in more detail in Questions 6 and 7, below.

For example, Program operators may require vendors to provide a certification of domestic origin for all food products listed in all procurement documentation, from a bid or proposal to receipts and invoices. Program operators may deem a bid or response unresponsive and ineligible for contract award for noncompliance with the terms and conditions of contract award, if such certifications are solicited for, but not included. Further, the program operator may establish penalties, including contract termination, if vendors fail to comply with the Buy American provision and no documentation of any exceptions exists.

5) How can SFAs comply with the requirement to retain records, which should include documentation of exceptions in adhering to the Buy American provision?

Answer: Below is sample language that SFAs should use in solicitations and contracts to comply with the requirement to retain records documenting any exceptions to the Buy American provision:

- I. Exceptions to the Buy American provision are very limited; however, an alternative or exception may be approved upon request. To be considered for an alternative or exception, the request must be submitted in writing to a designated official, a minimum of ___day (s) in advance of delivery. The request must include the:
 - (1) Alternative substitute(s) that are domestic and meet the required specifications:
 - (a) Price of the domestic food alternative substitute(s); and
 - (b) Availability of the domestic alternative substitute(s) in relation to the quantity ordered.
 - (2) Reason for exception: limited/lack of availability or price (include price):
 - (a) Price of the domestic food product; and
 - (b) Price of the non-domestic product that meets the required specification of the domestic product.

SFAs may document exceptions by maintaining records of communications between them and their food supplier; this may include emails, documentation of telephone communications, etc. The documentation must be maintained for review by the State agency during procurement reviews of local agency procurement practices.

One resource SFAs and State agencies may use in order to document exceptions is the market news reports available from AMS. AMS provides free, unbiased price and sales information on farm commodities at: <https://marketnews.usda.gov/mnp/fv-report-config-step1?type=termPrice>. Using this website, SFAs and State agencies can find third-party verification of cost and availability of domestic and nondomestic foods. Further, SFAs may use the information to communicate alternatives with food suppliers and document purchase decisions.

6) What is sample language contractors can use to document their compliance with the Buy American provision?

Answer: Below is sample language contractors may use to comply with the Buy American provision; however, language should be tailored to the needs of the contracting parties.

Sample Language:

“We certify that ___(insert product name)___ was processed in the U.S. and contains over 51% of its agricultural food component, by weight or volume, from the U.S.,” with space for the supplier to fill in the name of the product and its specific percentage of the domestic agricultural food component contained therein.

7) How should an SFA document the domestic commodity food components for a processed end product?

Answer: SFAs should ask the supplier, i.e., manufacturer or distributor, for specific information about the percentage of U.S. content in the processed end product. In order for SFAs to be able to document the domestic content, they should include in their bidding process a requirement for certification such as: “We require that suppliers certify the food product was processed in the U.S. and certify the percentage of U.S. content, by weight or volume, in the food component of processed food products supplied to us.”

SFAs may also include the following statement in the bidding process: “We require bidders to certify that ___(insert product name)___ was processed in the U.S. and contains over ___(insert % of weight or volume) of its agricultural food component from the U.S.,” with space for the supplier to fill in the name of the product and its percentage of the domestic agricultural food component (by weight or volume) contained therein.

State agencies should also include such language in any prototype solicitation documents and contracts provided to the SFAs.

8) Can a product made from a U.S. agricultural product but manufactured in another country be purchased from the nonprofit school food service account absent a limited exception?

Answer: No. Section 12(n) of the National School Lunch Act defines “domestic commodity or product” as one that is produced and *processed* in the U.S. substantially using agricultural commodities that are produced in the U.S.” This means that the product must be processed entirely in the U.S. and must substantially use domestic agricultural commodities. A large number of items received by schools state on the label that they are “packed” in the U.S. Non-domestic foods packed in the U.S. or non-domestic foods in packaging produced in the U.S. do not meet the Buy American requirements.

9) Can FNS or a State agency provide a list of foods that are not available domestically and therefore not subject to the Buy American provision?

Answer: No. Neither FNS nor a State agency may make the determination that a domestic commodity or product is not available. Although the Federal Acquisition Regulations (FAR) contain such a list, this applies to procurement by the Federal government only. Each SFA should determine on an individual basis, whether domestic alternatives exist first, and if not, whether an exception is warranted. Exceptions are warranted only when (1) the food product is not produced or manufactured in the U.S. in sufficient and reasonably available quantities of a satisfactory quality; or (2) competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product. Again, there is not a specific amount or percentage that is considered “significantly higher” and it is the SFA’s responsibility to determine the threshold. Records and documentation must be retained justifying any exception as outlined above. SFAs can maintain documentation of exceptions for domestic foods that are prohibitively costly or not available in sufficient quantities and present this during reviews by the State agency.
