# West Middle School Implementation Manual

It is the goal of West Middle School to support students in achieving academic success, positive social growth and emotional well-being. In an effort to meet this goal, West Middle School has adopted a comprehensive, integrated, three-tiered (CI3T) model of prevention (Lane, Oakes, & Menzies, 2010). This CI3T model is designed to address our students' academic, behavioral, and social needs using a continuum of supports, including a proactive approach for addressing students' needs in all three areas. We have established systematic screening practices and a continuum of supports, ranging from universal, broad-based strategies to targeted and individualized interventions. The three-tiered model provides for: primary prevention (Tier 1 supports for all), secondary prevention (Tier 2 supports for some), and tertiary interventions and supports (Tier 3 supports for a few). The goal is to create a safe, positive learning environment including the accurate detection of students who need additional support beyond primary prevention efforts and then providing these students with additional secondary and tertiary supports that are also evidenced-based.

This manual is a tool to help describe and explain the CI3T model of prevention that our school team designed based upon: (a) our school's specific needs and goals, and (b) feedback given to our team by our faculty and staff members.

## **Lawrence Public Schools Mission Statement**

Lawrence USD 497 is a learning community committed to ensuring educational equity and excellence so that students of all races and backgrounds achieve at high levels and graduate prepared for success in college, careers and life in a diverse and rapidly changing world.

## **West Middle School Mission Statement**

West Middle School is dedicated to providing a stimulating, safe and developmentally appropriate environment where all students may build self-reliance, enhance academic skills and strengthen a sense of responsibility to self and to community as foundations for their future success.

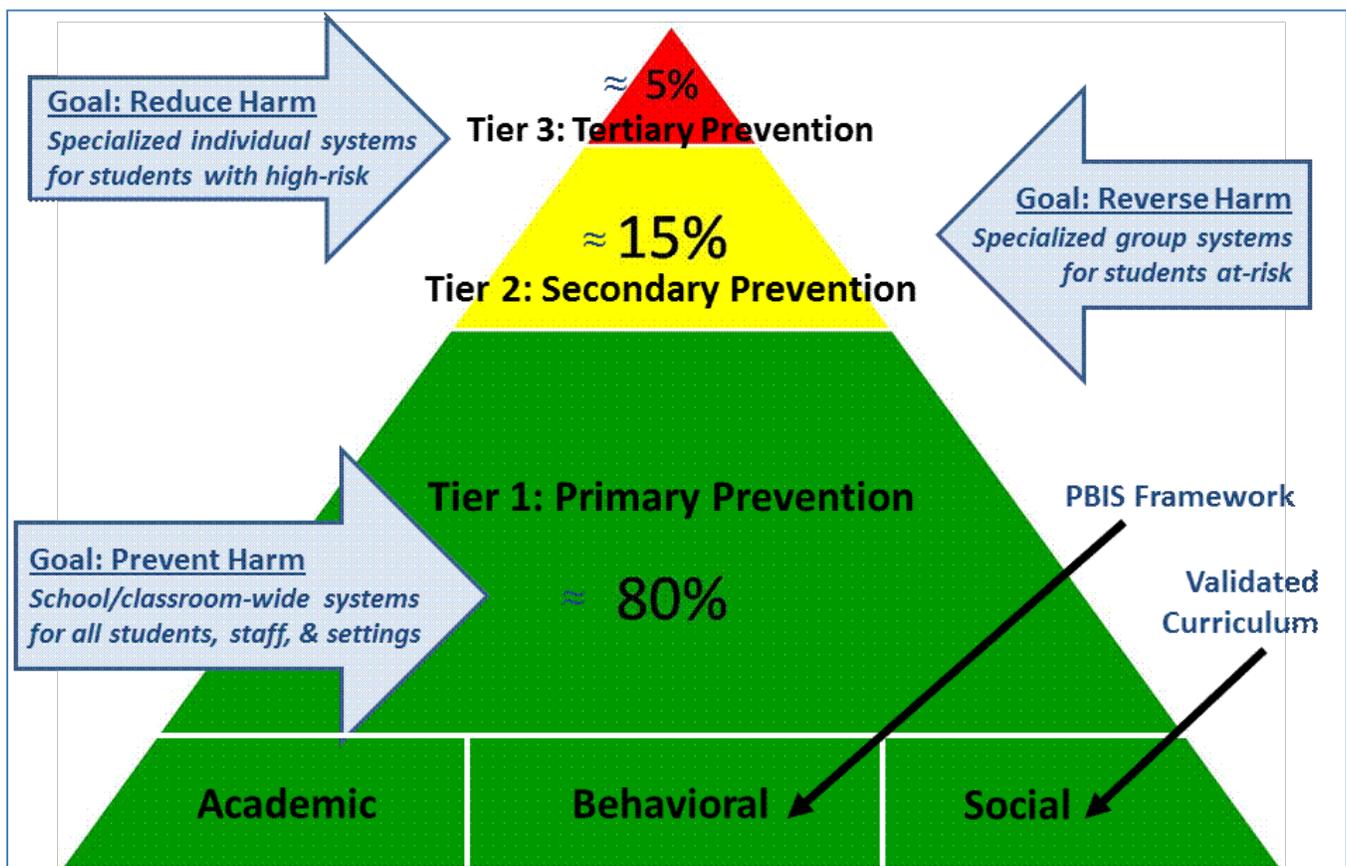

## **West Middle School Statement of Purpose**

The purpose of the WAR<sup>3</sup>HAWKS model is to:

- Create a school-wide framework in which all teachers, staff, parents, and students are clear about academic, social, and behavioral expectations for all students to be successful.
- Provide a consistent and responsive system using current data to inform and drive decisions related to student performance and intervention.
- Cultivate a positive school climate.

# Overview of the Comprehensive, Integrated, Three-Tiered Model of Prevention (MTSS: CI3T)

West Middle School has developed a CI3T plan for all students attending grades 6 - 8. This plan addresses three key components: academics, behavior, and social skills. This plan has both a proactive and reactive behavioral component. West Middle School plan was developed in response to information derived from school-wide surveys and academic assessments to determine teachers' expectations and areas of need at West Middle School.

CI3T Model of Prevention (Lane, Kalberg, & Menzies, 2009)

### Three-Tiered Models of Prevention

There are three-tiered models of prevention used in schools today including response-to-intervention (RTI; Gresham, 2002; Sugai, Horner, & Gresham, 2002), positive behavior interventions and supports (PBIS; Lewis & Sugai, 1999; Sugai & Horner, 2002), as well as other tiered systems. While these models aim to identify and serve students proactively with increasingly intensive levels of support, the models differ in their area of focus (RTI mainly on academic skills and PBIS mainly on behavior). Some educators advocate for the use of a comprehensive, integrated, three-tiered (CI3T) model of prevention that combines the areas of academic, behavioral, and social skills to meet students' multiple needs given that problems in these three areas are likely to manifest concurrently (Lane & Wehby, 2002; Lane, Kalberg, & Menzies, 2009; Lane, Oakes, Menzies, & Harris, 2013; Walker et al., 2004). A comprehensive, integrated, three-tiered model can address each area through screening procedures to identify students who have multiple needs.

Implementing any new system to improve student outcomes requires an initial investment of time and energy. However, multi-tiered models capitalize on effective instructional and classroom management practices that teachers already use (Lane, Menzies, Ennis, & Bezdek, 2013). One strength of CI3T models is that they involve contribution from all faculty and staff to establish common expectations and procedures in academic, behavioral, and social domains. Then, these changes occur at a systems level. When a school's staff members work collaboratively to identify and implement agreed upon strategies and practices, they create an opportunity to establish a positive school culture. Moreover, in a CI3T model, school-site faculty and staff *all* have a voice: they individually and collectively contribute to decisions about behavioral expectations taught to all students to support positive behavior and facilitate participation in instruction. In addition – and equally important – faculty and staff determine a shared system for recognizing and reinforcing students' efforts to reach those expectations. This is a major departure from previous models in which each teacher sets his or her own rules and has sole individual responsibilities for their own students. It is also a shift away from reactive approaches that involved focusing mainly on students' misbehavior toward an instructional approach to behavior that involves actively looking for and recognizing students' positive student behaviors using behavior specific praise. Finally, expecting the entire school staff (e.g., office and custodial personnel, instructional aides, bus drivers) to support school-wide behavioral expectations as

well as the school-wide social skills empowers them to participate proactively and positively, while teaching students the full skill sets needed to engage fully in instructional activities (Lane, Menzies, Ennis, & Bezdek, 2013)

**Tier 1: Primary prevention.** In a CI3T model, the first tier (also referred to as primary prevention or the core program) is designed as preventative and includes academic, social, and behavioral components for all students. The academic component consists of the school or district chosen validated academic curriculum based on state standards and requires that all teachers deliver effective instruction.

To address students' social needs, school site personnel may choose to implement a social skills curriculum (Elliott & Gresham, 2007a) or character education program (e.g., Positive Action; 2008). The focus of the social curriculum is determined by the school's unique needs (e.g., the need to decrease bullying behavior). An evidence-based program should be selected, one with sufficient evidence to suggest that the desired changes will be observed at a given school site provided that the program is implemented with fidelity.

Finally, the behavioral component is a positive behavior interventions and support framework in which school site personnel establish 3-5 schoolwide expectations for student conduct (e.g., Be respectful, Be responsible, and Be prepared to give best effort). The critical component here is that school staff explicitly teach all students the expectations which are operationally defined for each key setting in the building (e.g., classroom, hallways, cafeteria). Next, students have multiple practice opportunities where teachers model the expectations and then coach students on how to demonstrate them. Students demonstrating expectations are reinforced with behavior-specific praise. Some schools develop elaborate PBIS reinforcement plans that include school assemblies and tangible rewards, others implement on a smaller scale making decisions based on beliefs and resources. In either case, the important factor is that all students are directly taught and provided reinforcement for demonstrating the schoolwide expectations. The overall goal is to provide students with a behavioral repertoire that allows time for teaching and learning. Thus, teachers gain additional time to teach the academic and social skill or character development programs constituting the primary plan. Investing time in this instructional approach to behavior by explicitly teaching schoolwide expectations for

behavior upfront, teachers will devote less time to addressing problem behaviors and may experience less stress (as will students) in the learning environment.

Implementing these three areas of foci schoolwide, *all* students are supported behaviorally, socially, and academically. Eighty percent of students are expected to respond satisfactorily and not require further intervention (Sugai & Horner, 2006). However, to determine which students need more intensive support, systematic screenings are conducted. The screenings will identify students for Tier 2 (secondary) or Tier 3 (tertiary) interventions.

**Tier 2: Secondary prevention.** Secondary supports are typically offered to small groups of students experiencing similar needs. For example, there might be groups to improve oral reading fluency using repeated readings (Chard, Ketterlin-Geller, Baker, Doabler, & Apichatabutra, 2009), peer-peer interactions using social skills groups (Kalberg, Lane, & Lambert, 2012; Lane, Menzies, Barton-Arwood, Doukas, & Munton, 2005; Miller, Lane, & Wehby, 2005) and anger management groups to improve conflict resolution skills (Kalberg, Lane, & Lambert, 2012). Decisions regarding which students and the types of supports needed are made using systematic screening data in conjunction with other data (e.g., office discipline referrals, absenteeism, and academic progress). Approximately 15% of students are apt to require this level of prevention. Students who do not respond to Tier 2 supports or those exposed to multiple risk factors are likely to require more intensive interventions and supports referred to as Tier 3 or tertiary prevention.

**Tier 3: Tertiary prevention.** Tertiary supports are the most intensive supports and are most often individualized. Examples include individualized reading programs (e.g., Scott Foresman Early Reading Intervention, Pearson Education, 2010), functional assessment-based interventions (Kern & Manz, 2004; Umbreit, Ferro, Liaupsin, & Lane, 2007), and intensive family supports (e.g., First Step to Success, Walker, Stiller et al., 1997). Tier 3 is typically reserved for students who experience multiple risk factors or for whom previous intervention efforts have been insufficient. Students may be immediately identified for tertiary intervention or may proceed through the tiers of increasing levels of intervention offered while responsiveness is closely monitored.

Tier 2 and 3 interventions are designed to meet the students' specific characteristics and learning needs whether they are behavioral, social, academic, or combined. In these more intensive levels, students are monitored to determine whether they are responding to the intervention. School

site personnel use this information to make instructional decisions regarding the continued need for the intervention, a change in the intervention or support, or a discontinuation of additional supports because the remediation has been successful.

This model uses a data-driven approach to both prevention and intervention, thereby meeting the increasing demand of data-based decision making. It also aims to respond to learning and behavior problems by capitalizing on currently available resources. Yet, an essential component of this model that is often overlooked is the accurate and early detection of students who require Tier 2 and Tier 3 supports. Screening tools are used to meet this charge by systematically measuring academic *and* socio-behavioral performance.

### **Systematic Screening within Three-Tiered Models**

Screening procedures are essential for effective schoolwide prevention systems. They are the tools for early and accurate detection of students in need across the preK-12 continuum. Age appropriate screening tools should be used at each level of schooling (elementary, middle, and high school) to address the unique demands at each level. Differences in students' developmental growth mean that they experience different risk factors related to their age. One of the most critical milestones students attain early in their school careers is learning to read. Those who are not proficient readers by fourth grade are likely to struggle academically throughout their school years (Fletcher, Foorman, Boudousquie, Barnes, Schatschneider, & Francis, 2002; Juel, 1988). Middle school students are entering adolescence which can be a time of emotional turmoil which can make it difficult to focus on academic learning. In high school, many demands, interests, and challenges compete with students' ability to complete their required programs. Graduating high school is a gatekeeper of future success and students with behavioral, emotional, and academic challenges are at greatest risk for dropping out (Wagner & Davis, 2006). Screening tools at each level of schooling can help systematically identify those who require more support to ensure school success.

In sum, systematic screening procedures are necessary at all school levels, particularly as the behavioral, social, and academic demands change. It is imperative that a systematic approach be used in order to avoid missing students who would benefit from additional supports within the context of integrated three-tiered models of prevention.

## Procedures for Teaching

### Faculty and Staff:

Professional Development in August

- Both large and small meetings for introduction and implementation.
- Classified staff must also be involved. (paras, office staff, kitchen, custodial)
- Training for new staff
- “How to” information for substitutes including any needed Connect with Kids lessons and a set of tickets made available to them at check in

Staff reinforcement by rewarding teachers who are actively participating.

Supply with Cl3T Implementation Manual and expectations Posters as necessary

Check MyLearningPlan for Cl3T professional learning opportunities

Have Cl3T on all faculty meeting agendas – clarify/support roles and responsibilities in the three domains.

Subcommittees will meet regularly to review and refine the Cl3T process.

### Students:

Hand out Best Bucks the first day students enter building.

Really “flood” students with info/rewards the first few weeks.

Student fills out ticket with their name, grade, and why they were rewarded.

Introduce WAR<sup>3</sup>HAWKS to students in beginning of year all-school assembly.

Signage specific to the area.

Tie it to advisory.

Connect with student leadership groups (Stu-Co, Equity, and Hawk Flock)

Possibly create student videos promoting Cl3T as end of year guided studies or student group projects.

Input from student leadership groups on possible rewards to make available to students.

Rewards given in pairs so student can take a buddy (front of the lunch line pass, bowling pass, Munchers...)

### Parents/ Community:

Parent letter sharing background information of WAR<sup>3</sup>HAWKS and the expectation matrix.

Dedicated WAR<sup>3</sup>HAWKS section in newsletter about progress/changes/updates.

Share with parents at Back to School night a few weeks after initial all-school kick-off.

Bookmark with basics.

Signs for businesses that support program.

## Procedures for Reinforcing

### **Faculty and Staff:**

Reinforce staff who are reinforcing student. Staff member who gave the buck/ticket is also rewarded.  
Public acknowledgement on announcements.  
Walk-throughs to catch teachers using program to reward.  
Teachers reinforce each other.  
All staff will have bucks to give to students.  
Check MyLearningPlan for C13T professional learning opportunities  
Have C13T on all faculty meeting agendas – review/reinforce roles and responsibilities in the three domains.

### **Students:**

When staff observe students displaying school-wide expectations, staff will provide behavior specific verbal praise paired with a Best Buck. CHOICE is important! What is rewarding to one student is punishment to another.  
Reinforcement survey.  
Students will be able to bank tickets.

### **Parents/ Community:**

Signs for businesses that contributed.  
Emails home to parents promoting C13T behaviors.  
Example: Your child was recognized today for “showing respect.”  
Post cards home to parents written by each staff member at monthly staff meeting.  
Newsletter section to thank businesses and/or parent supporters.

# West Middle School Secondary Interventions

Secondary (Tier 2) Intervention Grid				
Support	Description	School-wide Data: Entry Criteria	Data to Monitor Progress	Exit Criteria
Check In (And/Or) Check Out	A contract between student, teacher, and/or parents that involves daily organizational process affirming student understanding and preparation of materials and work before leaving school and/or upon arrival that may include signature sheet or teacher initialing.	A student needing check in/checkout would have at least one of the following for two or more weeks <ul style="list-style-type: none"> <li>turned in 50% or less homework/classwork on time</li> <li>tardy to school 3 or more days a week</li> <li>full or half day absences from school two or more times per week</li> <li>missing class materials 50% or more of the time</li> </ul>	Treatment Integrity Teacher and student meet at the specified time for a specified number of weeks. (Individually determined.)  Social Validity Ask teacher & student: Do you like this intervention? How helpful is this? Should we continue?  Student Performance Student begins to show growth in the individually determined areas.	During the contracted time student has <ul style="list-style-type: none"> <li>turned in 80% of homework/classwork on time</li> <li>arrived at school on time 4/5 days a week</li> <li>attended full days of school 4/5 days a week</li> <li>necessary materials for class 80% of time</li> <li>maintained implemented organizational strategy 4/5 days</li> </ul>
Academic Intervention Groups (GS)	Students are flexibly grouped for guided studies classes focusing on specific content. These groups meet every other school day for 43 minutes (except Wednesday, which is 33 minutes.)	A student needing Tier 2 Academic Intervention Groups would have 2 or more of the following for multiple weeks: <ul style="list-style-type: none"> <li>State assessment scores below the 50%ile</li> <li>Classroom quiz/test scores below 70%</li> <li>Other classroom pre-assessment data (reading)</li> </ul>	Treatment Integrity Grade level teams monitor student progress every 3 weeks to determine if academic intervention groupings are still appropriate to meet student needs. ## WMS REACTIVE PLAN: Flow Chart for Responding to Challenging Behavior

All staff will use an instructional approach to behavior. This includes teaching, reminding, and reinforcing expected behaviors, and using the 6-step instructional approach to respond to teachable moments as well as minor and major behaviors.

### 6-step Instructional Approach

- 1) Show empathy
- 2) Maintain flow of instruction
- 3) Acknowledge other students meeting expectations
- 4) Redirect and Reteach expected behavior
- 5) Allow time and space
- 6) Recognize/reinforce appropriate behavior when demonstrated

- How you first respond determines everything
- Be consistent
- Our goal is to keep students in class, learning.
- Context matters

**BEHAVIOR ENTRY**

**Does the behavior put the student or others in imminent harm?**

**NO**

1. Show Empathy  
2. Calmly and firmly re-state expectations  
3. Maintain flow of instruction for other students  
4. Complete Behavior Entry Form in PowerSchool; administrator is notified  
5. Debrief with student in private

Administrator or designee will debrief with student when appropriate.

Administrator provides consequence as directed by Board Policy. Involved parties work to find restorative solution to repair harm caused by incident.

Review Secondary (Tier 2) and Tertiary (Tier 3) Intervention grids to connect students with supports as appropriate. Align intervention to restorative solution.

**YES**

Contact the office; trained staff member will be notified to respond ASAP

Teacher follows crisis response plan (see building-wide plan OR individualized de-escalation plan if available)

Teacher completes Behavior Entry Form in PowerSchool as soon as able

## **Reporting to Law Enforcement**

### **Board Policy for Reporting to Law Enforcement (JDDDB):**

Whenever a student engages in conduct which constitutes the commission of any misdemeanor or felony at school, on school property, or at a school supervised activity and/or has been found:

1. in possession of a weapon
2. in possession of a controlled substance or illegal drug, or
3. to have engaged in behavior at school which has resulted in or was substantially likely to have resulted in serious bodily injury to others, the principal shall report such act to the appropriate law enforcement agency

Amended: March 21, 2016

## **Searches**

### **Searches of Property (JCAB):**

Principals are authorized to search property if there is a reasonable suspicion that district policies, rules, or directives are being violated. All searches shall be carried out in the presences of another adult witness. Any person other than the principal conducting a search of a student's locker or property shall do so only with the consent of and in the presence of the principal, unless circumstances require immediate action in order to preserve the security and safety of staff and students.

District property, including lockers, is under the supervision of the principal. Students should have no expectation of privacy when utilizing district property, including lockers. Lockers shall be subject to random searches without prior notice or reasonable suspicion.

Amended: April 14, 2008

### **Searches of Students (JCABB):**

Principals are authorized to search students if there is reasonable suspicion that district policies, rules or directives are being violated. Strip searches shall not be conducted by school authorities. All searches shall be carried out in the presence of another adult and the adult conducting the search shall be of the same gender as the student.

The student shall be told why the search is being conducted. The student may be requested to empty items such as, but not limited to pockets, purses, shoulder bags, book bags and briefcases. The principal shall attempt to call the student's parent and may call law enforcement. Items which the principal believes may be connected with illegal activity shall remain in the custody of the principal unless the items are turned over to law enforcement authorities.

Amended: March 21, 2016

## WMS Ci3T Monitoring Form

*The purpose of the monitoring form is to gather pertinent information in one place. This form does not replace the PMP, but is intended to guide teachers in using the CI3T model to support students in need. It is also a tool to organize team discussion and notes, then communicate information to non-core teachers who will be able to access the monitoring form in the grade level SharePoint sites.*

### **Procedures for monitoring the student and using the form:**

Consult the WMS Ci3T Implementation Manual

1. Team identifies student in need.
2. Team identifies “point person” on team.
3. Team completes the CI3T monitoring form by gathering information.
  - a. Does the student have a support plan or has the student ever had a support plan? Was it successful?  
Review all previously provided supports.
    - i. SSP, 504, IEP, health plan, etc.
    - ii. Check PowerSchool for SSPs and other assessment scores.
    - iii. Grade cards can also be found in the student’s portfolio in PowerSchool.
    - iv. Consult building level support staff.
  - b. Is the student receiving **all** Tier 1 supports with fidelity?
4. To directly address the **articulated** concern, design a new plan, or modify the existing plan, by incorporating intervention(s) and a progress-monitoring plan.
  - a. Complete page 3 of monitoring form.
5. Point person contacts parent to gain additional information and explain the concern(s).
  - a. Parent meeting or phone conference is scheduled if needed.
6. Conduct a follow-up team meeting 4-6 weeks from the initial team meeting to evaluate the effectiveness of the plan based on interventions implemented and data collected.
  - a. Successful intervention: Continue to provide the support and monitor. Discuss again in 4-6 weeks.
  - b. Not successful intervention: Consult CI3T Intervention manual for additional interventions.  
Determine new intervention(s), timeframe. See steps 4 – 6.
7. Use the monitoring form to update or start the student’s SSP in PowerSchool.  
Note: If further assistance/consultation is needed, for example from building level mental health team or special education team, provide the completed monitoring form and supporting documentation to the student’s assigned guidance counselor, as well as a copy of the SSP.
8. Continue implementation of interventions, follow-up meetings and parent contacts.
9. Continue gathering data and work samples, and updating the monitoring form and SSP.

## Frequently Asked Questions

**Q: *Do I still use my reactive procedures (i.e. pull a card, complete an office discipline referral form) if a student misbehaves?***

**A:** Yes. The Reactive plan is an integral part of WAR<sup>3</sup>HAWKS. Students need to learn their behaviors have both positive and negative consequences. See page 28.

**Q: *Where do I get BEST BUCKS to hand out?***

**A:** BEST BUCKS may be obtained in the main office.

**Q: *Where can I find posters to put in my room?***

**A:** All classrooms were provided with a Behavior Expectations Matrix and a Classroom Expectations posters. If you would like additional posters please contact a CI3T team member.

**Q: *Where should I instruct students to place their tickets?***

**A:** Students should make sure their name and grade is on their BEST BUCKS and keep them in a safe place. Students are responsible for their BEST BUCKS. Lost BEST BUCKS will not be replaced.

**Q: *Whom do I ask if I have questions about the CI3T plan?***

**A:** Any CI3T team member.

**Q: *What about the students who do not respond to the positive behavior interventions and supports ticket system?***

**A:** Not every student will respond to the behavior interventions and BEST BUCKS, even with additional support from adults. If the student's academic or behavioral needs are of concern the student may need to be referred for Tier 2 and/or Tier 3 supports.

**Q: *How do I access additional training for academic, behavior, or social skills programs and practices?***

**A:** Professional development will be provided throughout the school year. If you have specific requests contact a CI3T team member.
