Friday, July 26

8:30pm-10:00pm

Join us for a unique seasonal park experience as we gather around a campfire for a fiery lesson in some of nature's nocturnal friends. For the summer we will be taking a close look at our flying LED lights: the fireflies. We will be sharing a few of our favorite firefly myths from around the world, learning how they chemically produce light (using a diabolically named substance), putting together our own glowing firefly action figures to take home, and enjoying some s'mores before turning our attention to the woods for a firefly frolic! Participants are encouraged to bring their own insect repellent. All fireflies will be released at the end of the program. **Children under age 10 must be accompanied by an adult. Seasonal Adult Hikes-Michigan's Bats

Friday, August 9

8:00pm-9:30pm

We've all witnessed our flying mammal friends darting haphazardly through the twilight skies from our back porches and have heard horror stories of rabies, hair tangles, blood sucking and disease but what's true and what's falsehood? Explore the 9 species of bats in Michigan which help keep humans healthy and fed. We will get up close with a bat skeleton to see how they're able to achieve flight, learn how echolocation works, and learn a few tips and tricks for keeping bats out of our own homes! We will be heading out on the trails to try and spot bats and hear their echolocation sounds with the help of technology. Participants can take home the instructions needed to build their own bat houses. Participants are asked to bring their own flashlights/headlamps and insect repellent.
