

Steelton-Highspire School District Student Email Parent Permission Form Acceptable Use Policy Addendum

Parents and Students:

This is to inform you that your child's teacher will be using email for class assignments this year. Since school-assigned, individual email accounts are a new option for Steelton-Highspire School District students, your approval is necessary for your child to participate. The use of email by individual students is not specifically included in the SHSD Acceptable Use Policy, which you approved earlier so this form serves as an addendum to your earlier approval of the SHSD Internet and network policy#815B found in the SHSD Student Handbook and online at www.shsd.k12.pa.us.

With your permission, your student will be assigned his or her own username and will be allowed to send and receive email through the filtered and monitored GMAIL system. All district policies are still in effect, and apply, as indicated in the Acceptable Use Policy. Every attempt has been made to provide safe, secured student email, however it is still the responsibility of users to follow all school rules, teacher directions and procedures and to report any inappropriate use or material to school personnel.

As explained in the Acceptable Use Policy, the use of school technology, networks, and Internet services does not create any expectation of privacy. Steelton-Highspire School District reserves the right to search and/or monitor any information, created, accessed, sent, received, and/or stored in any format by students on school equipment.

By signing below you are indicating once again that you understand and agree to follow the district and school policies as detailed above and in Board Policy 815B and the supporting Administrative Regulations.
