MEMBERSHIP IN SCHOOL BOARDS ASSOCIATIONS

The Board of Education recognizes the need to promote and support public education at the federal, state and local levels. The Board also recognizes that collective efforts by boards of education throughout the state stand the best chance of creating and maintaining a local environment where academic achievement can flourish. The Board recognizes that information on developments in the broad field of education is constantly evolving and that accurate, up-to-date information is necessary for the Board to make informed decisions. The Board further recognizes that proper appreciation of its roles and responsibilities is necessary to provide strong leadership to its staff and community.

The Board of Education shall maintain memberships in the Nassau/Suffolk School Boards Association, The National School Boards Association, the New York State School Boards Association, and other organizations established for Boards of Education.

Board members should take the responsibility to attend association meetings for the purpose of Board development and gathering new information to share with the other trustees.
