

SUPPORT STAFF POSITIONS

The North Middlesex Regional School District will employ support staff members in positions that support the district's education program.

All support staff positions will be established initially by the North Middlesex Regional School Committee. In each case, the Superintendent will submit a job description or job specifications for the position to the Committee for its consideration and action.

Although positions may remain temporarily unfilled or the number of persons holding the same type of position maybe reduced, only the Committee may eliminate a position it has created.
