Meet our New Executive Director

What a wonderful time of year!

I love to look out and see all the plants starting to bloom and the buds bursting forward on the trees. The warmer weather continues to ease in and it gets us excited for what is to come. I am reminded of the similar things happening in our students during this time of year. Just as the plants have stored up their energy and matured over fall and winter, our students have been doing the same. Now is the time we hope to see the full and radiant blooms, both on the plants outside and through our students inside!

As a parent, this is what we all want for our children. We (parents) also want the community and school to come alongside us during this growth. As a parent, we will take all the support we can get. As your child's school, we want to do our best to walk alongside you in this!

As you see mentioned in this version of the Screamer, I want to reiterate and encourage parents to attend the session we are hosting on April 29th at 6pm. This session will be a very informative presentation about "Parenting Children with ADHD." Based on the illustration above, sometimes we have children that struggle to manage their energy or maintain their attention. At our school, we see students that struggle with this. We try to manage it here the best we can, but again, we need to be strong partners in doing the best for our students. Even if you don't have a child with ADHD, this meeting will be beneficial to you as well. You will most likely interact with other children that struggle with ADHD at some point. It may come as you are chaperoning an event or maybe when your child has a friend stay over for a night. I would love for you to attend with us.

I am excited that this event is coming to our school and I am even more excited that it is being provided at no cost for you. Please dedicate a little time to come learn with us!

Thank you for a wonderful school year and I am looking forward to a strong finish!
