The Board of Trustees recognizes its particular responsibility to provide the opportunity for the continual professional growth of its administrative staff and the importance of developing, improving, and extending administrative skills. The Superintendent will assist the certified administrative staff to gain opportunities as District funds allow to remain abreast of emerging information and technical knowledge. To this end, administrators may be granted leave by the Superintendent, within budget considerations, to take part in such opportunities. The Superintendent will have authority to approve release time for conferences and invitations and reimbursements for expenses within budget limitations. See Policy CGAD/GAD (Professional Development Program) for further information. Professional development activities may be groups of employees or for individual staff members.
