

Descriptor Term: USE AND DISSEMINATION OF TEST RESULTS

Descriptor Code: IIC

Rescinds: IIC

Board Approved: 8/28/2006

Previously Approved: 2/1/1988

In the Gulfport School District, test results will be used to augment the instructional process in such areas as placement, diagnosis, remediation and curriculum structuring. Data derived from testing can be both formative and summative. Composite and longitudinal data will be used for instructional planning. Analysis of data will provide insight into individual and collective strengths and weaknesses.

Test results will be disseminated to administrators, teachers, students, and parents. The Board of Trustees will receive a district report and analysis. Each school will record test scores on individual student permanent records.
