

Descriptor Term: ACADEMIC ACHIEVEMENT

Descriptor Code: IH

Rescinds: IH

Board Approved: 7/6/2021

Previously Approved: 8/28/2006

The Board of Trustees believes that academic achievement is based on the premise that children have diverse capabilities and interests and individual patterns of growth and learning.

All teachers will have as much detailed, accurate knowledge of each student as is possible through tests, observation of students' intelligence, achievement, work habits, skills, health, home environment, and well developed teacher-student relationships to develop a comprehensive description that will aid in the overall academic success of the student.

Achievement will be measured in relation to a student's learning capacity, in terms of his/her degree of mastery of the course work as ascertained by the teacher, and in terms of annual academic growth.
