

Descriptor Term: COMMUNITY INSTRUCTIONAL RESOURCES

Descriptor Code: IFC

Rescinds: IFC

Board Approved: 8/28/2006

Previously Approved: New Policy

Because the Board of Trustees believes that one of the goals of the Gulfport School District is to equip each student to serve as a citizen of the community, it will encourage administrative and instructional personnel to rely on the community as one of the educational tools at their command. The administration will direct the development of a community instructional resources program designed to involve the citizens, the institutions, and the environment of the community in the education of its children.

The Superintendent will have supervisory control over the program, which will include the school volunteer service. Members of the staff and the community will be encouraged to offer their ideas and services through the channels developed by the administration.

At least annually, the Superintendent will report to the Board on the involvement and effectiveness of the community resource program.
