The Board of Trustees recognizes it has an educational responsibility to the entire community. Accordingly, the District will offer a school program and courses outside the regular school day and not as an integral part of the elementary and secondary school programs.

The program will be administered by the Superintendent or designee through the supervisor of the Community Education program and will be subject to the control of the State Department of Education. The program will be supported by a combination of local taxation, tuition, federal and state aid.

All physical facilities of the school system will be available for use in the Community Education program when they are not scheduled for regular school or other approved activities. Community Education classes will not be limited to the school facilities but may be conducted at other locations.
