Based upon the recommendation of the IEP Committee, a multidisciplinary evaluation team will be utilized to assess the need for occupational and/or physical therapy, as required by state and federal policy.

Occupational and/or physical treatment will be provided to students in accordance with the child's IEP. A current prescription of Occupational and/or Physical Therapy is required from the student's medical doctor. The student's treatment plan for Occupational and/or Physical Therapy will be developed and monitored by a Licensed Occupational and/or Physical Therapist. Copies of the treatment plan and periodic monitoring notes of the student's progress will be provided.
