Procedures will be established by each school of the Gulfport School District for the approval of requests for early dismissal to ensure that children are released only for proper reasons and into proper hands.

Children of estranged parents may be released only upon the written request of the parent whom the court holds directly responsible for the child and who is the parent or guardian registered on the school record. The schools will not take part in other arrangements with estranged parents.

No student will be allowed to leave school unless the parent, guardian, or designee appears at the school to sign out the student.
