Region 15's Theories of Action

If we foster schools that are welcoming and inclusive to all students then students will feel valued and they will be better able to access their learning.

If we improve our ability to align assessments to curriculum, improve our data culture, and increase our analysis of student learning, then we will be more equipped to provide meaningful student engagement and increased achievement.

If we embrace communication, transparency, and collaborative relationships within ourselves and the community then we will improve trust and participation in supporting our students.

If we increase and promote access to career pathways, curriculum, and shared instructional experiences then our district will prepare students for the world they will enter after their time with us.
