STUDENT USE OF TECHNOLOGY IN SCHOOLS

The School Committee recognizes that the use of technology is an important part of students being prepared for adult life. As such, the student use of technology part of their education is to be encouraged, as teaching students appropriate use of technology is part of the responsibility of the district.

Annually, all students must agree to and sign an appropriate digital use form developed by the Superintendent in conjunction with the Director of Technology; this form must also be signed for the parent or guardian for students under the age of 18.

Students shall utilize digital resources in a responsible, efficient, ethical, and legal manner. Students are required to abide by the district Code of Conduct in their use, both on and offline, of district digital resources, which should be regarded as an extension of the classroom.

Students are reminded that there is no expectation of privacy in the use of district digital resources.

Failure to abide by district policies and procedures regarding the use of district digital resources will be met with consequences.
