

FROM THE LION'S DEN!

April 8, 2024

Be Open To New Experiences!

Our guest, Brandon Wilson spoke to students about his experiences that led him to pursue a career in teaching. After graduating college, Mr. Wilson enlisted in the United States Marines and was deployed twice to Afghanistan. After returning home and retiring from the military, he became certified as a personal trainer. Once uncertain about his career path, he finds personal and professional fulfillment in working with at-risk students in California today. Mr. Wilson wants students to be open-minded to new experiences and embrace every opportunity.

Excited About Science!

Congratulations to our winners of the Solar Eclipse contest. These students won a backpack filled with information from NASA. On Monday, April 8th students participated in a solar eclipse safety lesson with Dr. Edghill. Solar viewing glasses were donated to the students and staff due to our ongoing experiential learning partnership with PTech Planetarium. Thank you, Dr. Miranda, for your ongoing support of our school. We appreciate you!

APRIL AT-A-GLANCE

A note from the NJSLA Testing Coordinator:

Happy Spring!

Testing for the NJSLA will take place April 29th-May 9th! Please prepare students for the assessment by making sure your son is in bed by 9:00 pm, so he will be well rested and ready to focus. We ask that you take all electronic devices each night to prevent your son from staying up too late and throughout the night. Chromebooks must be charged nightly and chargers brought to school. Lastly, every student must bring a personal headphone to use during testing.

Thank you for your support,

Testing Coordinator,
Dr. Edghill & Ms. Clifford
