Questions:

- Director Compensation- Recommend budget for higher 2024-2025. Reevaluate in November 2024.
- Budget includes $800 for community events (Food 4 thoughts and Candidate Forums)
- Do we want to send Chair to National SB Conference/share EP Success/BPs?
- Other spending needs?

Eden Prairie School Board New Policy Introductions Workshop Process

The New Policy Introductions Workshop Agenda Item will be officiated as follows:

1. At any time prior to the start of a Board Workshop with a New Policy Introductions agenda item, any Director may submit a new policy to the rest of the Board and Board secretary. The policy will be notated by the secretary and placed under the New Policy Introductions area of the Board Work Plan.

2. A listing of all items from the New Policy Introductions area of the Board Work Plan will be included on the Workshop agenda or may be referenced from other public documents. The Board Chair will, in the order of their discretion, bring each of these items individually to the attention of the Board.

3. In response, the authoring Director of the policy may request the policy receive discussion and may give a brief introduction to the policy. If the author declines or is absent, another Director may request the policy receive discussion and give a brief introduction. This request does not signify explicit support of the policy as written or that any additional action be taken by the Board. If no Directors request the policy receive discussion, the Chair will repeat step 2 with the next item on the list.

4. The Chair will then ask the board if any additional Directors will support the request for discussion of the policy. One or more additional Directors may respond in the affirmative. An affirmative response to this question signifies support that the Board permit further discussion and does not signify explicit support of the policy or that any additional action be taken by the Board. If zero Directors offer support, the Chair returns to step 2 with the next item on the New Policy Introductions list.

5. Discussion about the policy occurs among the Board in accordance with normal discussions during a Board Workshop. The discussion must last for a reasonable amount of time to provide sufficient time for questions and explanations by the author of the policy. At any time, the author may withdraw their request that the policy be discussed, ending the discussion of that policy.

6. During the discussion, any Director may make one or more proposals that actions be taken regarding the policy. If no proposal is made during the discussion, the Chair will ask the Board if any Director wishes to make a proposal before moving on to the next policy item. The proposals may include, but are not limited to, referral of the policy to the Policy Committee with or without additional instructions, scheduling of an additional workshop for more work on the policy, scheduling of a workshop to request more information from administration that relates to the policy or placing the policy onto the Work Plan Changes document for approval and scheduling at a future Business meeting. Since discussion takes place in a workshop, these proposals are not official motions and do not require the formal motions process. The proposals may be discussed for a time.

EDEN PRAIRIE SCHOOLS

Eden Prairie School Board New Policy Introductions Workshop Process

7. The chair will ask the Board if there is additional support for the proposal. If a majority of Directors present indicate support for the proposal, then the proposal is accepted by the Board and followed accordingly. Support for a proposal signifies support of only the specific action of the proposal and does not signify explicit support of the policy as written or that any additional action be taken by the Board.

8. Once a proposal is accepted and discussion is concluded, the Chair returns to step 2 with the next item on the New Policy Introductions list.

9. Once discussion on all items is concluded, the New Policy Introductions area of the Board Work Plan is cleared of all contents.

Measuring What Matters

Language Arts, Math, and Science: 2022-23 School Year

Introduction

Each year during the policy monitoring cycle, the Eden Prairie School Board formally reviews Ends Policy 1.3 which states, "Each student achieves individual growth and proficiency expectations annually in, but not limited to Language Arts, Math, and Science. During the monitoring process the Superintendent provides evidence to support whether reasonable progress has or has not been achieved.

Data

Sound research and measurement practices include metrics across long, medium, and short-term assessments. Further, we leverage state and national assessments, universal screening and benchmark assessments, and locally developed classroom assessments designed to indicate proficiency levels. The results provide a body of evidence to support data informed instruction and learning, continuous improvement, and data driven programing and practices.

Long-Cycle Assessment Proficiency: Minnesota State MCA & MTAS Assessments:

Target for 2022-2023

- 76% of students (grades 3-8, 10) will be at or above proficiency in reading.
- 73% of students (grades 3-8, 11) will be at or above proficiency in math.
- 67% of students (grades 5, 8, HS) will be at or above proficiency in science.

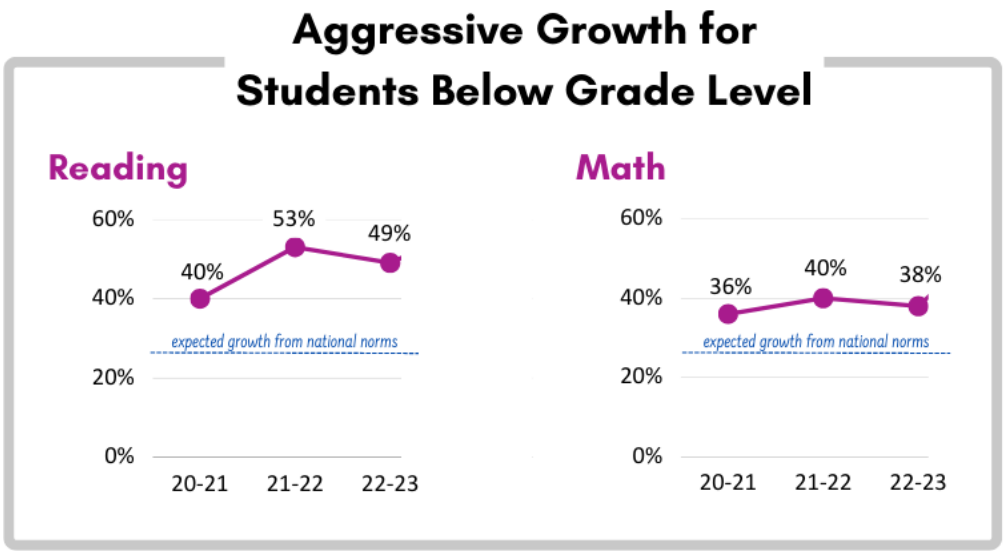
Mid-Cycle Assessment Growth: FastBridge Universal Screener and Benchmark Assessments:

Targets for 2022-2023

- The percentage of students (grades K-5) below grade level in reading who achieve aggressive growth from fall to spring will increase by 2 percentage points, from 40% in 2021-2022 to 42% in 2022-2023. (**)

- The percentage of students (grades K-5) below grade level in math who achieve aggressive growth from fall to spring will increase by 2 percentage points, from 36% in 2021-2022 to 38% in 2022-2023.

Note: Aggressive growth is the 75th growth percentile and above 2022 (Highlighted above does not match graph numbers from monitoring report)



Short-Cycle Assessment Proficiency: Grades Based on Classroom Assessments: Target for 2022-2023

- The percentage of students (grades 6-12) achieving a C grade or higher in other curriculum areas* will increase by 2 percentage points.

Note: Other curriculum areas include: social studies, world language, career technology education, business, fine or applied arts, health, and physical education.

(*Table from page 15 of 16 Ends Policy 1.3, 2022-2023 Report)

School Board's Perspective on the 2022-23 Data:

On October 23, 2023, Ends policy 1.3 was monitored by the School Board. The Superintendent asserted, and the board concurred, that expected progress toward the achievement of the policy had not been made. District leaders including principals, teachers, and members of the administrative cabinet, provided a progress report on Ends Policy 1.3 at the February 26th, 2024 School Board Business Meeting.

The School Board was disappointed with the data that suggested the significant post-covid investment (dollars, focus, and efforts) by teachers, staff, and taxpayers had not yet resulted in improved results. The Board believes the district was still dealing with post-covid impacts of learning loss and interrupted emotional development associated with pandemic lockdowns and disruptions to learning patterns.

Management highlighted efforts to utilize more real-time data to achieve timely intervention, course correction, and targeted instructional student supports. As teachers and management implement quickened monitoring cycles, expanded professional development, and best practice sharing across the district, outcome should improve. Further, management provided multiple examples of creative strategies educators are incorporating to build engaged, collaborative, and thinking classrooms (especially in math).

The board left the management update on ENDS 1.3 confident that new approaches, continued investment, more timely feedback and correction loops, and leadership will drive improvement across EP Schools.

Community Linkage Committee

Advances in technology are reshaping society, revolutionizing how we live, work, and interact. The School Board recognizes the challenging and exciting times education faces regarding artificial intelligence (AI) and would like to highlight how our schools are preparing for this disruption to harness artificial intelligence (AI) to drive student success.

Over the past decade, our schools have laid the groundwork for this transformation, focusing on inspiring and empowering each student. We've invested in tools like 1x1 student iPads/MacBooks, the Designing Pathways program, and now Inspired Journey curriculum, while also integrating 21st-century skills (the 4Cs) throughout all grade levels.

To navigate the upcoming AI disruption, the board has engaged district leadership and outside experts to review the risks and rewards associated with increased technological utilization in the areas of student achievement, behavior, and development. Furthermore, the administration engaged students and staff, upgraded policies, and piloted ideas aimed at identifying the best paths forward. Looking ahead, AI could potentially reshape the traditional classroom as we know it, in the following ways:

-Teachers utilizing models, data sets, and the 4Cs to solve problems.

-Incorporating high-tech testing equipment, simulated AI models, digital assistants, and vocational equipment to enhance learning experiences, while making personalized 1x1 education more feasible.

-Helping teachers deliver education more efficiently, automating tasks and allowing more time for personal engagement with students. Emphasis will shift towards building thinking skills and applying AI tools with the 4Cs to solve problems.

The Board considers the 4Cs (Collaboration, Communication, Creativity, and Critical Thinking) as fundamental to students' future success in the AI age. These skills are not just “nice to have” add-ons, but rather, well-defined metrics evaluated for each student, monitored at a district-wide level by the School Board. The development of the 4C’s skills in each student will be critical as AI affects the value of knowledge versus thinking and skill development.

While the prospect of these changes may seem daunting or unfamiliar, the Board acknowledges that there are uncertainties. However, the district has been proactive in preparing for this disruption, establishing effective governance, strategies, technology tools, pilot programs, and staff partnerships.

This journey is just beginning, and the Board encourages all stakeholders to engage, share optimism, and voice concerns. Only through collaboration can we deliver the exceptional achievements our community expects in these transformative times.
