CLASSROOM NEWS

Math- We have been reviewing everything we have learned this year in preparation for our CMAS assessments. We have been focusing on constructed responses and explaining our thinking. We will be finishing our 7th unit this month.

Reading- Students have been taking practice CMAS assessments and reviewing our test taking strategies. We will begin our 8th reading unit with the focus on first hand vs. second hand accounts of a topic.

Writing- The students will continue writing an opinion piece with research. The students are also working on writing in response to reading and using evidence from the text to support their thinking.

Science- We will begin our new unit on energy. Students will conduct experiments around different forms of energy and how to transform it.

REMINDERS

1. Please remind your child to bring their snack to school every day.
2. Students will be taking their CMAS assessments first thing in the morning. Please make sure your child is on time those days.
