

Shepard Traffic Pattern and Procedures

This document shows an aerial view of Shepard to display the traffic pattern for pick up and drop off. From Grove Street, vehicles head south into the parking lot. They are not to turn right into the small parking lot north of the building. If someone needs to park, they can turn left into the main parking lot to the east of the building. If dropping off, vehicles stop in front of the main entrance, and then continue out of the lot onto Poplar Ln. There is not northbound exit onto Grove.
