The Board of Education desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of those standards, including suspension and/or expulsion.

Student Due Process

The Board shall provide for the fair and equitable treatment of students facing suspension and/or expulsion by affording them their due process rights under the law. The Superintendent or designee shall comply with procedures for notices, hearings, and appeals as specified in law and administrative regulation. (Education Code 48911, 48915, 48915.5, 48918)

(Education Code 48900.5) Alternatives to suspension or expulsion also shall be used with students who are truant, tardy, or otherwise absent from assigned school activities. Except for single acts of a grave nature or offenses for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct or the student's presence causes a continuing danger to himself/herself or others.

I. Search and Seizure

Moorpark Unified School District Board Policy 5145.12

Students

The Board of Education is fully committed to promoting a safe learning environment and, to the extent possible, eliminating the possession and use of weapons, illegal drugs, and other controlled substances by students on school premises and at school activities. As necessary to protect the health and welfare of students and staff, school officials may search students, their property, and/or district property under their control and may seize illegal, unsafe, or otherwise prohibited items.

The Board urges that employees exercise discretion and good judgment. When conducting a search or seizure, employees shall act in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall ensure that staff who conduct student searches receive training regarding the requirements of the district's policy and administrative regulation and other legal issues, as appropriate.

Individual Searches

School officials may search any individual student, his/her property, or district property under his/her control when there is a reasonable suspicion that the search will uncover evidence that he/she is violating the law, Board policy, administrative regulation, or other rules of the district or the school. Reasonable suspicion shall be based on specific and

objective facts that the search will produce evidence related to the alleged violation. The types of student property that may be searched by school officials include, but are not limited to, lockers, desks, purses, backpacks, student vehicles parked on district property, cellular phones, or other electronic communication devices.

Any search of a student, his/her property, or district property under his/her control shall be limited in scope and designed to produce evidence related to the alleged violation. Factors to be considered by school officials when determining the scope of the search shall include the danger to the health or safety of students or staff, such as the possession of weapons, drugs, or other dangerous instruments, and whether the item(s) to be searched by school officials are reasonably related to the contraband to be found. In addition, school officials shall consider the intrusiveness of the search in light of the student's age, gender, and the nature of the alleged violation.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

Searches of individual students shall be conducted in the presence of at least two district employees.

The principal or designee shall notify the parent/guardian of a student subjected to an individualized search as soon as possible after the search. (cf. 5145.11 - Questioning and Apprehension by Law Enforcement)

The principal or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

Use of Contraband Detection Dogs

In an effort to keep the schools free of dangerous contraband, the district may use specially trained, nonaggressive dogs to sniff out and alert staff to the presence of substances prohibited by law or Board policy.

The dogs may sniff the air around lockers, desks, or vehicles on district property or at district-sponsored events. Dogs shall not sniff within the close proximity of students or other persons and may not sniff any personal items on those persons without their consent.

Such a proposed dress code shall be presented to the Board, which shall approve the plan upon determining that it is necessary to protect the health and safety of the school environment. The dress code policy may be included in the school's comprehensive safety plan. (Education Code 35183)

B. Pandemic Influenza

Pandemic Flu

Pandemic Influenza

Pandemic flu is a worldwide outbreak of disease that occurs when a new flu virus appears that can spread from person to person. Because people have not been exposed to the new virus they have little or no immunity.

Therefore, serious illness or death is more likely to result. The illness rate for both seasonal and pandemic flu are high among children.

Because schools are the most densely populated environments in society, they are likely to contribute significantly to the containment or to the spread of flu in the community. Therefore, school closures may result as a means of reducing the overall illness rates within communities.

GOAL

Plan and increase preparedness for the possibility of an influenza pandemic.

Stages of Preparation:

N. Students and Staff with disabilities and Access and Functional Needs (AFN)

All students and staff with disabilities and Access and Functional Needs (AFN) must have their individual needs integrated into the districts/school’s Emergency Operations Plan. Developing a “buddy system” for assistance evacuating or concealing them to avoid an attacker is key, think creatively about how to use personal assistive devices. When communicating with individuals with a disability or AFN during a disaster, it is important to always ask the person how you can best assist. Asking the individual before assisting maintains their safety, independence, and health, as they are the expert when it comes to their individual needs. Teachers, staff and students will work together to make a plan for response to emergencies, including how to evacuate, lockdown, take cover during an earthquake.

Flory does not have any staff or students that would need help in the event of an emergency.

O. Emergency Shelters

Moorpark USD has discussed the options for use of their sites to be utilized as emergency shelters with Ventura County Human Services Agency who coordinates with public agencies including the American Red Cross.

VIII. Policies and Regulations Related to Student & Staff Safety

Legal citations and references may be found by viewing the original board policies. Unlawful discrimination also includes the creation of a hostile environment through prohibited conduct that is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. He/she shall provide training and information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. He/she shall report his/her findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. If a minor student is removed from school into the custody of law enforcement, the principal or designee shall immediately notify the parent/guardian or responsible relative regarding the student's release and the place to which he/she is reportedly being taken, except when the minor has been taken into custody as a victim of suspected child abuse. (Education Code 48906)

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

The Superintendent or designee shall inform students and parents/guardians of the district's sexual harassment policy by disseminating it through parent/guardian notifications, publishing it on the district's web site, and including it in student and staff handbooks. All district staff shall be trained regarding the policy.

A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved

A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and action shall be taken to respond to harassment, prevent recurrence, and address any continuing effect on students

Information about the district's procedures for investigating complaints and the person(s) to whom a report of sexual harassment should be made

Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues

A clear message that, when needed, the district will implement supportive measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation

Disciplinary Actions

Upon completion of an investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall be subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

To ensure the safety of students and staff and minimize interruption of the instructional program, the Superintendent or designee shall establish procedures which facilitate visits during regular school days. Addendum 1

Updates to Comprehensive Safe School Plans (CSSP)

In October of 2023, Governor Newsom signed into law several bills which impact all areas of schools including three bills that enhance the Comprehensive Safe School Plan. It is the desire of the Moorpark School District to incorporate this information into the current iteration of the CSSPs to promote the safety and protection of students that is intended by this new legislation.

Protocol for response to Opioid overdose grades 7-12 SB10

All emergency medical situations are immediately called to the nurses/health clerks' attention. At any stage that a student is unconscious or unresponsive emergency medical is called to evaluate and transport the student as necessary. In the event of suspected opioid overdose and Opioid Antagonist will be administered to the student. Several staff members at each school site have been trained on the use of the Opioid Antagonist and have access to the medication. The antagonist is housed in the health office and where AED's are stored.

Individualized Safety Plans – SB323

The CSSP has long required the preparation to assist students with disabilities in the event of a disaster or emergency on campus. SB323 expands this preparation to all students with disabilities on an individual basis. As the protocols for this section continue to evolve, one way to address students needs individually is to discuss any necessary adaptations to the Emergency Operation Plan at the time of the Individualized Educational Plan or 504 meeting. These discussions will not become part of the plan but gives parents, students, and school staff opportunity to discuss any changes necessary to provide safety to the student.

Threat Assessment

Dangerous Violent or unlawful activities – SB671

The district currently follows protocols to complete threat assessments, these protocols are currently being updated to better capture low level and perceived threats as well as addressing outright threats. Protocols include the response of school counselor, administrator, school resource officer and the reporting teacher/staff member as well as possible input from district staff. Any threat of any level in any school event or location will be addressed with the team response model, including for threats of homicide after reporting the threat to Law Enforcement as required by SB906.
