

Best Practices

1. Go to Mosyle and click on the (Re)Install/Update under each app to get the latest version of the app.
 1. The Update in the top corner will NOT update all apps.

2. Log out of any apps you used last year and log back in to update your new password (Word, Excel, PowerPoint, etc.)
3. Save your work before doing too much to be sure it saves correctly
4. Restart your iPad Regularly
5. Delete and reinstall an app if it is not working correctly as a first step
6. The app with restart and update.
