How to Access the Control Center

Control Center is a quick and easy access tool that allows users to gain immediate access to applications that they use most often. Users can customize the applications within the Control Center. Both teachers and students will want to customize the control panel with apps that they use regularly.

1. Swipe down in the upper right-hand corner from the outside of the screen to access the Control Center. To close the Control Center, swipe up from the screen or tap the home button.
