- 60 nationalities & 30 languages spoken on campus
- 35 minutes from central London
- 20 minutes from Heathrow Airport

TASIS The American School in England, founded in 1976, is a leading independent, coeducational day and boarding school located in the London area. TASIS England inspires students to become life-long learners who are internationally-minded and committed to service leadership as they discover their own path to the future.

Lower School (ages 3-10, Early Years - Grade 4)

The Lower School curriculum is designed to foster the creativity and natural curiosity of young learners. The core subjects are supplemented by specialist classes such as Spanish, Technology, Art, Music, Drama, and Physical Education. Educational excursions and field trips complement and enhance the joy of learning through the academic program.

Middle School (ages 10-14, Grades 5-8)

During these transitional years, students need guidance and understanding as they change and grow from childhood to adolescence. Students follow a full schedule along with additional subjects that include Technology, Art, Music, Drama, and Physical Education. The Middle School house system provides many opportunities for students to develop leadership and collaborative skills as they work, play, and socialize with their peers in friendly competitions, charity fundraising, and community activities. The sports program is designed to encourage participation and skill development.

Upper School (ages 14-18, Grades 9-12)

With a choice of academic pathways culminating in either the International Baccalaureate (IB) Diploma or the American High School Diploma, our Upper School students can select from a broad range of university preparatory, honors-level, or Advanced Placement (AP) courses. Learning extends beyond the classroom through academic travel and field trips. Students are encouraged to participate in our diverse and dynamic visual and performing arts department, team sports or fitness options, community service opportunities, and a wide range of clubs and other co-curricular activities that foster valuable life skills such as leadership, collaboration, and teamwork.

Academic Travel Program

Travel is an integral part of the TASIS England education and experience.

Every year during October half-term week, we offer exceptional travel opportunities for all Upper School students (Grades 9-12) with school-led trips to several different destinations. The trips are assigned by grade level and linked to the Upper School curriculum. We endeavor to offer a healthy balance between traditional sightseeing and hands-on, activity-based experiences for our students on each trip.

Students in the Middle School (Grades 5-8) participate in field trips during the academic day and overnight field trips through the Middle School Travel program.

University Destinations

The College Counseling department supports every Upper School student as they research, apply to, and are accepted by universities around the world. Students in Grades 9 and 10 meet in small groups with university counselors who help each student identify their specific personal, academic, artistic, leadership, and athletic qualities. Individual support begins in Grade 11 and continues through to university acceptance. In addition, career speakers and university representatives from around the world visit campus each year, providing our students with insights into the professional and educational opportunities that await them. On average, approximately 40% of our graduates will attend a university in the US, 40% in the UK, and 20% in other countries across the globe.

Summer Program

The TASIS England Summer Program is widely recognized not only for the quality and strength of our academic, sports, and travel offerings, but also as a caring and structured community where young people from over forty countries learn to live together and transcend national and cultural boundaries. Each year, we welcome students (ages 11-17) from every corner of the globe as they arrive on our 46-acre campus near London to experience an unforgettable summer in England.

Weekends are a time to choose your adventure. Experience the ancient mysteries of Stonehenge, ride a roller coaster, go paintballing, or discover London. Teachers and counselors will accompany the groups to ensure that all trips and activities are both fun and safe.

TASIS Parent Community

TASIS England views education as a partnership between the School and the family. Many of our day student families are expats who come from all over the world to spend a few years of their lives living and working in London.

Our active and enthusiastic TASIS parent community offers support to the students and their families. New families are warmly welcomed and quickly make friends as they integrate into the school community.

The TASIS Parent Association (TPA) and the Parent's Information and Resource Committee (PIRC) organize social events throughout the year and well-established informational seminars to help new families as they settle and adjust to their new life in the United Kingdom.

With over 60 nationalities and 30 languages represented in our School, each of our families brings with them their own unique story and contributes to the rich cultural diversity of our international community.

Co-curricular

We are proud to offer an extensive Arts program that includes Studio Arts, Theatre, Dance, Music, Photography, and Film. Students in the Lower and Middle Schools take Arts classes throughout the year with specialist teachers. TASIS England diploma requirements include completion of at least one credit in the Arts and Upper School students can choose from a variety of courses. In our beautiful, modern facilities, TASIS hosts many music recitals and concerts, theatre productions, art and photography exhibitions, and dance performances during the school year.
