The 27 fourth and fifth grade members of the Ed Clapp Elementary School Empowered Explorers student leadership group will join the seniors at Valley Senior Services for a belated St. Patrick's Day celebration on Tuesday.

The students will spend an hour at Valley Senior Services' Ed Clapp Park Senior Center location for some fun with baked goods. The students and seniors will decorate St. Patrick's Day-themed cookies together as they bond and learn a little bit more about individuals from another generation.

The Empowered Explorers student leadership group meets once or twice each month with a focus on serving the school community as well as the Fargo-Moorhead community at large. The group collaborates with school staff to improve the student and staff experience at Ed Clapp. Students go through an application process to join the group.
