TEACHER SPOTLIGHT

MS. ROUX

**NOMINATE THE NEXT
TEACHER!**

1. What year is this for you at THS?

This is my 7th year teaching at THS but if we count the years I was a student, I have been at THS for 11 years!

2. Who is your favorite musical artist?

My favorite musical artist is Ed Sheeran, super convenient his first series of albums were all math related!

3. What is your favorite thing about teaching math?

I love being able to see those "a-ha!" moments in my students when they understand how to solve a problem! It never gets old!

5. Favorite thing to do outside of working at THS.

You can find me on the softball field or I really enjoy crafting! I make all of my witty math shirts using my Cricut machine and I recently learned how to crochet Amigurumi.

The Parents Who Host Lose the Most Campaign aims to educate parents about the health and safety risks associated with serving alcohol at teenage house parties and increase awareness of social hosting and underage drinking laws.

In New Jersey, it is illegal to serve alcohol to a minor who is not their child, even in their own home.

This program also discusses implications of the recent cannabis legalization on those under 21.
