Durham · Freeport · Pownal

“To inspire and support every learner by challenging minds, building character, sparking creativity, and nurturing passions.”

Jean Skorapa, Superintendent of Schools
Kelly Wentworth, Director of Finance & Human Resources

Cynthia Alexander, Assistant Superintendent of Schools
June Sellers, Ed.D., Director of Instructional Support

Curriculum and Program Development Committee Report

Committee: Curriculum and Program Development

Meeting date: April 9, 2024

Committee Members in attendance: Danielle George

Administrators: Cynthia Alexander, Jen Gulko

Guests: Erica Wallstrom,

An overview of the year-long curriculum work in science at the high school was presented to the committee. The presentation outlined our goals as a high school science department: developing a common definition and understanding of phenomena and phenomena-based learning, and alignment to the Next Generation Science Standards.

The outcomes this year have focused on collective learning and growth, implementing phenomena-based instruction, and focusing on the cross-cutting standards and science practices. These practices will have a feedback process that is being developed.

Submitted by: Cynthia Alexander

The next meeting will be held in the fall.
