

# Policy Subcommittee Meeting

Feb 28, 2024 at 2:15pm

Via Zoom

Present: Emily Berry, Donel Beals, Kerri Anne Quinlan Zhou

Absent: Kari MacRae

Approved meeting minutes from 1/17/24

Discussion Items:

**Policy EFC** - Discussed changes to new policy EFC put forth by MASC. We are not a CEP district so we do not need to collect household applications. Discussed removing that section but advised by Jordan to keep in policy for reference

We agreed to send policy EFC to full committee for a vote

**Policy EFD** - school lunch account process needs further discussion at a building level. Since the start of covid and the change to provide free lunch to all students, lunch accounts have not been regularly used. Kerri will consult with the building admin and food service director to see what changes are necessary and we will add to a future meeting agenda.

**Job descriptions** - no new job descriptions this month, will have a few in March

**MASC updates** - MASC usually puts out a March newsletter with policy updates

**Update on KF-R and KG-E** - town of Bourne is looking into user fees for baseball fields. Field next to the library is actually a town field and will be maintained and run by the town. Since Bourne Rec uses BPS fields, we will need to implement a small fee for field use in order to maintain the fields. Possibility of a step up program to begin the fee schedule. District is in the process of creating this funding structure. District is looking at three tiers with different costs (town rec, town nonprofits/other organizations, out of town groups)

This would not begin until Fall 2024
