

Mar 27, 2024 | 📅 SHAC

Meeting began at 1:00pm

[Audio Recording](#)

Notes

- Norms
- Consideration of Extended Terms
 - Bylaws of terms: term of 2 years, members may not serve consecutive terms, can reapply for membership to the committee after at least 2 years have passed since their last date of service.
 - Change to 3 year term? Delay turnover? Maintain a percentage and keep 2 year overlap? Raise the cap? (too many members may make it difficult to find a quorum and get members to attend meetings)
 - Jennifer Lyon to send out a survey and vote at next meeting. = term limits, percentage of 50% turnover (50% new members, 50% midterm),
 - Possibly add an additional meeting next year
- Puberty TEKS:
 - SHAC Puberty review spreadsheet presented. The decision is voted on by SHAC, and does not need to be taken to the Board.
 - Jennifer Lyon showed each puberty video to SHAC members during the meeting
 - Quaver video: does not discuss much about hygiene - eliminated from list
 - Austin ISD document and Privacy video: Discussed vocabulary used during lessons and separating males and females during lessons. Some members feel that the vocabulary and coloring pages might be too intense, Jennifer Lyon read aloud info from the AISD web page regarding the puberty curriculum for grades 3-5. AISD lessons seem too big - would completely change our curriculum, maybe stick closer to what we already use.
 - Look further into this curriculum when discussing other topics such as sex trafficking, sexual abuse, sexual harassment, and relationships.
 - Jennifer Lyon states she is waiting on guidelines from TEA. Jennifer discussed that LTISD and other districts are very careful with the vocabulary used especially with younger children.
 - LTISD Nurses teach puberty lessons.
 - Gina Dreesen commented that she likes that the Austin ISD looks more like a lesson plan vs the kids watching more videos.
 - Danielle Zibliski states they only teach these lessons 1 time per year and for about 40 minutes.
 - Growing Up video - seems to be good to show to boys and girls, 5th grade only. 2 videos shown - Growing Up for Boys (full video) and Growing Up for Girls (special needs version and trailer only). Comments: concern about video being

too binary and not inclusive enough. Taking steps toward inclusivity needs to be presented in every step. Look into more inclusive videos. Goal is to meet the TEKS, the goal is to support and educate every student, no matter what.

Discussed that not all kids know or have talked to an adult about who they are, and need to be sensitive to that. Suggested to keep what we have for now and keep researching other options.

- Student members' opinion - like P&G video best.
 - Vote recorded on audio recording: 4th grade = Meet the New You, 5th grade P&G for this school year
 - Meet the New You video - good for 4th grade
 - Just Around the Corner - currently used by LTISD, preview video shown
-
- Update on CAVS 101 course had been presented to the board and is now sitting with C&I Dept

Meeting Adjourned at 2:38pm
