To Parents of Student Bus Riders:

From: AISD Transportation Department

Welcome to another new AISD school year. We want to assure you that your student(s) are in safe hands as we continue doing everything we can to ensure the safety of all our school bus riders. As the Transportation Director I can assure you that we plan to take every measure to ensure that your child's transportation needs are as consistent and reliable as humanly possible.

Please know that although we strive for perfection there will always be unavoidable circumstances that may cause transportation delays, but we will do our best to minimize those delays and to communicate them to you as early as possible. With that being said, we will continue the business of making our district school bus transportation efficient by following the following practices:

1. We do not practice door-to-door service within AISD. There will be designated community stops for students to rally at. Door to door service can be very inefficient and it is the responsibility of the school district to provide safe and efficient transportation to the students.
2. The law does not require a parent to see the bus stop from the comforts of their home. Students in Kentucky may be assigned to a bus stop up to one mile from their home. We encourage parents to accompany their child to the bus stop whenever possible. Your child may be required to walk up to 3 blocks, the standard for Ashland Independent School District uses the following guidelines:
 - a. Elementary grades up to 1 block...
 - b. Middle School grades up to 2 blocks...
 - c. High School grades up to 3 blocks...
3. For those extenuating circumstances where door to door service is necessary your student must be physically standing outside on the sidewalk for the driver to see them as they are pulling up, not standing in the door.
4. If your child misses the bus in the morning their bus will not come back to get them, this causes delays for the rest of the students and is not cost effective for the district. If your child missed the bus, they should be driven to school, not to another bus stop.

5. Students missing their bus after school.
 - a. If a student missed the bus due to their own negligence the parent will need to make arrangements to pick the child up at school.
 - b. If a teacher holds a student after school for disciplinary reasons the parent will need to make arrangements to pick the child up at school.
 - c. If a student missed the bus due to educational reasons (i.e. tutoring) he or she will have to wait until the bus driver completes their route before they will be picked up by the bus. The teacher is responsible to notify the parent that their child will be home late.

Please note that all students should be waiting at their bus stop five to ten minutes before the expected arrival time of the school bus. Bus drivers count the students at the bus stop before they load and as they get on the bus to ensure all students are accounted for and are safely on board. If students are not waiting at the bus stop the bus driver cannot count them and cannot be certain all students are safely on board. Waiting at the bus stop before the bus arrives ensures that no one chases after the bus; it is dangerous to chase after the bus and may cause injury or even death to a student. *AISD school bus drivers are instructed not to stop at locations where no students are waiting.*

Lastly, a parent cannot enter the school bus without the direct written consent of the school district superintendent. Any issues or complaints should be directed to the transportation director. The school bus is a safe zone for students and only those with proper authorization will be allowed onboard the bus. Attempts to enter or delay the school bus will cause other students to wait longer and may even put them in danger. The school bus is an extension of the classroom and all rules of the class room applies on the school bus as well.

Our #1 goal each day is to transport all student safely to and from school. In order to accomplish this goal, we need the cooperation of students and their parents/guardians. Good student behavior while entering, riding, and leaving the bus contribute in many ways to safe transportation. Such conduct makes it possible for the driver to give full attention to the roadway and other drivers.

Please take a few minutes to review with your child the information below concerning Student Conduct on the bus. The primary purpose of rules and regulations for students on the bus are for the safety of all student riders. Your child's cooperation in following all rules and procedures will be greatly appreciated.

Please make sure the school has the correct address where your child will be picked up and dropped off. Students will be required to ride the one bus to which they have been assigned. A complete list of bus rules will also be handed to each student during the first week of school.

You should also know that we have installed cameras in every school bus. This will aide in the safety of all students riding school buses.

For routing questions or problems concerning buses or drivers please call the Transportation Department at 327-2717.

Lastly, I am excited to announce that our Traversa Routing Program is up and fully running and the Ride 360 Parent app is now at your disposal. This program provides an app for your smart phone which will provide information about your child’s bus stop location and pick up & drop-off times; simply download the “Traversa Ride 360” app onto your phone. The Ride 360 app will also present you a 3-D screen showing when your student’s bus is approaching the bus stop. Please review the Traversa Ride 360 Parent User Guide Flyer for further information that will certainly enhance your child’s transportation experience in AISD.
