

# Professional Development for School Librarians

April 16, 2024

**Digital Citizenship** ~ "All students need digital citizenship skills to participate fully in their communities and make smart choices online and in life." This workshop takes a look at aligning the NYS Computer Science & Digital Fluency Standards and the information students need to be armed with when navigating the world, online. The overarching goals are to have our students use technology responsibly, safely, and for the benefit of society by making ethical and thoughtful choices online centered around respect, education, protection, and community

Presented by **Mara Healy**, Educational Technology Coach, Eastern Suffolk BOCES Model Schools

8:30 – 11:30 am ~ SCLS Auditorium

**EBSCO Database Training** ~ Eastern Suffolk BOCES School Library System provides EBSCO resources for elementary through high school students. Come learn how the students can get the most out of these resources. We will walk through Primary Search on Explora for the elementary students, and the two Biography databases as well as the ABC CLIO databases for the middle school to high school students. We will also look at the available administrative tools and provide suggestions to promote the resources to parents, students, and teachers.
