

## Medical Statement to Request School Meal Modification

**Important!** Select the applicable meal modification category from the two listed below. Then carefully read and follow the procedures for that category. The school will return incomplete Medical Statements to the parent/guardian. If you have questions about this form, please contact the School Nutrition Department.

**1. Modification due to a disability:**

- A school is required to make meal modifications prescribed by a licensed physician to accommodate a student's disability. See the definition of disability on the back of this form.
- Part B of this form must be completed by a licensed physician (MD or DO).
- Parts A and C of this form must also be completed before the school can make meal modifications.

**2. Exclusion of fluid cow's milk due to lactose intolerance, allergy, vegan diet, religious, ethical, or cultural reasons:**

- Our students may still receive school breakfast and school lunch without fluid cow's milk as requested by a parent/guardian, but that is not prescribed by a licensed physician.
- Parts A and D of this form must be completed before the school will take responsibility for ensuring that your child does not receive fluid cow's milk with breakfast or lunch.

These exclusions will continue until a parent/guardian request that the exclusion to be stopped on the 'Discontinuation of Meal Modification Form,' which is available on our website.

<b>Part A. Student, Parent/Guardian &amp; School Contact Information</b> – To be completed by a parent/guardian or school contact person			
Student's Name:		Date of Birth:	School:
Parent/Guardian's Name:		Parent/Guardian's Phone:

**Definition of Disability:**

The Rehabilitation Act of 1973, Section 504 (Section 504) and the American Disabilities Act (ADA) of 1990 provide regulatory guidance which defines a disability as any physiological disorder or conditions, cosmetic disfigurement, or anatomical loss affecting the body's systems or any mental or psychological disorder<sup>1</sup> which affects one of the major life activities<sup>2</sup>.

<sup>1</sup> Physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine. Mental or psychological disorders include the following: intellectual disability, organic brain syndrome, emotional or mental illness, or specific learning disability. The term physical or mental impairment includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, intellectual disability, emotional illness, drug addiction, and alcoholism.

<sup>2</sup> Major life activities include the following: bending, breathing, caring for oneself, communicating, concentrating, eating, hearing, learning, lifting, major bodily functions, performing manual tasks, reading, seeing, sleeping, speaking, standing, thinking, walking, and working. Major bodily functions include, but are not limited to, the following: functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine and reproductive functions.

USDA is an equal opportunity provider, lender, and employer.
