STATE**

CTE Early College High School Vs Early College High School

- CTE-Offers students a “degree” rather than just basic college core.
- CTE-Offers students the opportunity for “more choice.”
- CTE-Offers students the opportunity to graduate with a professional, lifetime skill.

- One are now the largest CTE Early College High Schools in Texas with 11 different pathways.
- It provides life-changing credentials for OC TECHS graduates that will have an immediate and prolonged benefit to their families, the local economy and the college-going culture of Odessa itself.
- A CTE Early College High School provides a work-force ready opportunity. (60 hours—Associate's Degree in a specific field of study.)

CTE Early College High School

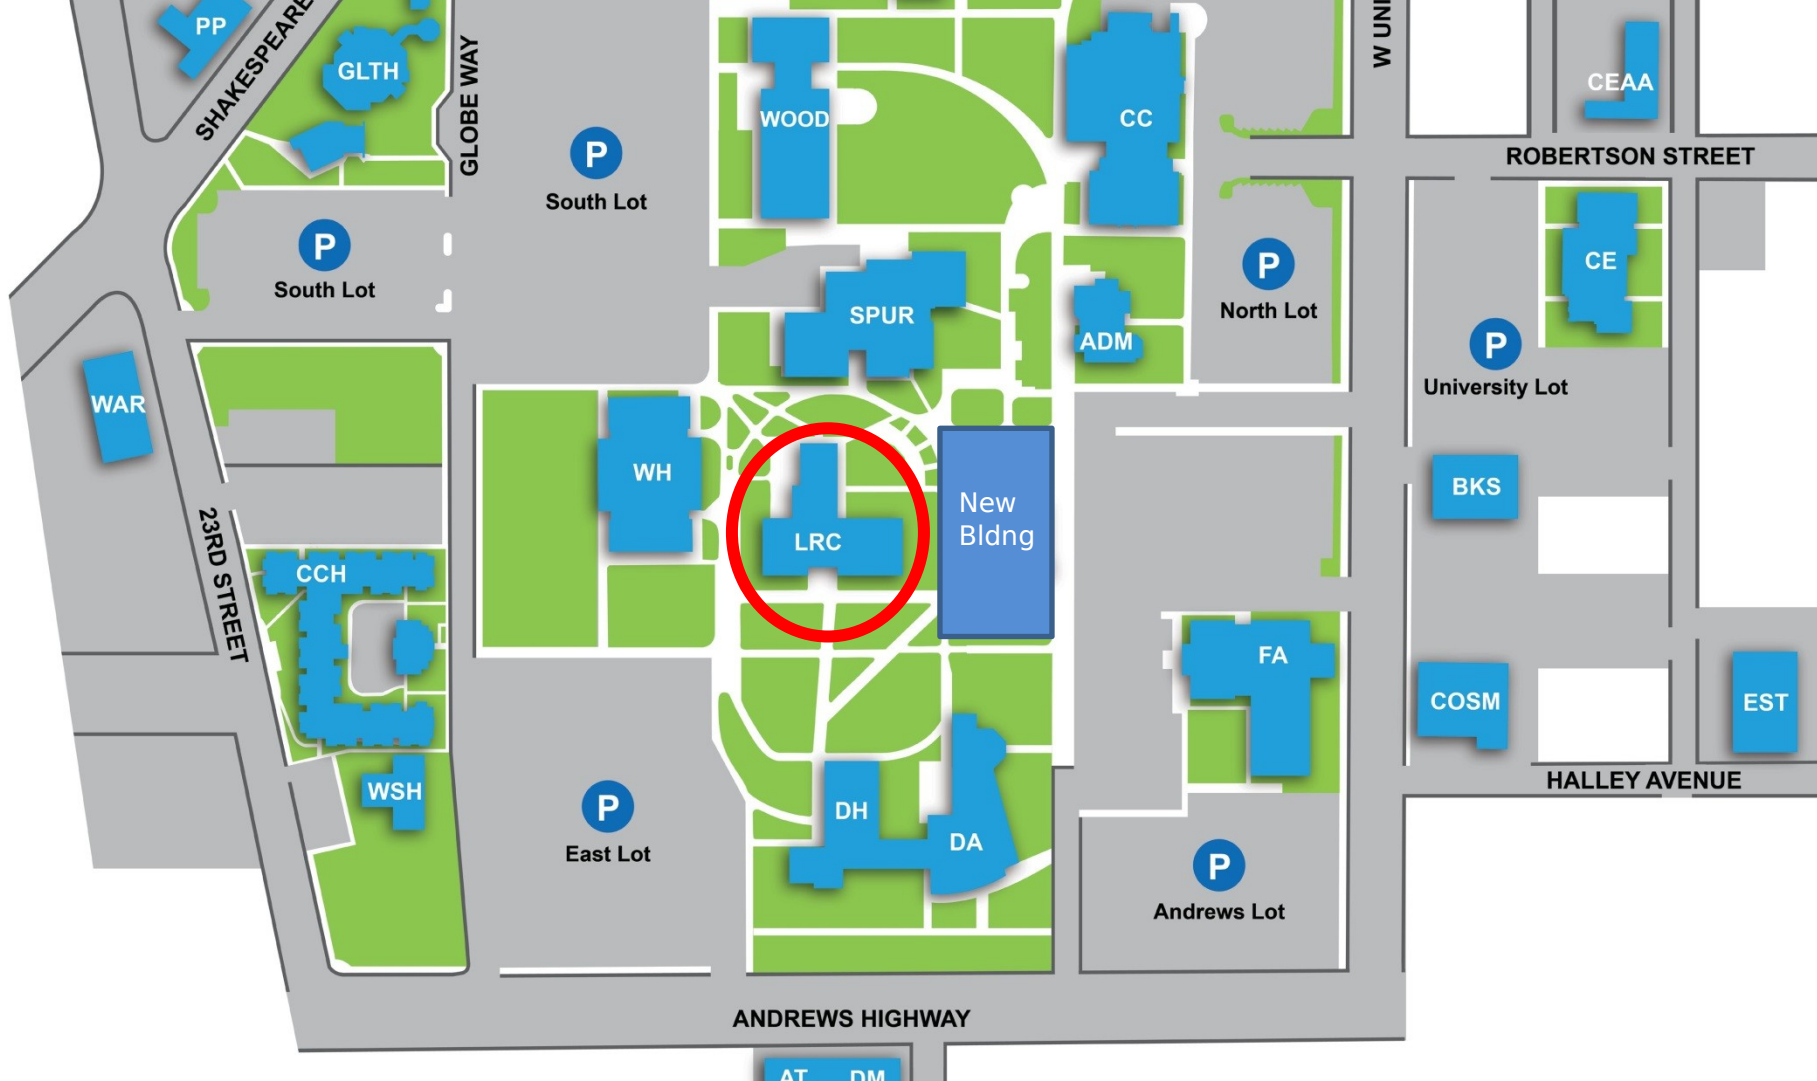

- Dual Credit
 - Students take career and core academics for college credit and high school credit.
- Dual Credit
