

IAR Academic Success Report

Presented to the Board of Education
Student Success Committee
January 10, 2022

Table of Contents

- Overview
- District Grade Level Comparison
- District Cohort Comparison
- Grade Level ELA Data
- Grade Level Math Data

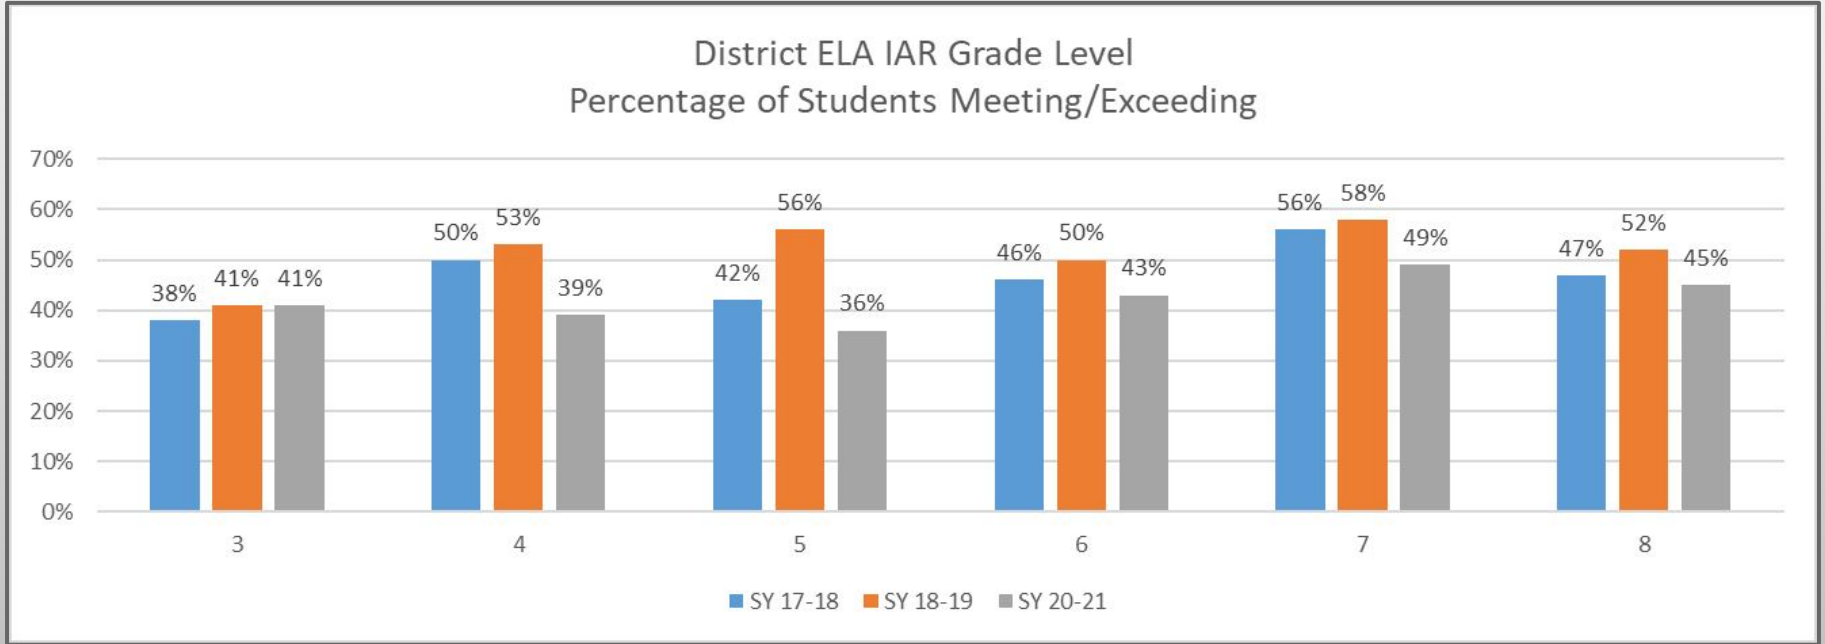

Overview

In the spring of the 2020 - 2021 school year, students in grades 3-8 took the Illinois Assessment of Readiness (IAR). This data represents all modalities of learners including remote, hybrid, and full time face to face learning.

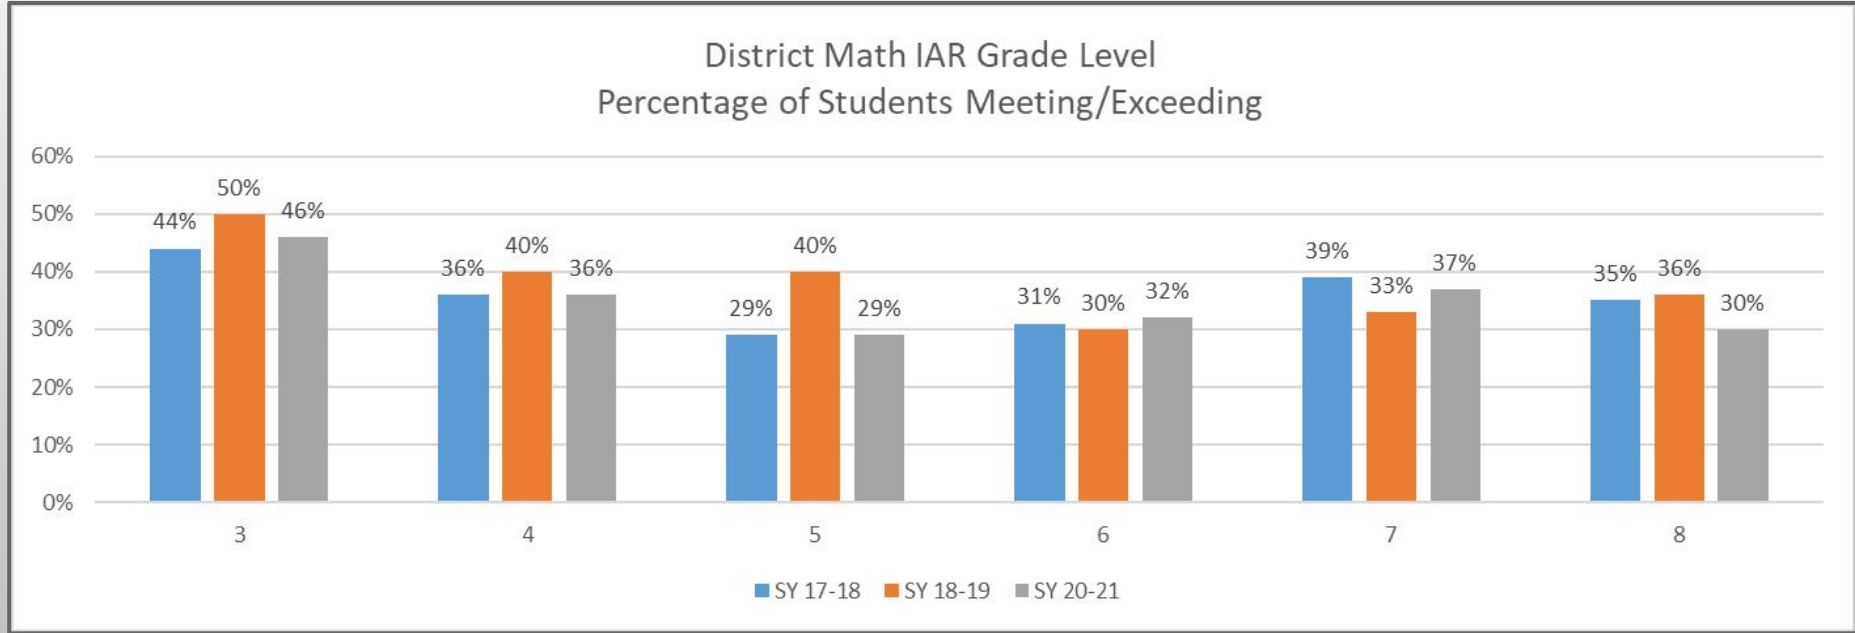

The data in this presentation represents the last three years of data collected from this assessment dating back to the 2016-17 school year. Due to the statewide school shutdown of 2020 in response to the Covid-19 pandemic, the IAR assessment was not given. As a result, there is no data provided for the 2019 - 2020 school year.

IAR District Comparisons

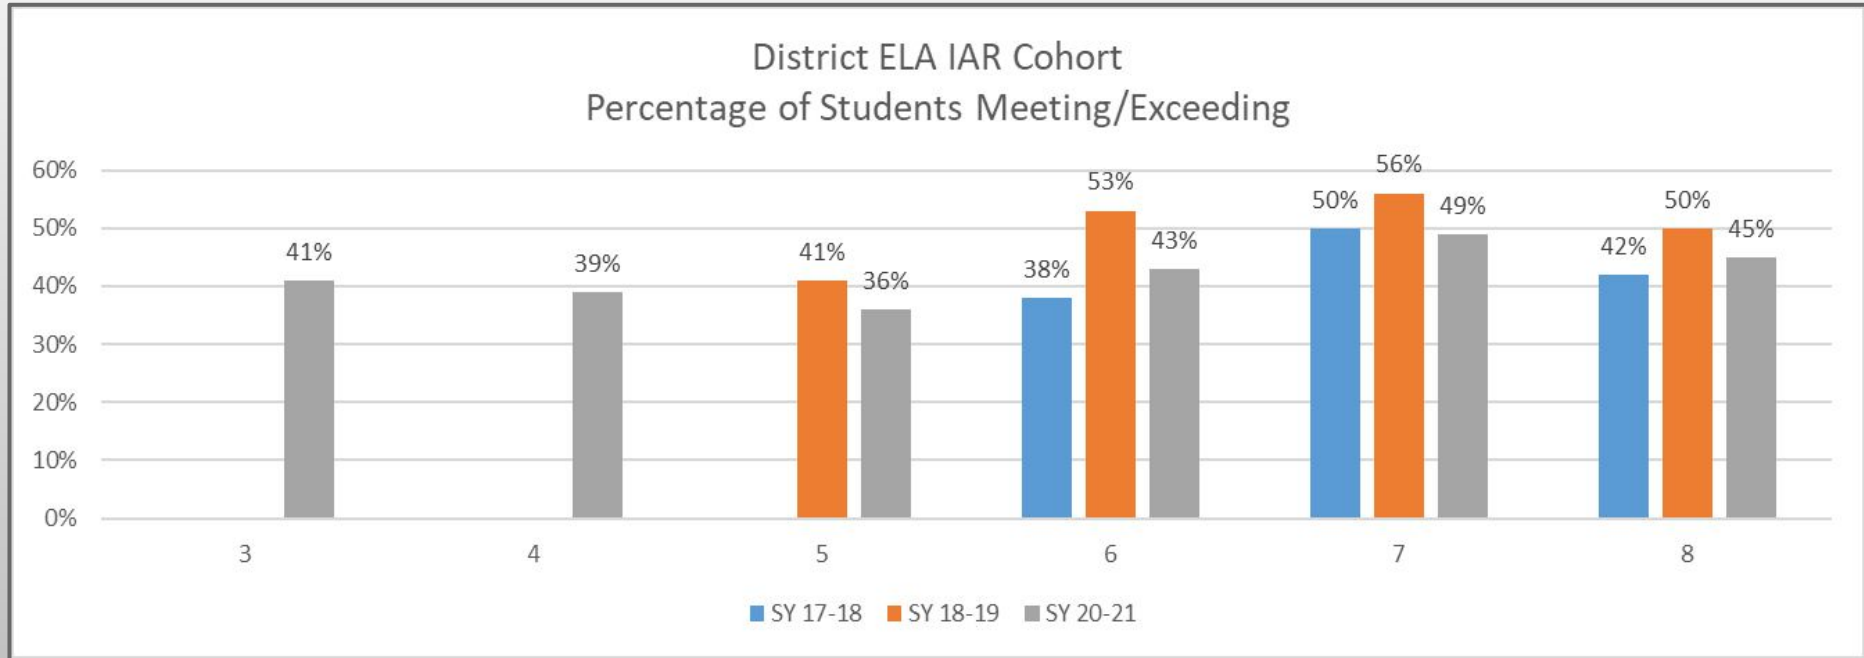

District Comparison by Grade - ELA

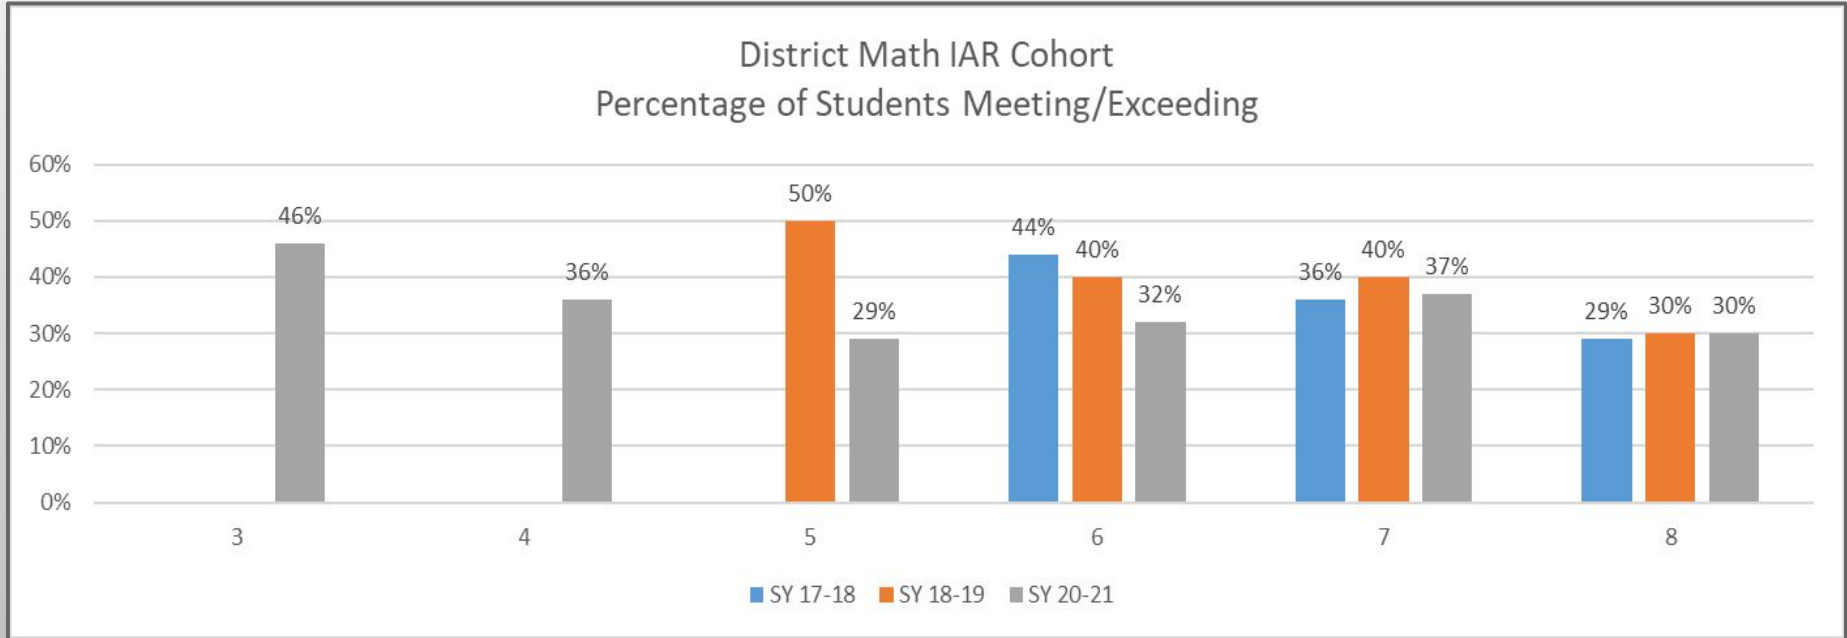

District Comparison by Grade - Mathematics

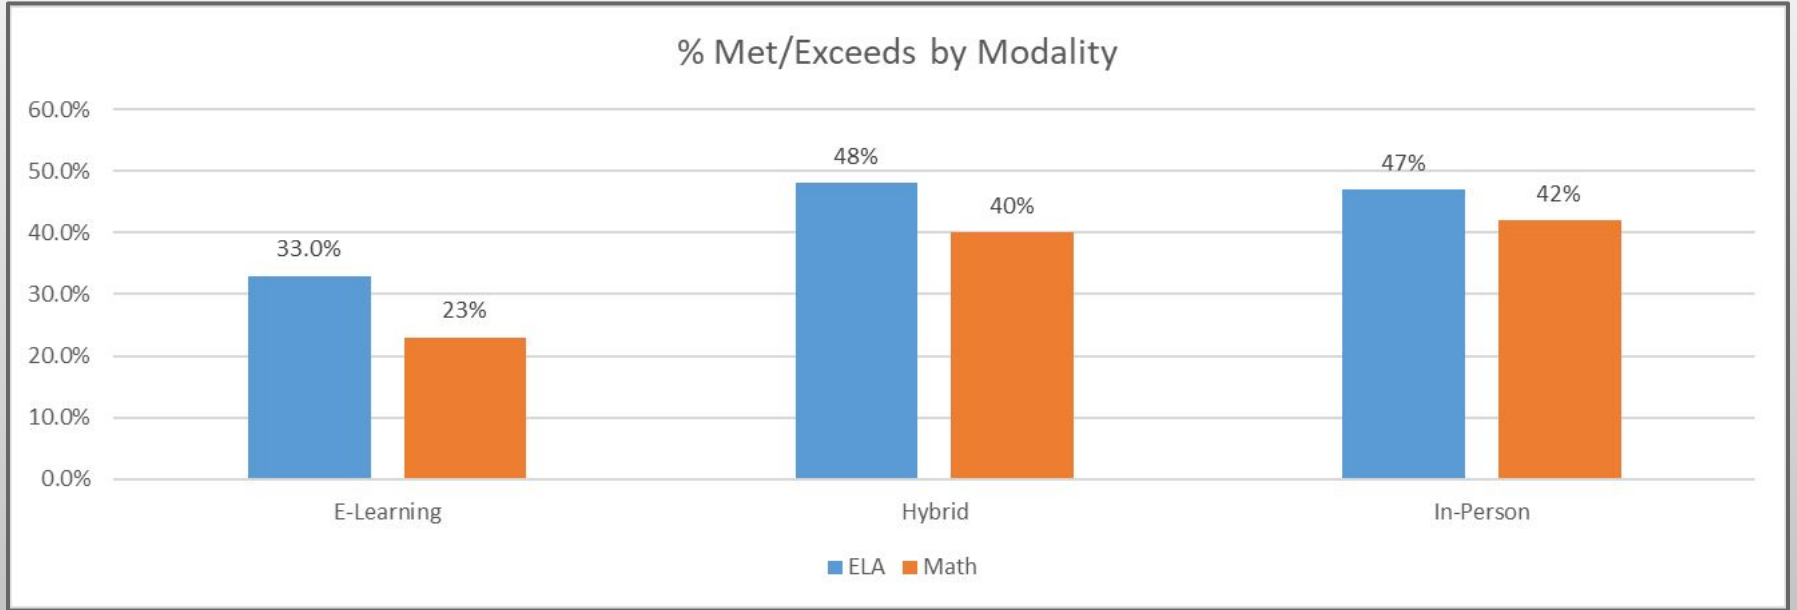

District Comparison by Cohort- ELA

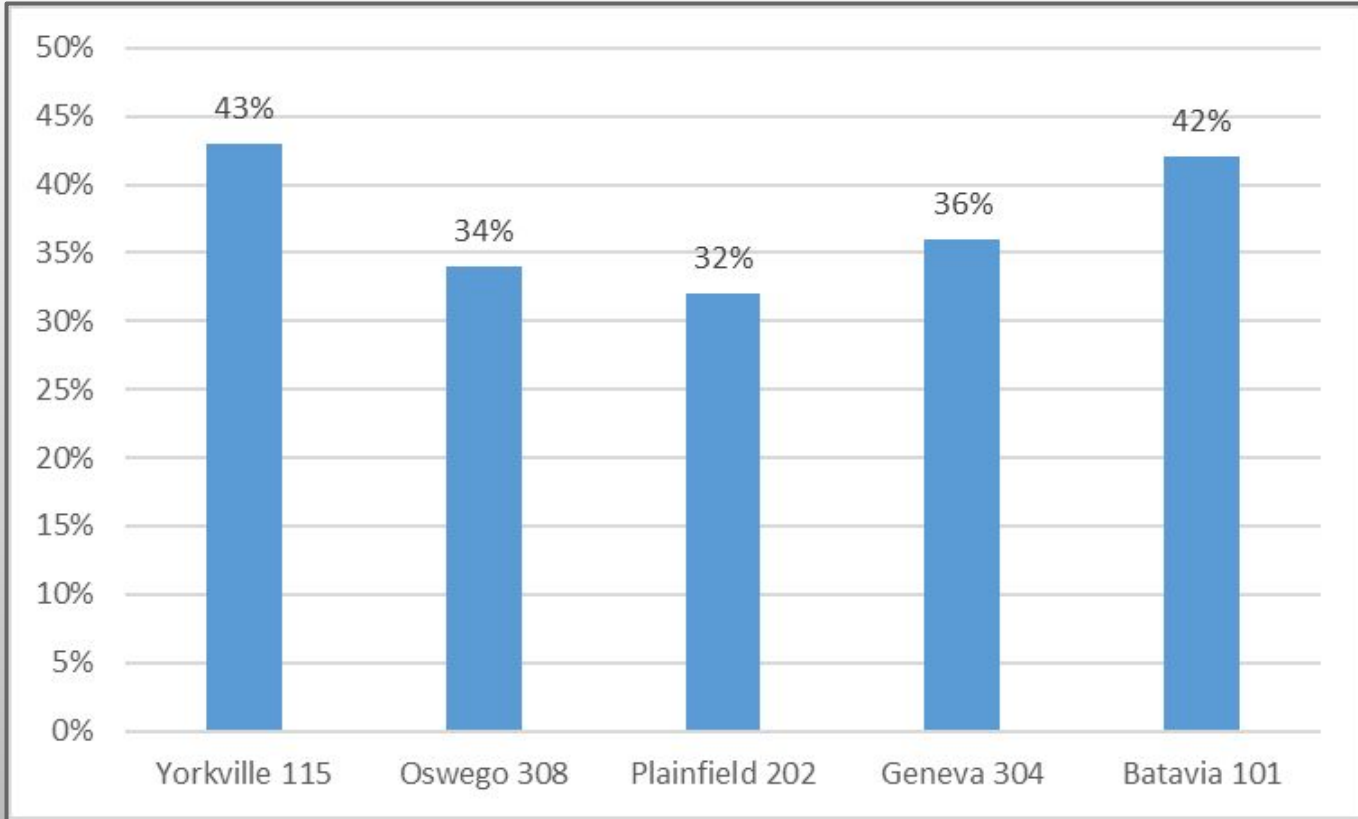

District Comparison by Cohort - Mathematics
