

# Technology Department

## ***Welcome to our Family!***

We are a bring your own device (BYOD) school that is powered by Microsoft. Nazareth Academy High School's relationship with Microsoft has allowed us to always have the latest business standard technology. Each student has an Office 365 account for access to her school email, online versions of office, and OneDrive cloud storage.

Your daughter will also have the ability to download the full Microsoft Office suite on to up to 5 different device. If she is taking a course that requires Adobe, she will receive full access to download the Adobe education creative suite.

Got a computer problem? No worries! At Nazareth, students can borrow a laptop from our student helpdesk for the day until their computer problem is resolved.

## **Our Device Recommendation**

Below is the minimum laptop specifications that we recommend:

**Processor:** Intel I5 or better/ AMD Ryzen 5 or better

**System memory (RAM):** 8GB or more

**Storage (Hard Drive):** Solid State SSD/M.2 with 500 GB or more

**Screen size:** 13"- 15"; Touch screen is optional but recommended

**Operating System:** Windows 10 or Windows 11

**Any protection plan or 3 to 4 year warranty is recommended**
