

Transportation Activities for March 2024

- * March 1- we had our first elementary out first release day. It went pretty well considering we had a major road closure on S. Substation Rd. that we had to navigate around. We have some things to adjust before the next one.
- * March 8- One of our bus drivers took a bus down to Emmett High School for the Community Business Expo that ran from 9am to 3pm. We had 2 young men who are seniors ask if we would participate as part of their senior project. The driver reported that it was pretty busy all day. She handed out flyers on Stop Arm Procedures to the adults and Bus Safety Color books, and smarties for the kids. She ran out of color books by noon.

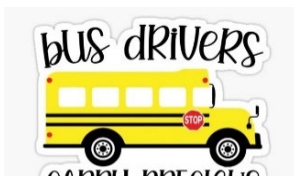

- * March 12- All of our drivers completed the state requirement to complete 2 full emergency bus evacuations. Thank you to all the building staff for your patience while these are being done.
- * March 13- We had a staff training day scheduled. We split our staff and had 15 of our team members attend a CPR class at Valor. A huge shout out to Laurel Whittemore and Danell Bickford for working with us and setting up the training. The remaining team members had training provided here in our building reviewing procedures and updates provided by one of our trainers. The remaining transportation staff completed the CPR training on March 28th and 29th.
- * We have been notified that S. Substation Rd will be closed again from E. 12th Street to Hwy 16 and from Hwy 16 to Cherry Ln. We are trying to figure out routing so we can contact parents with a plan for the rest of the school year. It will also impact our Pr2TA to High School runs every period.

April 25, 2024

Let your bus driver know how much you appreciate them!

- * We hired 1 more driver who was fully licensed and has driven school buses. He is ready to go and will be part-time and help cover routes and take trips. We are excited to have him joining our team! Unfortunately we lost a couple that of prospective drivers that were in training so we still have the job posting open for a couple more driver.
