SAM GUY

Brookfield Central
Class of 2024

I've learned so much that will help me in the future, in group project, presentations, job interviews, communications, emails, professional manners/diction, and so much more! My success in my group projects is something I will always be proud of.

...I will never forget what that woman taught me, and how sometimes being there for people with your presence is much more important than being there for them with your words. I learned to always put yourself in other people's shoes, and be willing to step in to comfort those who are in a state of distress. I grew a lot as not only a nurse, but as a caregiver and person, and for that I will forever cherish that woman.
