FIELD TRIPS AND EXCURSIONS

The Board of Education recognizes the desirability to provide off-campus experience which will enhance the educational program of the school system. The Superintendent of Schools will determine the frequency and content of class field trips. Field trips will be allowed subject to the approval of the Superintendent of Schools or his/her designee.

Factors relevant in consideration of approval of such field trips may include the relationship to the curriculum, the distance of the trip, availability and utilization of transportation, the cost involved, weather conditions, and safety considerations. Such trips may not seriously interfere with educational routine of the students who must remain in school.

On all school sponsored trips involving students, provision will be made for proper supervision by school employees. Parents are permitted to assist in such supervision.

Each student must secure the permission of his/her parent/guardian before participating in such activity.

Only properly certified bus drivers will transport school children.
